

Disaster Victim # 1

Name: Unknown **Age:** 10 **Gender:** F

Arrival Mode: Non-ambulatory. BIB bystander.

Past Medical Hx: None.

Chief Complaint: Blunt head trauma. Confusion.

T(C): 36.9 **BP:** 85/58 **HR:** 135 **RR:** 20 **SpO2:** 96 **Wt(kg):** 30

Physical Exam: Severe headache. Mild confusion. Follows simple commands. Scalp hematoma. Blurred vision. Otherwise, neuro intact. No N/V. CR < 2s.

Additional Information: Struck on head by falling debris, pulled out of building by bystander. No parents found at scene.

(FOLD HERE)

Victim Information:

Acting Tips: Complaining of headache, blurry vision, and ringing in ears. Unable to remember name. Reports seeing many "dead people" on the way to the ED.

Moulage Tips:

(FOLD HERE)

Diagnosis: Blunt Head Trauma. Concussion.

Disaster Victim # 2

Name: David Spicer **Age:** 16 **Gender:** M

Arrival Mode: Non-ambulatory. BIB friends via car.

Past Medical Hx: None.

Chief Complaint: Left eye vision loss.

T(C): 36.7 **BP:** 140/85 **HR:** 120 **RR:** 24 **SpO2:** 99 **Wt(kg):** 62

Physical Exam: Alert and oriented. Left eye pain, vision loss. 8-ball hyphema. Glass shards seen on face/chest.

Additional Information: Struck by pieces of broken window during EQ.

(FOLD HERE)

Victim Information:

Acting Tips: Cover eyes, refuse to move hands for exam. Ask "Am I going to be blind?"

Moulage Tips:

(FOLD HERE)

Diagnosis: Penetrating Eye Trauma. Left Open Globe.

Disaster Victim # 3

Name: Sally Saxon **Age:** 35 **Gender:** F

Arrival Mode: Ambulatory. BIB EMS.

Past Medical Hx: Panic Attacks.

Chief Complaint: Throat closing.

T(C): 37 **BP:** 140/88 **HR:** 116 **RR:** 18 **SpO2:** 100 **Wt(kg):** 60

Physical Exam: Anxious. No wheeze or stridor.

Additional Information: Saw damage from earthquake on TV at home. Pt concerned was exposed to "toxic fumes" from natural gas leaks.

(FOLD HERE)

Victim Information: Mother of patient Billy Saxon and Steven Saxon.

Acting Tips: Act anxious. Ask about son Steven. Say "He's dead isn't he?"

Moulage Tips:

(FOLD HERE)

Diagnosis: Panic Attack.

Disaster Victim # 4

Name: Billy Saxon **Age:** 6 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: Asthma.

Chief Complaint: Chest pain and difficulty breathing.

T(C): 37 **BP:** 100/65 **HR:** 120 **RR:** 46 **SpO2:** 82 **Wt(kg):** 22

Physical Exam: Non-ambulatory. Short rapid breaths. Decreased breath sounds. Cyanosis. CR < 2s.

Additional Information: Crushed by large bookcase.

(FOLD HERE)

Victim Information: Was forced to leave family cat who was trapped in bookcase with him.

Acting Tips: Shortness of breath, pain upon breathing or palpation of chest. Says, "Where's my dog?"

Moulage Tips:

(FOLD HERE)

Diagnosis: Pulmonary Contusion. Multiple Rib Fractures.

Disaster Victim # 5

Name: Steven Saxon **Age:** 2 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: Penetrating neck injury.

T(C): 35.9 **BP:** 65/26 **HR:** 140 **RR:** 28 **SpO2:** ND **Wt(kg):** 14

Physical Exam: Moaning. Pale. Metal shard protruding from left anterior neck just below angle of mandible. CR > 2s.

Additional Information:

(FOLD HERE)

Victim Information:

Acting Tips: Moaning.

Moulage Tips:

(FOLD HERE)

Diagnosis: Penetrating neck trauma with laceration of major neck vessel.

