

[fireplace sfx // magical poof] It was a pleasure doing business with you Cy, thank you for being so agreeable to our little deal. I'm sure your first born is going to love this arrangement you made for them. **[chuckle // magical poof]** Now you dear, you're looking confused. Let me explain some things to you real quick. I'm sure you have plenty of questions and I'm more than willing to answer them if you give me a second to explain myself. As you heard when you appeared, Cy, one of your parents, just happened to make a lovely little deal with me. Cy agreed to give me their first born in exchange for protection. Since you're the one who showed up, I can only guess that you are the first born, correct?...Wonderful. That makes my job so much easier. This would have been difficult if I had to search far and wide for your location. Luckily for me, Cy was nice enough to tell me your location so I could just poof you here. Now, I'm sure you're thinking that you're fucked. Staring up a huge dragon like me, being told that you just came under the ownership of a dragon, but it's going to be okay. You'll be a very cherished pet, dear. What's your name?

...My name? **[chuckle]** You don't know who I am, do you, little one?...**[chuckle]** My, my, you really are a long way from home, aren't you? Don't even know who I am and yet you've been traded to me in a deal. How unfortunate for you. Since I'm not one to keep someone in the dark, you can call me Etane, the Green. It's alright, I'm not going to poison you or anything. It would be stupid to do that to my **bet**rothed. What? You seemed shocked? Did you not know that that is what is going to happen, dear?...You naive little thing. Some dragons prefer to take a human as a love instead of a fellow dragon. I happen to be one of them. Something about how tiny a human is, how fragile you are compared to me, it gets me all excited, little one. You have to crane your neck all the way up to just make eye contact, don't you?

...It's alright, little one. I'll just lift you. **[shuffle]** Weigh practically nothing, could throw you around like a ragdoll if I wanted to, little one. **[chuckle]** So we meet, face to face finally. At least I get to appreciate your features up close. You've got the most beautiful eyes I've ever seen. So full of emotion, it's like I can tell everything you are feeling right now. Can hear how your heartbeat sped up as you look at me directly. There's no reason to be nervous, dear. Have I done anything to hurt you, yet?...So what makes you think that's going to change?...There's no reason. If you're good for me and behave yourself then I think we are going to get along quite well. I don't feel your squirming against my hold, you're kind of leaning into it. Are you enjoying yourself, dear?...My, my, my, what an interesting turn of course. You're actually enjoying feeling so tiny compared to me, aren't you?

...Can see the fluster painted on your face. **[chuckle]** No reason to be shy around me, little one. You're mine in every sense of the word. That deal was signed on your behalf. You're not going to be allowed too far out of my sight. Not until I can trust you, tiny one. It's not everyday that I make a deal for a firstborn child and the firstborn is already an adult. I feel like I should take advantage of this moment. **[shuffle]** There you are, letting you back down on the ground. I'm sure you'll feel a little less embarrassed about how small you are if you have solid ground underneath you. Dangling in the air is probably an unfair reminder of just how short you are, huh? Not used to feeling so small, are you?...You might be the cutest little one I've ever seen. All shy and sweet, pretending like you aren't being affected by the whole size thing. When you were poofed in here, you weren't expecting to have such a pretty dragon, were you?

...**[chuckle]** I'm not upset that you like me, little one. I think it's cute. You're having a natural reaction. Can't help how embarrassed you're getting, looking up at me and then back to yourself. Are you comparing how tiny you are next to me or is your mind starting to wander?...Mmm, and what is it that you are thinking about, tiny one...Oh, don't clam up on me now. You were so talkative just a minute ago. The second I ask you to elaborate your thoughts, you shut down, all embarrassed and quickly turning away. Do you not want to share what you were thinking about with me, dear?...That's quite rude considering we are going to be partners. A good relationship is built on honesty. So use your words, little one. Tell me what it is that you were thinking about when you look up at my giant dragoness form. What thoughts crossed that sweet mind of yours, tiny one?

[PATREON]

...Seems that someone is wondering if I'm just as big all over. It's a good thing I've always loved a thirst for knowledge and I'll happily satisfy your curiosity, tiny one. But you need to do something for me. Take your eyes off the ovipositor hanging heavy between my thighs for a second, little one. I know that's difficult for you but I need you to answer my question. Would you prefer to get yourself ready or would you like a little help?...I can do that for you, little one. You're so tiny, I'm not sure if my claws are going to be able to **[fabric ripping]** oops. Well, I'm sure those clothes weren't too important to you. Besides, since it's just the two of us, it's not like you're going to need to worry about covering up. I like looking at every inch of you like this. Exposed with nowhere to hide, right where you belong. But to make sure that you can take my size, I'll use a bit of magic to make sure you are prepared enough to take me.

[magical sfx] There's plenty of time to take you sweetly in the future, tiny one. But this time, it's important that you understand that you're mine. **[wet noises start]** Ngh, fuck, so tight. It's a struggle to get more than just the tip in. Shallowly thrusting, you feel the ovipositor sinking deeper with each rock of my hips, don't you?...That's right, little one. You wanted to find out how big I was, are you sure you can take it? Seems a bit like you are struggling. Only taking it a bit deeper with each thrust. Aw, it's okay. You can do it. It'll fit eventually. If I try hard enough, it'll fit inside you, tiny one. I know it will. Mnf, feel so good like this. Nothing like a tight hole to sink my cock inside, to feel you sucking me, trying to get all of it. You've done it, little one. Taking every inch of me. Stretch to the very breaking point, if you look down, you'll see a bump. Why don't you touch it for me, little one. Touch that stomach bulge and tell me what it is that you are feeling.

