

Presenting to the class from the lectern computer

To present from the lectern computer, first login to the computer.

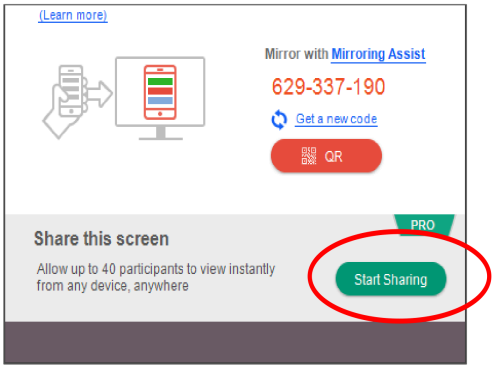

Next open the Mirroring360 application.

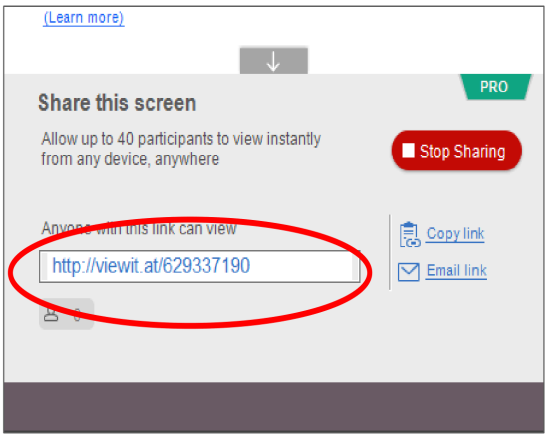

Start Sharing from lectern computer

After the application has started, Click the “Start Sharing” button at the bottom of the window.

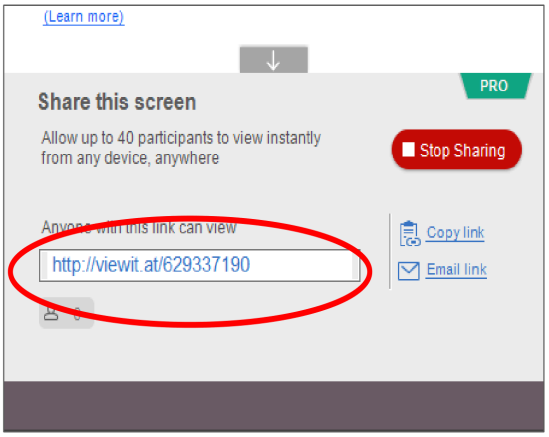

After starting to share, a URL will be shown for other users to connect to. The last 9 digits of the URL should be shared with all viewers.

Once users connect, navigate to the presentation material (power point, webpage, etc.)

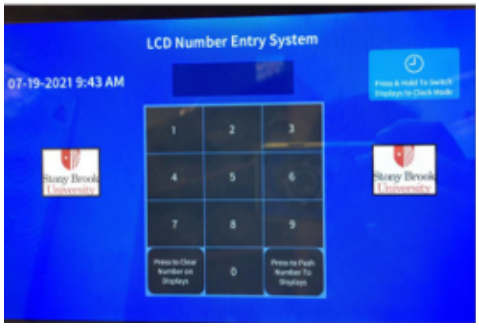

Entering 9-digit code to Touch Panel

Once the Code has been obtained from the previous steps, locate the touch panel to control the tickers on the central columns of the room.

Enter the 9 Digit numerical code and press the “Push Numbers to Display” button.

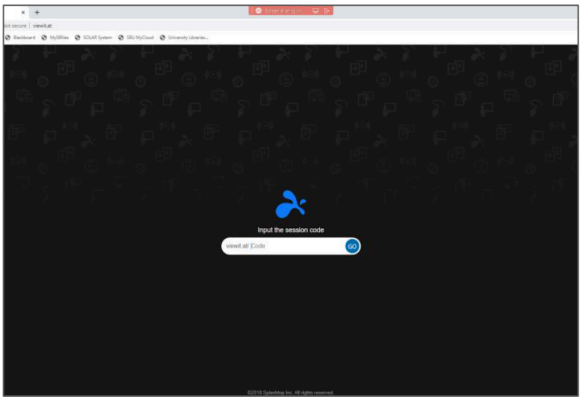

The 9 Digit code will scroll on the displays for everyone to see.