Disaster Victim # 6

Name: Bill Laxon **Age:** 24 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: BLE crush injury, prolonged extcrication.

T(C): 36.4 **BP:** 130/76 **HR:** 125 **RR:** 24 **SpO2:** 99 **Wt(kg):** 75

Physical Exam: Alert and oriented. Swelling bilateral thighs, scattered abrasions. Some deeper lacerations on anterior legs. 2+ peripheral pulses.

Additional Information: Construction worker. Wall with heavy girding fell on legs. Trapped for 1 hour. Extricated.

(FOLD HERE)

Victim Information:

Acting Tips: Refuse to move legs and complain of pain if they are moved-complain of numbness in legs.

Moulage Tips:

(FOLD HERE)

Diagnosis: BLE Crush Injury. Rhabdomyolysis

Disaster Victim # 7

Name: Becky Demornay **Age:** 18 **Gender:** F

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: Asthma.

Chief Complaint: Difficulty breathing since this AM.

T(C): 37.1 **BP:** 130/72 **HR:** 100 **RR:** 28 **SpO2:** 93 **Wt(kg):** 59

Physical Exam: Bilateral wheeze, no retractions. Otherwise, consistent with viral URI. CR < 2s.

Additional Information: Nasal congestion, sore throat, body aches x 2d. Wheezing consistent with prior asthma.

(FOLD HERE)

Victim Information:

Acting Tips: Mild difficulty breathing. Cold symptoms.

Moulage Tips:

(FOLD HERE)

Diagnosis: Asthma Exacerbation. Viral URI.

Disaster Victim # 8

Name: Vanna Starnes **Age:** 37 **Gender:** F

Arrival Mode: Ambulatory. BIB bystander via car.

Past Medical Hx: None.

Chief Complaint: Lacerations to face and arms

T(C): 37 **BP:** 145/92 **HR:** 130 **RR:** 20 **SpO2:** 100 **Wt(kg):** 52

Physical Exam: Minor lacerations on face and arms. No other signs of trauma present.

Additional Information: Involved in car accident caused by earthquake. Came to ED due to daughter's leg injury.

(FOLD HERE)

Victim Information: Mother of Victoria Starnes, came to ED with daughter.

Acting Tips: Concerned for daughter. Also worried about exposure to white powder from airbag deployment.

Moulage Tips:

(FOLD HERE)

Diagnosis: Minor lacerations to face and arms.

Disaster Victim # 9

Name: Victoria Starnes **Age:** 10 **Gender:** F

Arrival Mode: Non-ambulatory. BIB bystander via car.

Past Medical Hx: None

Chief Complaint: Severe right leg pain.

T(C): 37.6 **BP:** 120/76 **HR:** 130 **RR:** 20 **SpO2:** 99 **Wt(kg):** 30

Physical Exam: Swelling, ecchymosis, tenderness distal tibia. Skin intact. No deformity. Unable to bear weight. 2+ pulses.

Additional Information: Involved in car accident caused by EQ.

(FOLD HERE)

Victim Information: Came to ED with mother, Vanna Starnes.

Acting Tips: Express intense pain upon movement, palpation, or any weight bearing on right leg.

Moulage Tips:

(FOLD HERE)

Diagnosis: Closed Right Tibia Rracture.

Disaster Victim # 10

Name: Sako Johnny **Age:** 29 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: Chest Pain, Shortness of Breath.

T(C): 36.5 **BP:** 130/85 **HR:** 160 **RR:** BVM **SpO2:** 79 **Wt(kg):** 85

Physical Exam: Large ecchymosis over chest and back, crepitus, absent breath sounds. No spontaneous respirations.

Additional Information: Hit in chest by falling giant robot.

(FOLD HERE)

Victim Information:

Acting Tips: No movement.

Moulage Tips:

(FOLD HERE)

Diagnosis: Tension Pneumothorax. Flail Chest.

