

# Summer Camp 2026

Welcome to Rancho Christian School's **STEMQuest Summer Camp**. STEMQuest is an exciting, hands-on adventure where curiosity leads the way! Designed for students in grades K–7, this dynamic camp invites children to explore science, technology, engineering, and math through creative projects, interactive experiments, and real-world problem solving.

Throughout the summer, campers will embark on themed challenges that encourage critical thinking, teamwork, and innovation. From building and testing inventions to conducting fun science experiments and tackling engineering quests, students will learn by doing in an engaging and supportive environment. We believe learning should be joyful and meaningful. Our camp fosters creativity, confidence, and perseverance while helping students discover how their unique gifts can be used to explore and care for God's world.