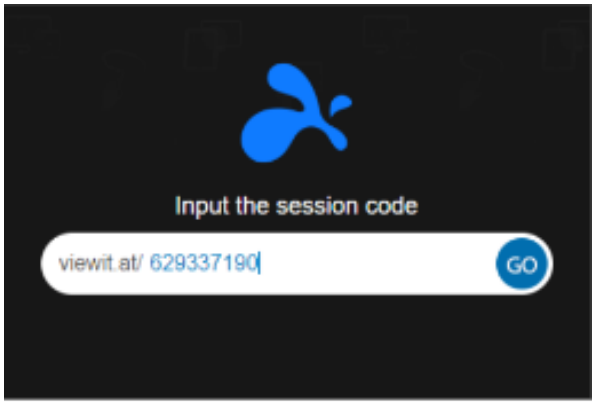

Viewing Shared Content

To view the shared content, login to a computer and navigate to www.viewit.at

Once the “input code” webpage, enter the 9 digit code provided by the sharing computer, and press “go”

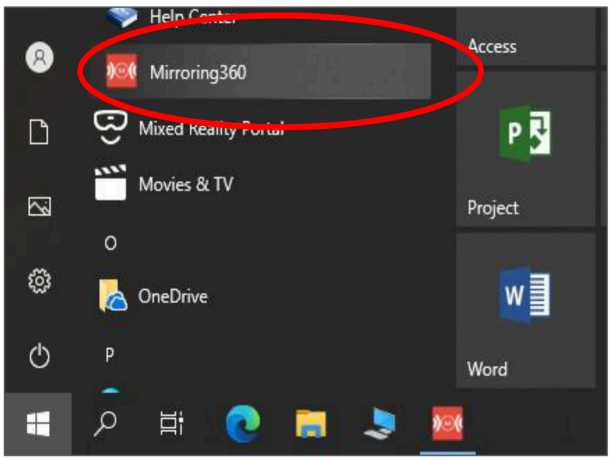

Once the shared media starts to show on the device, press the full screen button to maximize the shared content

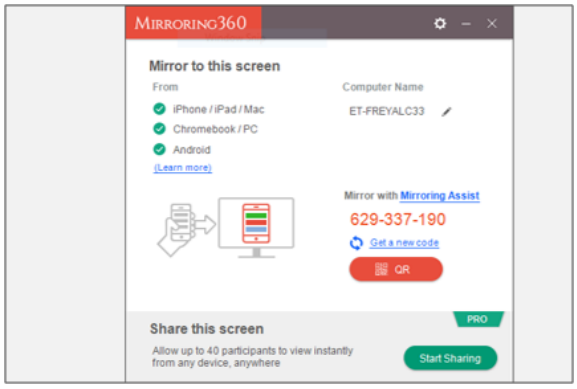

Presenting to the class from any student group station

To present from student group station, first login to the computer.