Disaster Victim # 11

Name: Roberto Morales **Age:** 14 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: Seizure Disorder.

Chief Complaint: Cold symptoms x 3d, Increase seizure frequency.

T(C): 39 **BP:** 100/52 **HR:** 80 **RR:** 15 **SpO2:** 98 **Wt(kg):** 50

Physical Exam: Status epilepticus. URI c/w viral.

Additional Information:

(FOLD HERE)

Victim Information:

Acting Tips: You have a short full body seizure and are not responsive to the environment around you.

Moulage Tips:

(FOLD HERE)

Diagnosis: Status Epilepticus. Viral URI.

Disaster Victim # 12

Name: Bella Phula **Age:** 34 **Gender:** F

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: Depression. Pregnant 32 weeks.

Chief Complaint: Acute vaginal bleed and abdominal pain.

T(C): 36.2 **BP:** 110/70 **HR:** 118 **RR:** 25 **SpO2:** 98 **Wt(kg):** 76

Physical Exam: Diffuse lower abdominal tenderness, vaginal bleeding, dilated cervix. 2+ pulses.

Additional Information:

(FOLD HERE)

Victim Information:

Acting Tips: Complain of abdominal pain with regular contractions.

Moulage Tips:

(FOLD HERE)

Diagnosis: Placental Abruption. Pre-term Labor.

Disaster Victim # 13

Name: Lucy Stohl **Age:** 56 **Gender:** F

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: Crohn's Disease.

Chief Complaint: Found down at scene building collapse. Extricated.

T(C): 35.1 **BP:** 70/p **HR:** 28 **RR:** 12 **SpO2:** 89 **Wt(kg):** 72

Physical Exam: Unresponsive. Large left temporal hematoma on left. Metal shards embedded in left scalp. Shallow respirations. Unequal pupils (9mm, 3mm). CR > 2s.

Additional Information: Extricated from collapsed building.

(FOLD HERE)

Victim Information:

Acting Tips: Unresponsive.

Moulage Tips:

(FOLD HERE)

Diagnosis: Traumatic Brain Injury. Subdural Hemorrhage with Shift.

Disaster Victim # 14

Name: Earl Ybarra **Age:** 8 **Gender:** M

Arrival Mode: Ambulatory. BIB parent via car.

Past Medical Hx: Premature (34wks).

Chief Complaint: Bad headache.

T(C): 36 **BP:** 115/70 **HR:** 110 **RR:** 24 **SpO2:** 97 **Wt(kg):** 26

Physical Exam: Neuro intact. Minor abrasioins and bruising to scalp. Otherwise, no e/o trauma.

Additional Information: No LOC. Does not recall EQ details but was in bed when heavy things fell on him.

(FOLD HERE)

Victim Information:

Acting Tips: Complain of bad headache. Do not remember earthquake details.

Moulage Tips:

(FOLD HERE)

Diagnosis: Concussion.

Disaster Victim # 15

Name: Jonathon Ybarra **Age:** 30 **Gender:** M

Arrival Mode: Ambulatory. BIB workmates via car.

Past Medical Hx: None.

Chief Complaint: Right arm impaled.

T(C): 36.8 **BP:** 148/88 **HR:** 120 **RR:** 28 **SpO2:** - **Wt(kg):** 86

Physical Exam: Diaphoretic. Metal rod piercing through right arm. No chest injury. Pulses intact and perfusing extremity well. No active bleeding.

Additional Information: Walked 4 blocks from construction site.

(FOLD HERE)

Victim Information: Father of Earl Ybarra.

Acting Tips: Keep talking about how many other workers were at the construction site that probably are hurt or dead including brother-in-law.

Moulage Tips:

(FOLD HERE)

Diagnosis: Right Arm Impaled, Open Fracture.

Disaster Victim # 16

Name: Lizette Borden **Age:** 5 **Gender:** F

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: Severe pain right forearm. Extricated.

