

Privacy Policy for UnifiWorkspace

Effective Date: August 26, 2026

1. Overview UnifiWorkspace ("we," "our," or "us") is committed to respecting and protecting your privacy. UnifiWorkspace is built as a local, client-side browser extension designed to help users organize and view multiple web pages side by side in a customizable canvas grid.

2. Information Collection and Usage UnifiWorkspace **does not collect, store, transmit, process, or sell any personal data**, sensitive user information, or browsing history.

- **No Analytics:** We do not use third-party analytics, tracking cookies, or telemetry scripts.
- **No External Servers:** UnifiWorkspace does not transmit your URLs, layout configurations, or browsing activity to any external server.
- **Local Operation:** All pane arrangements, custom layout settings, and URL parameters operate 100% locally within your Google Chrome browser instance.

3. Permissions Usage UnifiWorkspace requests only the minimum Chrome extension permissions required to function:

- **Storage (`chrome.storage.local`):** Used strictly to save your workspace layout preferences and active pane URLs locally on your device so they persist across sessions.
- **DeclarativeNetRequest / WebRequest (if applicable):** Used strictly to allow embedding of requested web pages inside your canvas grid panes without cross-site display restrictions.

4. Data Sharing and Disclosure Because we do not collect any user data, we do not share, sell, trade, or disclose any user information to third parties under any circumstances.

5. Changes to This Privacy Policy We may update this Privacy Policy from time to time to reflect minor operational or regulatory updates. Any changes will be posted directly to this page with an updated effective date.

6. Contact Us If you have any questions or concerns regarding this Privacy Policy or UnifiWorkspace, please reach out through our official Google Chrome Web Store listing page support channel.
