REFERENCES (12 pt)

The References section must include all relevant published works, and all listed references must be cited in the text. References should be written in the order of they appear in the text. Within the text, cite listed references use **APA style**, by their author last name and year (e.g., husnussalam (2010)). The author(s) must check the accuracy of all cite listed reference, as the JME Journal will not be responsible for incorrect in-text reference citations.

All submitted papers in JME Journal are suggested using Reference management applications such as Mendeley, Zotero or EndNote

Follow the styles shown in the examples below for books, specific chapters in books, and journal articles, respectively:

Madigan, M.T., Martinko, J.M., Stahl, D.A., Clark, D.P. (2010). Brock Biology of Microorganisms, 13th ed. Benjamin Cummings. San Francisco. pp. 42-59.

References to papers accepted for publication but not yet published should show the journal name, the probable year of publication (if known), and they should state "in press."

The following types of references are not valid for listing in the References section:

Unpublished data

Personal communication manuscripts in preparation or submitted pamphlets

Abstracts

Patents

Newsletters

Material that has not been subjected to peer review.

References to such sources should be made parenthetically in the text (e.g., J.J. Favier et al. (1986). Abstr. Proceedings of the Eight International Conference on Crystal Growth, York, UK, p. 50).

Tables

Tables should be typewritten separately from the main text and preferably in an appropriate font size to fit each table on a separate page. Each table must be numbered with Arabic numerals (e.g., Table 1, Table 2) and include a title. Place footnotes to tables below the table body and indicate them with superscript lowercase letters (a, b, c, etc.), not symbols. Do not use vertical rulings in the tables. Each column in a table must have a heading, and abbreviations, when necessary, should be defined in the footnotes.

Figures

Figures should be provided separately from the main text. Use Arabic numerals to number all figures (e.g., Figure 1, Figure 2) according to their sequence in the text. The figure number must appear well outside the boundaries of the image itself. Multipart figures should be indicated with uppercase and bold font letters (A, B, C, etc.) without parenthesis, both on the figure itself and in the figure legends.