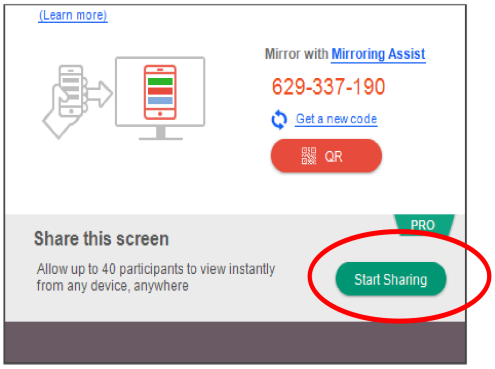

Next open the Mirroring360 application

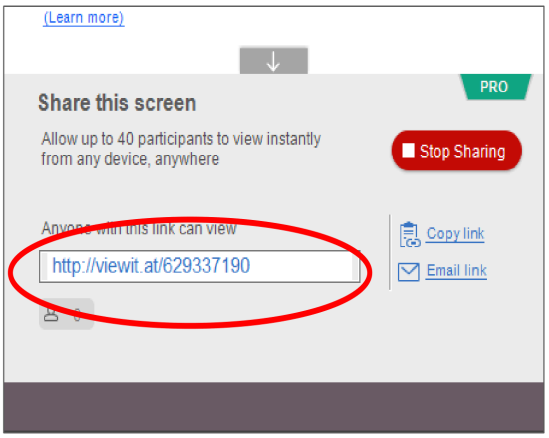

Start sharing from student station computer

After the application has started, Click the “Start Sharing” button at the bottom of the window.

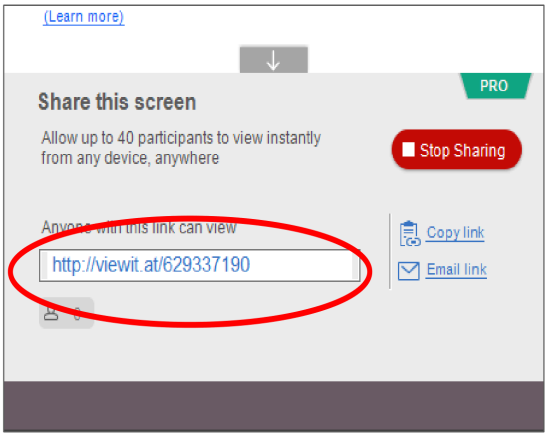

After starting to share, a URL will be shown for other users to connect to. The last 9 digits of the URL should be shared with all viewers.

Once users connect, navigate to the presentation material (power point, webpage, etc.)

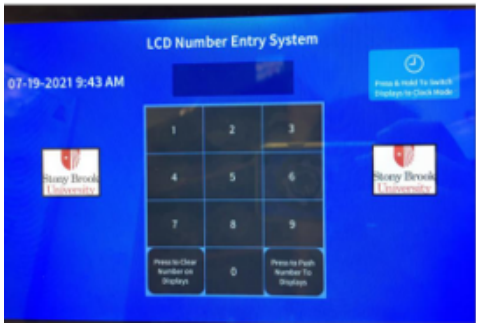

Entering 9-digit code to Touch Panel

Once the Code has been obtained from the previous steps, locate the touch panel to control the tickers on the central columns of the room.

Enter the 9 Digit numerical code and press the “Push Numbers to Display” button.

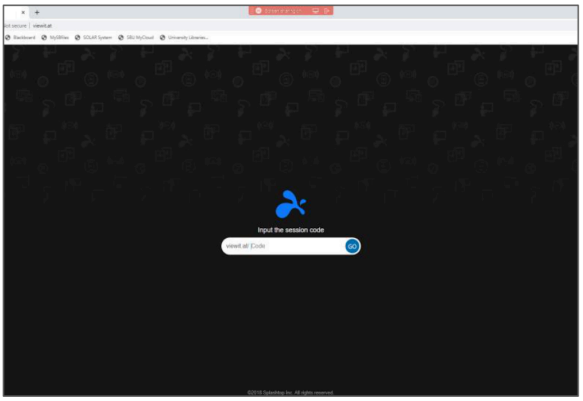

The 9 Digit code will scroll on the displays for everyone to see.

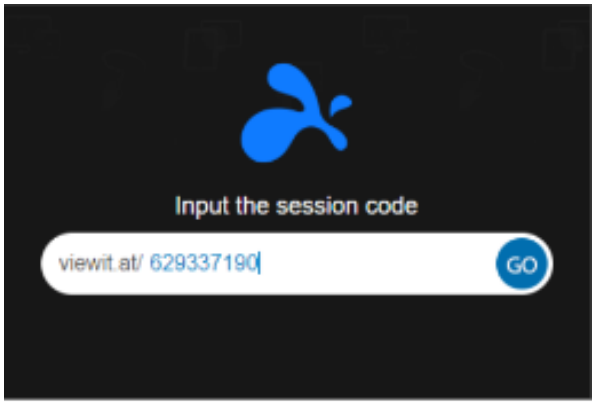

Viewing Shared Content

To view the shared content, login to a computer and navigate to www.viewit.at

Once the “input code” webpage, enter the 9 digit code provided by the sharing computer, and press “go”