...Mmm that's right. That's the tip of my ovipositor poking right out of your stomach. Didn't realize I would reach that deep did you? Didn't think a cock could reach as far as it did? It's okay, little one. You didn't know. You're going to be learning a lot of new things with me, don't you worry. Going to learn just how good it is to be a dragoness' betrothed. You aren't even going to think about your old life, you're not going to miss it one bit. Already enjoying yourself here, aren't you?...It feels good to be filled, doesn't it?...Oh yes it does. Let out those noises for me, tiny one. There's no point in keeping them to yourself. Let me know how good my cock feels inside you, brushing against that pleasure button with every thrust. Can feel your pleasure building with every passing second, can't you?

...That's how it should be. Want you to cum on my cock, dear. Want to feel you milk me with this tight hole of yours. So eager to be fucked and fill, now you can't stop touching where my ovipositor bulges out of your stomach every single time. Hole stretched to its breaking point as you struggle to keep going. But you don't want to stop. Not yet. It feels too good, doesn't it?...Getting closer the more I rock against you, you're doing good, dear. I'm impressed with how well you are handling it. Thought for sure you would be split in half by now, begging for a way out, begging to be released but that's not what you're begging for, is it?...No you want to cum. You want to feel me shoot my load as deep inside you as I can, maybe even breed you up like a proper little wife. You would like that, wouldn't you? Getting all knocked up with one of my eggs so you can play pretend wife for me?...Mmmm, I felt how your hole twitched at that idea. You want to be my good little wife, dear? Huh? You're petite enough to make the perfect one. So dainty and delicate compared to me. Are you going to be a good wife and take your breeding?

...Mnf, that's fucking right. Look at you. So itty bitty compared to my fucking cock, taking the ovipositor nice and deep in your hole, just like that, dear. Come on. Move your hips for me, you can do it. Come on, let me feel it. Ngh, oh yeah. Yeah, that's good. Should see how obscene you look right now. Nothing but lewd squelching in the air as you moan over and over again. Your hole stretched to the brim around my green cock that keeps pounding away. Every bump on my cock pushes you just a bit closer to your orgasm. Can hear it in your voice as you clench your eyes shut. Blocking out everything except for how good you're feeling, only needing to hear my voice. Don't need to see me to behave yourself, do you? Look at you. My dainty wife, you wouldn't be able to go back to normal cocks after this if you wanted to, would you?

...My ovipositor feels that good. Going to breed you like the good tiny one you are. That's what your hole is here for, right? To be a place for my cum to go. It shouldn't go to waste, not when I have such a willing and eager wife begging for it. Gonna turn you into a cumslut for me, little one. Going to make sure you can't even go a day without begging for a fuck, begging for an orgasm. Going to breed this fucking hole of yours, you take it so easily, it's what you deserve. You've been so good for me, making me so proud. You take it so well, so easily. Mnf, that's it. Gonna cum on my cock, aren't you? Don't even need to touch you, right? You're feeling so fucking good, your hips rocking back and forth, you haven't even noticed it. Not needing your hands or my claws, just focused on how dwarfed you are by my much larger form. It's so adorable how itty bitty you are compared to me. Such a delicate and fragile thing. A pretty dainty wife, perfect for a dragoness like me. Going to keep you well bred, just how you deserve. Every good wife is fucked full, right?

...Mng, that's right. So happy you agree with me, dear. You look so good like this. Stomach bulging with my ovipositor as you feel yourself getting closer. Going to be good for me and cum at the same time, right?...I know you are. You can do it. You have made me so proud so far, little one. You're not going to disappoint me now, are you?...I didn't think so, tiny one. You're special. Your body can take whatever I give you, can't it?...That's fucking right, and you're loving every second of it, aren't you?...That's my sweet wife, answering so honestly. Mnf, feel so fucking good wrapped around me, take it so well. Going to breed you just how you deserve, make you into a proper wife. Yes I am, ngh, fuck. So fucking close, tiny one. Do you want to cum with me, dear? Do you want to show me how good you're feeling and cum on my ovipositor?...Then let go, little one. Be good for me, and cum. Cum with m-[adlib mutual orgasms] Oh that's it. You did so good for me, dear. Yes you did. I'm so proud of you. Handled it so well. Did you enjoy yourself?

...So then it's safe to say that you aren't too upset that you're going to be spending a fair bit of time with me, are you?...That's good, dear. I would have hated to have hostilities between us. This doesn't have to be bad. If you do as you're told then there should be no issues. You have no problem with obedience, do you?...That glint in your eyes seems to tell me that I might have read you wrong. No matter, with a bit of training, anything is possible, little one. **[chuckle]** I saw that shudder. Do you like the sound of that? Being trained to be an obedient wife?...I'll file that away for later than, tiny one. It seems I might have discovered a kink of yours that even you didn't know about considering how much you're flustering anytime I call you "my wife". You enjoy it just a bit too much, don't you?...Mmmm, no reason to be ashamed of that, little one. I think it makes sense. You're going to be MY wife, aren't you?...That's right. You're not going anywhere, not according to the deal that was made. You're stuck here with me. Does that make you happy?...Good. It makes me happy too. Come on, let me show you around where you'll be living....**[chuckle]** Or we can stay cuddling for five more minutes. Whatever you prefer dear. **[chuckle]**

~ Inclusivity Stuff ~

Pet Names: Dear, little one/thing, tiny one,// and wife

Body Parts Mentioned: neck, eyes // stomach, hole, hips,

Pronouns Used: You/your

Misc: *Since dragons lay eggs, it my head, female dragons would an ovipositor but that's a long word so I sometimes use cock instead // On all fours she is 9-10 feet tall which is how the listener would be seeing her*