T(C): 36.9 **BP:** 100/70 **HR:** 150 **RR:** 30 **SpO2:** 99 **Wt(kg):** 18

Physical Exam: Right forearm tense, pale, ecchymotic. Difficulty moving forearm and hand. Severe pain on palpation. Right radial pulse thready.

Additional Information: Extricated from under fallen bookcase and debris at home. Unknown status of parent, siblings.

(FOLD HERE)

Victim Information:

Acting Tips: Complain of severe pain on right forearm, especially upon palpation or movement.

Moulage Tips:

(FOLD HERE)

Diagnosis: Right Forearm Crush Injury with Compartment Syndrome.

Disaster Victim # 17

Name: Lisa Lopez **Age:** 16 **Gender:** F

Arrival Mode: Non-ambulatory. BIB bystander via car.

Past Medical Hx: None.

Chief Complaint: Electrical burns to left arm, left foot.

T(C): 36.1 **BP:** 126/88 **HR:** 120 **RR:** 28 **SpO2:** 98 **Wt(kg):** 56

Physical Exam: Swelling and redness on left forearm and left leg. Clear "entry point" on left forearm and "exit point" on left sole of foot. Necrotic muscle tissue on left leg. Hyperkalemic. Weak pulses on left side.

Additional Information: Was walking on sidewalk with younger sister when active power line fell and struck her left forearm.

(FOLD HERE)

Victim Information:

Acting Tips: Complains of intense pain on left arm and leg.

Moulage Tips:

(FOLD HERE)

Diagnosis: High-voltage Electrical Burn to Left Forearm and Foot. Compartment Syndrome. Hyperkalemia.

Disaster Victim # 18

Name: Matthew Elder **Age:** 20 **Gender:** M

Arrival Mode: Ambulatory. BIB girlfriend via car.

Past Medical Hx: Bipolar Disorder.

Chief Complaint: Boiling water burns to chest and abdomen.

T(C): 37.6 **BP:** 113/67 **HR:** 80 **RR:** 26 **SpO2:** - **Wt(kg):** 90

Physical Exam: First and some second degree burns to anterior chest and abdomen.

Additional Information: Burns caused by splashing hot water while on stove.

(FOLD HERE)

Victim Information:

Acting Tips: Complain of pain in burned areas, reports hasn't had his Lamictal in several days and feeling worried.

Moulage Tips:

(FOLD HERE)

Diagnosis: 1st and 2nd degree Burns to Chest/Abdomen.

Disaster Victim # 19

Name: Bubba Flowers **Age:** 60 **Gender:** M

Arrival Mode: Non-ambulatory. BIB Employee Health via wheelchair.

Past Medical Hx: Coronary Heart Disease. COPD.

Chief Complaint: Cough, SOB, malaise.

T(C): 38.4 **BP:** 140/94 **HR:** 125 **RR:** 24 **SpO2:** 89 **Wt(kg):** 65

Physical Exam: Diffuse rhonchi. Mild-mod respiratory distress. 2+ pulses.

Additional Information: CXR: patchy infiltrates.

(FOLD HERE)

Victim Information: Cafeteria worker at Hospital. Condition deteriorates and patient requires mechanical ventilation in few hours after arrival.

Acting Tips: Your cough and difficulty breathing worsens after 1 hour. Then you act unresponsive.

Moulage Tips:

(FOLD HERE)

Diagnosis: Pneumonia.

Disaster Victim # 20

Name: Susie Maier **Age:** 3 **Gender:** F

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: Face burns. Respiratory distress.

T(C): 37.6 **BP:** 112/45 **HR:** 140 **RR:** 46 **SpO2:** 89 **Wt(kg):** 16

Physical Exam: Burns over face, singed nares, carbonaceous sputum mouth/oropharynx.
Respiratory distress.

Additional Information: Rescued by fire fighters from burning home after being separated from caretakers for unknown amount of time.

(FOLD HERE)

Victim Information:

Acting Tips: Screaming for "Mommy"and crying in pain. Complains of face pain.

