

Illinois Department of Human Services

Bridge Subsidy Initiative

This document provides an overview of the Illinois Department of Human Services (IDHS) Permanent Supportive Housing Bridge Subsidy Initiative. This document reviews the critical elements of the subsidy application and administration process for care managers and housing locators. Further details are in policy P4.03 Housing Search and Bridge Subsidy.

The next page includes contact information for the IDHS Housing Coordination Unit and the Bridge Subsidy Administrators.

The Transition Coordination Guide (formerly known as Document #7) is also included in this document.

Housing Forms are available on the Colbert & Williams Training Website at <https://colbert-williams.nursing.uic.edu/forms/> and other necessary housing resources and information are available on the site at <https://colbert-williams.nursing.uic.edu/processes-and-tools/housing/>.

Illinois Department of Human Services Permanent Supportive Housing: Bridge Subsidy Initiative
Checklist for Transition Coordination

This document is designed to capture transition coordination activities that are vitally important to the success of a Class Member or Front Door Diversion Program (FDDP) Participant who has been approved for a PSH Bridge Subsidy. Please ensure that activities 1-6 are completed in order and activities 7-10 are completed if necessary.

1. Submit income verification documentation to the Subsidy Administrator.

- a. Immediately upon receiving official notification that the participant has been approved for a Bridge Subsidy, submit income verification documentation to the Subsidy Administrator for your region (see below for contact information). The Subsidy Administrator will verify the participant's income and conduct other checks to identify potential barriers to receiving a Housing Choice Voucher (Section 8) in the future.
- b. Income verification documentation includes Supplemental Security Income (SSI) letter, benefits letter, proof of income letter or proof of award letter, and signed client participation form.
 - i. If the participant is the head of a household with multiple members, the Subsidy Administrator will inform you of the maximum allowable unit size given the household's composition.
- c. You may begin working with the participant to identify housing before completing this process with the Subsidy Administrator. **However, they CANNOT sign a lease before completing steps 1 – 3 of this document.**

2. Conduct a thorough housing search with the participant.

- a. When looking for a housing unit with a participant, it is important to ensure that the monthly rent plus utilities (heat, water, lights) is less than the Fair Market Rent (FMR) value for the unit size and community in which the unit is located. A Bridge Subsidy receipt is eligible for one (1) bedroom per household member. If over FMR limit, approval from IDHS is required. If you are unsure of the FMR for your community, please visit: <https://www.huduser.gov/portal/datasets/fmr.html>
- b. In many cases, it will be vital to the participant that the utilities for their chosen unit are included in the rent. This is particularly important when working with a participant who currently has no or very little income. Many landlords may be willing to include the utilities in the rent even if they do not typically do so.
- c. Landlords can be provided with basic information about the Bridge Subsidy program using optional form 4.6 Bridge Subsidy Information for Landlords. The care manager or housing locator should fill in the appropriate contact information for the Bridge Subsidy Administrator and care manager before use. The participant must also sign a release of information authorizing the provider to share the document with the prospective landlord.

3. Once the participant has identified and been approved for a housing unit, complete the "Inspection Request Form" and fax it to the Subsidy Administrator as indicated.

- a. The participant cannot sign a lease nor move into the unit until it has passed HQS inspection.
- b. The Subsidy Administrator will scan the form back to you with the inspection results once the inspection has been completed.

4. After the unit has passed the HQS inspection, the participant may sign the lease and schedule a move-in date.

- a. **NOTE:** The participant cannot move in before the landlord has returned the signed HAP contract along with W9 and a signed copy of the lease to the Subsidy Administrator. See below.
5. **Work with the landlord to ensure they return the signed HAP contract along with W9 and a signed copy of the lease to the Subsidy Administrator.**
6. **If at any time a Bridge Subsidy participant decides to relocate, you must contact the IDHS Housing Coordination Unit (listed above) so an appropriate plan can be developed prior to any relocation activity.**
7. **All family members that intend to reside with the Bridge Subsidy recipient must be pre-approved by the Bridge Subsidy Administrator.**
 - a. This approval should ideally occur during the application process. If a participant is requesting to add a household member after the application process has concluded, the Care Manager must contact the appropriate IDHS Housing Coordinator listed above and make this request in writing.
8. **If a participant's income changes, they must request, through their Prime Agency or FDDP Provider, a rent adjustment by contacting the Subsidy Administrator. Increases in income should be reported during the annual recertification process.**
9. **If a participant decides to withdraw or exit from the Bridge Subsidy at any point, report the exit/withdrawal to the assigned IDHS Housing Coordinator by the next business day.**
 - a. Please note that only IDHS can terminate a Bridge Subsidy. Your agency cannot terminate a Bridge Subsidy due to a participant's non-compliance with recommended services.

Additional resources and forms related to Bridge Subsidies and Housing are available on the Colbert & Williams Training Website at <https://colbert-williams.nursing.uic.edu/processes-and-tools/housing/>.