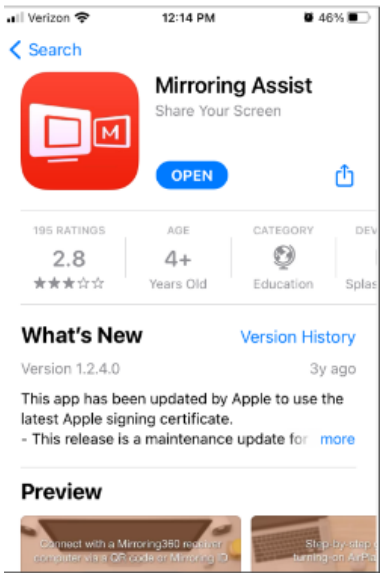

Once the shared media starts to show on the device, press the full screen button to maximize the shared content

Collaboration with personal devices at student stations

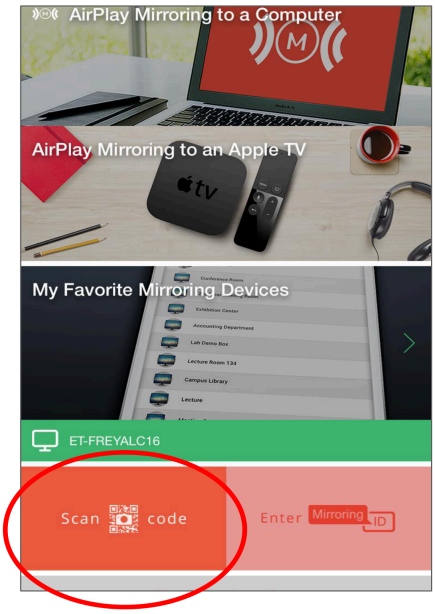

First download the “Mirroring Assist” App from the app store on the device. (Windows users may need to purchase the application through the windows store.)

Next launch the app.

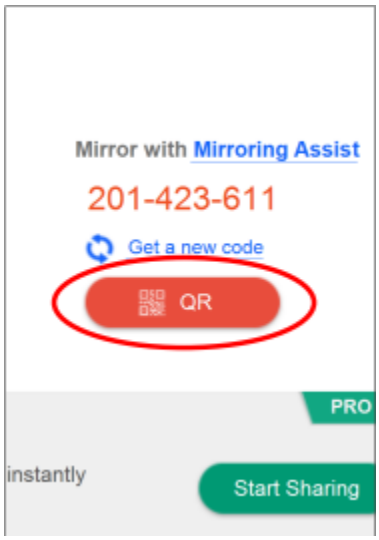

Then press “Scan Code”

Alternatively select “Enter Mirroring ID” if scanning a QR code is not desired

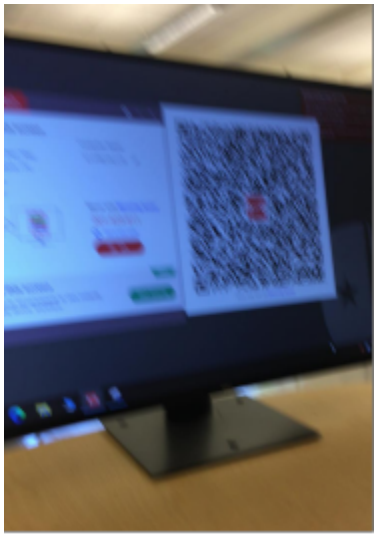

Start Sharing from personal devices

Next Press the “QR” button on the Mirroring360 app on the computer.

Once the QR code shows on the screen, scan it with the personal device.

If “Enter Mirroring ID” was previously chosen, enter the code shown in the Mirroring360 app on the computer.

After the device scans the code, follow the on-screen instructions to connect and collaborate