Moulage Tips:

(FOLD HERE)

Diagnosis: Burns to Face. Respiratory Distress. Intubated.

Disaster Victim # 21

Name: Pedro Zamora **Age:** 24 **Gender:** M

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: Asthma.

Chief Complaint: Difficulty breathing.

T(C): 36.4 **BP:** 110/67 **HR:** 100 **RR:** 28 **SpO2:** 96 **Wt(kg):** 73

Physical Exam: Bilateral wheezing and retractions. 2+ pulses.

Additional Information: No DKA.

(FOLD HERE)

Victim Information:

Acting Tips:

Moulage Tips:

(FOLD HERE)

Diagnosis: Asthma Exacerbation.

Disaster Victim # 22

Name: Alexa Francisco **Age:** 36 **Gender:** F

Arrival Mode: Ambulatory. BIB family via car.

Past Medical Hx: Diabetes Type I.

Chief Complaint: High sugar.

T(C): 36.8 **BP:** 101/65 **HR:** 65 **RR:** 14 **SpO2:** 99 **Wt(kg):** 69

Physical Exam: Unremarkable.

Additional Information: BS 350. No DKA.

(FOLD HERE)

Victim Information:

Acting Tips:

Moulage Tips:

(FOLD HERE)

Diagnosis: Hyperglycemia.

Disaster Victim # 23

Name: Regina Phalanges **Age:** 21 **Gender:** F

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: None.

Chief Complaint: Neck pain, hyperventilating.

T(C): 36.5 **BP:** 130/85 **HR:** 110 **RR:** 24 **SpO2:** 100 **Wt(kg):** 60

Physical Exam: Ambulatory. Minor lacerations, paraspinous (no midline) neck tenderness, no signs of major trauma. 2+ pulses.

Additional Information: Driving with baby. Multi-vehicle accident at busy intersection due to EQ.

(FOLD HERE)

Victim Information: Mother of Steven Wright.

Acting Tips: Extremely fearful that her baby will die due to injuries received. Express discomfort upon palpation or movement of neck. Asks repeatedly, "Doctor, how's Steven? Will he make it?"

Moulage Tips:

(FOLD HERE)

Diagnosis: Whiplash

Disaster Victim # 24

Name: Steven Wright **Age:** 0 **Gender:** M

Arrival Mode: Non-ambulatory. BIB mother via car.

Past Medical Hx: None.

Chief Complaint: Burn to forehead.

T(C): 37 **BP:** 90/44 **HR:** 150 **RR:** 25 **SpO2:** 99 **Wt(kg):** 7

Physical Exam: Second-degree burns to forehead, no additional trauma, responds appropriately for age. CR < 2s.

Additional Information: Was in forward-facing restraint in front seat while involved in car accident with airbag deployment

(FOLD HERE)

Victim Information:

Acting Tips:

Moulage Tips:

(FOLD HERE)

Diagnosis: 2nd Degree Burns to Forehead.

Disaster Victim # 25

Name: Richie Nohs **Age:** 10 **Gender:** M

Arrival Mode: Non-ambulatory. BIB parent via car.

Past Medical Hx: Seasonal Allergies.

Chief Complaint: Difficulty breathing.

T(C): 38.6 **BP:** 119/68 **HR:** 116 **RR:** 32 **SpO2:** 88 **Wt(kg):** 32

Physical Exam: Pale. Wheezing, retractions. No trauma.

Additional Information:

(FOLD HERE)

Victim Information: Did not know about earthquake. Came for asthma.

Acting Tips:

Moulage Tips:

(FOLD HERE)

Diagnosis: Asthma Exacerbation. Viral URI.

Disaster Victim # 26

Name: Nathan Hoddog **Age:** 20 **Gender:** M

Arrival Mode: Non-ambulatory. BIB roommate via car.

Past Medical Hx: None.

Chief Complaint: Fever, cough, muscle aches.

T(C): 38.7 **BP:** 112/64 **HR:** 120 **RR:** 36 **SpO2:** 89 **Wt(kg):** 72

Physical Exam: Ill-appearing. Moderate respiratory distress.

