

Dear Hoban Families,

On Friday, October 23rd, Hoban will administer the Digital PSAT/NMSQT. There is no make-up offered for this exam. Student attendance on this day depends on the grade level of the student and if he or she is registered for testing. Please see the section below that pertains to your student's grade and activities for the day. For students who are required to attend, the beginning of testing will coincide with the normal start of the school day.

We expect for students to be dismissed around 11 a.m., after the completion of their testing.

Students with College Board approved accommodations will take longer. Given this is a digital exam, this completion time may be fluid given any tech issues that may arise. Students will receive information about their testing groups the week before the test. No lunch is provided, and students who do not drive to school will need to be picked up after the test unless they ride a Hoban bus.

- **Seniors:** There is no school for seniors. We encourage seniors to take advantage of this day off and schedule a college visit or work on their college applications.
- **Juniors:** All juniors are required to attend this day and will be taking the Digital PSAT/NMSQT.
- **Sophomores:** Sophomores enrolled in an Honors English or in an Advanced Math class are registered for the Digital PSAT/NMSQT. Sophomores who are registered for the Digital PSAT/NMSQT will receive an email from Mrs. Mattes in the coming weeks. Any sophomore who is not registered for the Digital PSAT/NMSQT should not report to school on this day.
- **Freshmen:** Freshmen enrolled in an Honors English or in an Advanced Math class are registered for the Digital PSAT/NMSQT. These students will receive an email from Mrs. Mattes in the coming weeks informing them of this. Any freshman who is not registered for the Digital PSAT/NMSQT should not report to school on this day.

We appreciate your attention to this important information. Please contact me with any questions at mattesj@hoban.org.

Thank you,

Mrs. Jennifer Mattes
Associate Principal of Student Services
