(A Govt. Aided UGC Autonomous a& NAAC Accredited Institute Affiliated to RGPV, Bhopal and Jiwaji University, Gwalior)

## **DEPARTMENT OF MANAGEMENT**

### **Report on COVID Awareness Program**

NSS Unit of the Department of Management organized an awareness program on “Updates on COVID 19, Omicron and COVID Vaccination” on 31<sup>st</sup> January 2022 via Google Meet.

#### **Objectives of the event:**

1. To create awareness about Variants of COVID 19, especially Omicron.
2. To give clarification on various questions related to COVID 19.
3. To discuss the myths and facts related to COVID 19: precautions, treatment and vaccination

#### **Regarding the Event:**

As the world is facing third wave of COVID 19 in the form of Omicron variant and India has entered third phase of vaccination, it has also been parallelly observed that the people have become complacent towards the same. The preventive measures and the protocols are not being followed as in last two faces. Therefore, it becomes important for us to understand the importance of vaccination and the effects of our negligence.

With the same objective, an insightful and informative awareness session was organized by the NSS Unit of the Department of Management. At the outset the speaker and audience were welcomed by NSS Unit (DoM) faculty coordinator Dr. Monica Chauhan Bhadoriya. The speaker of the session was Dr. Gajendra Singh, Health Officer, UNICEF, Chhattisgarh. He enlightened the audience with the facts and figures of the pandemic. He gave the information regarding the vaccination and its importance. Various myths and FAQs were also discussed and clarified. Doctor also answered to the queries of the audience satisfactorily.

The vote of thanks was given by Dr. Monica Chauhan Bhadoriya, the coordinator of the event. The session was very much interactive. The feedback of the workshop was very

positive and it was a great learning for the students.

### Outcomes of the event:

1. The students became aware of the facts about COVID 19 new variants.
2. The students understood the importance and necessity of being vaccinated.
3. The students were enabled to face the pandemic with calmness and patience and also, to take care of others during pandemic.
4. Dos and don'ts of pandemic became clear to the audience.

### Participants:

There were 35 participants from various institutes across the city including the parent institute.

### Snapshots:

The poster is for an awareness program organized by the Department of Management at Madhav Institute of Technology & Science, Gwalior. It features a blue and yellow color scheme. On the left, there is a circular portrait of Dr. Gajendra Singh, Health Officer, Unicef, and below it, the Faculty Coordinator, Dr. Monica Chauhan Bhadoriya. At the bottom left, it mentions the event is organized by the NSS Unit of the Department of Management. The main text on the right reads 'DEPARTMENT OF MANAGEMENT Presents AWARENESS PROGRAM ON COVID,OMICRON VARIANT AND COVID VACCINATION'. It specifies the date and time as 31 January 2022, 4:00PM - 5:00PM, via Google Meet. At the bottom, it provides a registration link and a Google Meet link.

# Will current vaccines remain effective against Omicron?

**Bharat Biotech – Covaxin :** Studies underway

**BioNTech and Pfizer :** an established vaccine will likely prevent hospitalization

**SII Covishield –** Demand for updated booster shot, studies underway to check efficacy of covishield against Omicron

**Russia's Sputnik:** has already begun developing the new version of Sputnik vaccine adapted to Omicron

**WHO:** is premature to draw any conclusions about the efficacy of vaccines against Omicron

**Moderna:** can roll out a reformulated vaccine against the Omicron variant early next year

### 7. COVID-19 vaccines cannot be trusted as they were rushed and not tested properly.

Not correct. Because vaccines underwent thorough safety and efficacy trials as per protocols.

### 8. Vaccination means Goodbye to Masks

No, vaccines provide an additional layer of protection but are not a replacement to masks or other COVID appropriate behaviour.

### 3 warning signs

- High grade fever even after 5 days
- Increasing dry cough while sleeping, talking
- Breathlessness, Exhaustion, exertional dyspnea (worsening from before)

### 3 must have things with home treated patients

- Thermometer
- Pulse Oximeter
- Emergency Doctor / Hospital contact details

### 3 things to be monitored daily

- Spo2 with 6 min walk <94
- Temperature > 101 (after 4th day)
- Heart rate (resting >100)

### 3 things to avoid for treatment

- WhatsApp
- Google
- NEWS

### 3 things making difference

- Will power
- Immunity
- Faith in Treatment (fake Remdesivir also worked)