Additional Information:

(FOLD HERE)

Victim Information: Did not know about earthquake. Came for medical complaint.

Acting Tips: Coughing, complaining of body aches.

Moulage Tips:

(FOLD HERE)

Diagnosis: Influenza.

Disaster Victim # 27

Name: Peter Quan **Age:** 37 **Gender:** M

Arrival Mode: Non-ambulatory. BIB wife via car.

Past Medical Hx: None.

Chief Complaint: Hit left leg by falling bookcase.

T(C): 36.7 **BP:** 123/78 **HR:** 89 **RR:** 18 **SpO2:** - **Wt(kg):** 79

Physical Exam: Skin intact. Left thigh tender, swollen. Unable to bear weight on left. CR < 2s.

Additional Information: Brought in by wife. Couple only speaks Cantonese.

(FOLD HERE)

Victim Information:

Acting Tips: Do not speak English. Unable to walk on left leg.

Moulage Tips:

(FOLD HERE)

Diagnosis: Closed Left Femur Fracture.

Disaster Victim # 28

Name: John Tittle **Age:** 45 **Gender:** M

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: None.

Chief Complaint: Back pain.

T(C): 36.9 **BP:** 130/70 **HR:** 110 **RR:** 24 **SpO2:** - **Wt(kg):** 78

Physical Exam: Mid back tenderness, ecchymosis. Gross hematuria.

Additional Information: Header fell and hit back when evacuating home with family.

(FOLD HERE)

Victim Information:

Acting Tips: Tell them you have back pain and are "peeing" blood.

Moulage Tips:

(FOLD HERE)

Diagnosis: Renal Laceration.

Disaster Victim # 29

Name: John Tittle, Jr. **Age:** 14 **Gender:** M

Arrival Mode: Ambulatory. BIB father via car.

Past Medical Hx: Autism.

Chief Complaint: Eye pain.

T(C): 36.8 **BP:** N/A **HR:** 126 **RR:** 40 **SpO2:** 99 **Wt(kg):** 69

Physical Exam: Howling. Combative. Holding hands over eyes.

Additional Information: Impact by glass from shattering window during EQ.

(FOLD HERE)

Victim Information:

Acting Tips: Non-communicative. Scream when touched. Hold hands over eyes.

Moulage Tips:

(FOLD HERE)

Diagnosis: Right Corneal Laceration. Minor Facial Lacerations.

Disaster Victim # 30

Name: Josephina Tittle **Age:** 74 **Gender:** F

Arrival Mode: Non-ambulatory. BIB son via car.

Past Medical Hx: CAD.

Chief Complaint: Chest pain, SOB.

T(C): 37 **BP:** 80/40 **HR:** 24 **RR:** 20 **SpO2:** - **Wt(kg):** 51

Physical Exam: No evidence of trauma. Shocky. Holding chest. Thready pulses.

Additional Information:

(FOLD HERE)

Victim Information: Mother of John.

Acting Tips: Complain of chest pain, rub left arm and chest in discomfort

Moulage Tips:

(FOLD HERE)

Diagnosis: MI. Cardiogenic Shock.

Disaster Victim # 31

Name: Britney Sanchez **Age:** 17 **Gender:** F

Arrival Mode: Non-ambulatory. BIB sibling.

Past Medical Hx: None.

Chief Complaint: Fall, twisted ankle.

T(C): 36.9 **BP:** 138/85 **HR:** 65 **RR:** 13 **SpO2:** 99 **Wt(kg):** 53

Physical Exam: Refuses to bear weight. Lateral right ankle swelling, ecchymosis. 2+ pulses.

Additional Information: Fell while running out of building during EQ.

(FOLD HERE)

Victim Information:

Acting Tips: Refuse to walk on ankle.

Moulage Tips:

(FOLD HERE)

Diagnosis: Right Ankle Sprain.

