Long, Long time ago in the magical land of Equestria, evil reigned supreme. Greed and prejudice fell upon a fertile soil and the Elements of Harmony weren't able to save the land once again. Dark ages of balefire and annihilation fell upon the once peaceful world and birthed a world full of magical radiation. It wasn't the end though. Equestria prevailed. The last bastion of pre-war nation is the City of Stalliongrad, the Pearl of South, which never stopped it's fight. It's enemies are alien, numerous and new, but War... War never changes.
