*"The wooden idol (*this one) has a perforation, as if for attachment to a staff, and may has been used in ceremonial dances like those of the Salivas and other Orinoco tribes." Jesse W. Fewkes. Bureau of American Ethnology. Annual Report N° 34; p. 249.*

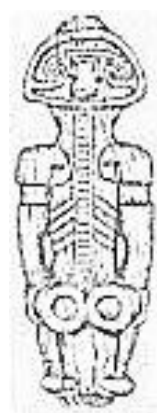

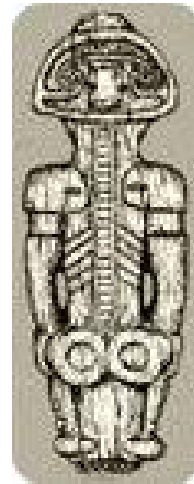

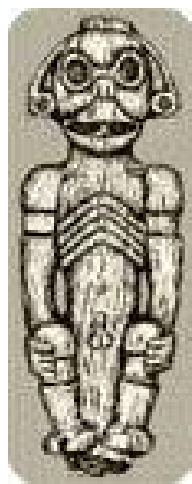

Areito de los indios floridanos. Theodore de Bry, 1585

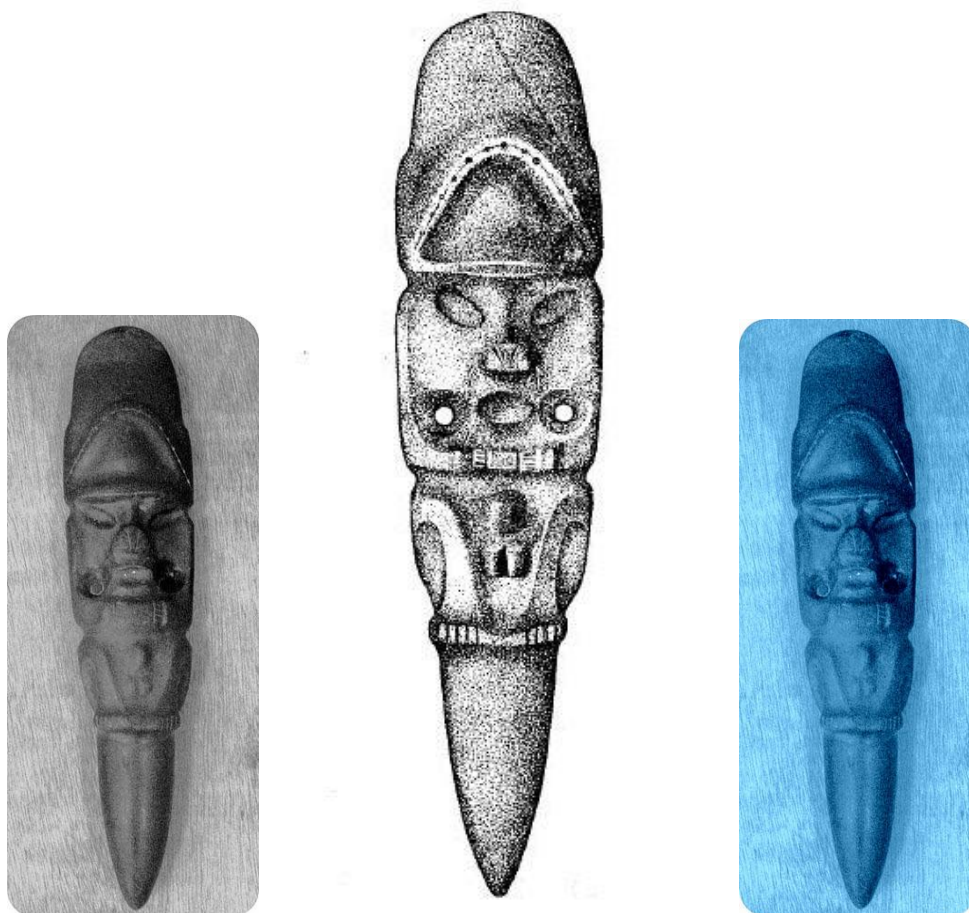

"On being shewn this idol, he (the Indian of Hispaniola) recognised what is was, and to see the effects that World be produced on the Indian, it was placed in the midst of two or three gentleman, who began to dance round it, in order the better to convey the idea to the Indian, and to ask him whether that was the way in which it was used by his ancestors." William Walton. Present state of the Spanish colonies. 1810.