Disaster Victim # 32

Name: Delilah Esengil **Age:** 20 **Gender:** F

Arrival Mode: Ambulatory. Brought in by law enforcement.

Past Medical Hx: Bipolar Disorder.

Chief Complaint: Suicidal Ideation.

T(C): 37.3 **BP:** 128/66 **HR:** 100 **RR:** 20 **SpO2:** 97 **Wt(kg):** 59

Physical Exam: No evidence of acute medical or trauma. Manic. States suicidal ideations with a plan. No psychosis.

Additional Information: Zoloft, Xanax found in patient's purse, but she is unable to tell you whether she has taken any today.

(FOLD HERE)

Victim Information:

Acting Tips:

Moulage Tips:

(FOLD HERE)

Diagnosis: 5150 Hold. Suicidal ideation.

Disaster Victim # 33

Name: Eric Waller **Age:** 1 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: Fall. Forehead laceration.

T(C): 37.4 **BP:** 114/56 **HR:** 130 **RR:** 24 **SpO2:** 98 **Wt(kg):** 7

Physical Exam: < 2cm simple forehead laceration. No other evidence of trauma.

Additional Information: Unknown LOC.

(FOLD HERE)

Victim Information:

Acting Tips: Crying on and off. Not consolable.

Moulage Tips:

(FOLD HERE)

Diagnosis: Forehead Laceration.

Disaster Victim # 34

Name: Jose Montana **Age:** 26 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: Broken left leg.

T(C): 36.8 **BP:** 118/70 **HR:** 124 **RR:** 18 **SpO2:** - **Wt(kg):** 75

Physical Exam: Right shoulder tenderness, deformity. Right clavicle tenderness, deformity, ecchymosis. Right leg: deep laceration with tibia and fibula fracture. N/V intact.

Additional Information: Pt jumped from 2nd floor of collapsing building. Unknown status/location of wife and 2 year old daughter.

(FOLD HERE)

Victim Information:

Acting Tips: You are unable to walk well. Scream in pain. Your right leg and arm hurt.

Moulage Tips:

(FOLD HERE)

Diagnosis: Open Right Tib-Fib Fracture. Right Clavicle Fracture. Right Shoulder Dislocation

Disaster Victim # 35

Name: Terrie Bradford **Age:** 76 **Gender:** F

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: None.

Chief Complaint: Left ankle pain.

T(C): 37 **BP:** 130/70 **HR:** 90 **RR:** 20 **SpO2:** - **Wt(kg):** 48

Victim Information: Unable to find husband following EQ. Ask for help in finding out if he is okay. If you are discharged, continue to ask about your husband until you are escorted out or told where you can go find out more information.

Acting Tips: Your left ankle hurts. Limp when walking.

Moulage Tips:

(FOLD HERE)

Diagnosis: Left Ankle Sprain.

Disaster Victim # 36

Name: Erma Hwa **Age:** 67 **Gender:** F

Arrival Mode: Ambulatory. BIB daughter via car.

Past Medical Hx: None.

Chief Complaint: Right forearm laceration.

T(C): 37.2 **BP:** 90/50 **HR:** 120 **RR:** 25 **SpO2:** - **Wt(kg):** 66

Physical Exam: Deep laceration to right forearm. Unable to move fingers. Weak right radial pulse.

Additional Information: Korean speaking only. A large window broke during earthquake and cut your forearm.

(FOLD HERE)

Victim Information:

Acting Tips: Right forearm hurts. You are holding a towel over the wound and unable to move your fingers.

Moulage Tips:

(FOLD HERE)

Diagnosis: Right Forearm Tendon Laceration.

Disaster Victim # 37

Name: Victoria Hwa **Age:** 28 **Gender:** M

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: Deaf.

Chief Complaint: No complaint.

T(C): 36.8 **BP:** 122/72 **HR:** 64 **RR:** 16 **SpO2:** 99 **Wt(kg):** 80

Physical Exam: Normal

Additional Information: Daughter of patient Erma Hwa. Korean sign language only.

(FOLD HERE)

Victim Information:

Acting Tips: Deaf. Korean sign language only - No ASL.

Moulage Tips:

(FOLD HERE)

Diagnosis: Concerned Ciitizen.

Disaster Victim # 38

Name: Shannon Sharp **Age:** 28 **Gender:** F

Arrival Mode: Non-ambulatory. BIB staff via wheelchair.

Past Medical Hx: None.

Chief Complaint: Right lower leg pain, Right shoulder pain due to fall.

T(C): 37 **BP:** 100/45 **HR:** 56 **RR:** 15 **SpO2:** - **Wt(kg):** 58

Physical Exam: Alert and oriented. Deformed right leg, ecchymosis. Skin intact. 2+ distal pulses. Bruising and tenderness of right AC joint.

Additional Information: MD fell down 8 stairs while running to disaster response. No LOC, HA, nausea, vomiting.

(FOLD HERE)

Victim Information:

Acting Tips: Severe pain right lower leg. Unable to walk.

Moulage Tips:

(FOLD HERE)

Diagnosis: Closed Right Distal Tib-Fib Fracture. Right AC Separation.

Disaster Victim # 39

Name: Matthew Cohen **Age:** 75 **Gender:** M

Arrival Mode: Non-ambulatory. BIB EMS.

Past Medical Hx: None.

Chief Complaint: BHT. Altered.

T(C): 37.1 **BP:** 85/60 **HR:** 122 **RR:** 28 **SpO2:** - **Wt(kg):** 68

Physical Exam: GCS 3. Multiple hematomas to the head.

Additional Information: Found down.

(FOLD HERE)

Victim Information:

Acting Tips: Be unresponsive.

Moulage Tips:

(FOLD HERE)

Diagnosis: Subdural Hematoma.

Disaster Victim # 40

Name: Ron Drawers **Age:** 44 **Gender:** M

Arrival Mode: Ambulatory. Self transport via car.

Past Medical Hx: None.

Chief Complaint: Right hand lacerations.

T(C): 36.6 **BP:** 110/70 **HR:** 60 **RR:** 20 **SpO2:** - **Wt(kg):** 88

Physical Exam: Minor lacerations to right hand. N/V intact.

Additional Information: States lacerations due to falling debris.

(FOLD HERE)

Victim Information: You are a member of the media pretending to be a victim. You are trying to get information about the explosion and gain access to the hospital.

Acting Tips: Ask lots of questions to staff and other patients. Do not leave ED until they escort you out or send you to media area. If they discharge you, hang around and try to continue talking to people.

Moulage Tips:

(FOLD HERE)

Diagnosis: Superficial Lacerations.

Disaster Victim # 41

Name: Nate Nobeen **Age:** 30 **Gender:** M

Arrival Mode: Non-ambulatory. Self transport via bus then collapsed.

Past Medical Hx: ESRD on HD (T, Th, Sa).

Chief Complaint: Lethargy, vomiting.

T(C): 37 **BP:** 170/91 **HR:** 118 **RR:** 12 **SpO2:** 98 **Wt(kg):** 68

Physical Exam: Follows commands. Weak. HD shunt intact. Edema. CR < 2s.

Additional Information: No dialysis for 5 days.

(FOLD HERE)

Victim Information: Brady arrhythmia develops if hyperkalemia not identified in 1st hour and treated.

Acting Tips: If asked, you missed your last dialysis appt due to missing bus. Dialysis closed today due to EQ.

Moulage Tips:

(FOLD HERE)

Diagnosis: Hyperkalemia. Renal Failure.

Disaster Victim # 42

Name: Cara Almer **Age:** 66 **Gender:** F

Arrival Mode: Ambulatory. BIB son's fiance.

Past Medical Hx: Alzheimer's Dementia.

Chief Complaint: Bilateral arm pain.

T(C): 37 **BP:** 110/65 **HR:** 110 **RR:** 28 **SpO2:** - **Wt(kg):** 62
