Guide to Studying Medicine 2021

Pathways to medicine and health | Online, Wed 9 June 4-4.30pm AEST

Healthcare is one of the fastest-growing industries around the world and people are drawn to the opportunity to make a difference in other's lives as well as the flexibility to enjoy diverse careers domestically and internationally.

The University of Sydney offers the widest range of medicine and health programs in Australia. This webinar will highlight pathways and options available to students who don't get into their first choice.

UCAT Summary and Preparation

The University Clinical Aptitude Test (UCAT ANZ) is an admissions test used by the UCAT ANZ Consortium of universities in Australia and New Zealand for their medical, dental and clinical science degree programmes.

The UCAT ANZ helps universities to select applicants with the most appropriate abilities and professional behaviours required for new doctors and dentists to be successful in their clinical careers. It is used in collaboration with other admissions processes such as interviews and academic qualifications.

It is also your opportunity to stand out from other applicants and demonstrate your aptitude for a demanding programme of study.

The UCAT ANZ is a computer-based test delivered in Pearson VUE test centres throughout Australia, New Zealand and at some overseas locations.

Please note that some pathways to medicine / dentistry / clinical sciences will not require the UCAT ANZ. For some applicants a different test may be required. For details candidates should refer to the websites of the [universities](#) to which they intend to apply.

<https://www.ucat.edu.au/ucat-anz/>

UCAT Practice Tests and Resources

We advise you to prepare for the UCAT using the free official practice materials which have been developed by the UCAT Consortium. We believe that all everyone should have access to free preparation materials to support their test preparation. The resources and advice below have been produced by ourselves using feedback from previous high-scoring candidates.

<https://www.ucat.edu.au/ucat-anz/practice-tests/>

UCAT Test Day

You must arrive *at least* 30 minutes before your appointment time to complete the check-in process.

If you arrive more than 15 minutes *after* your appointment time you will not be allowed to take the test and will have to book and pay for a new test appointment on another day, (subject to availability of test appointments). This applies in cases of family emergency, accident, transport problems and security alert as well as forgetfulness and lateness.

<https://www.ucat.edu.au/ucat-anz/test-day/>

UCAT Test Format

The UCAT is a two-hour computer-based test which assesses a range of abilities identified by universities as important to practicing in the fields of medicine / dentistry / clinical sciences. The test consists of five separately timed subtests which each contain a number of questions in a multiple-choice format. Once started the test cannot be paused for a break but before each subtest there is a timed instruction section.

Candidates either sit the standard test or apply for an [extended version of the test](#) if they are entitled to extra time due to a documented medical condition or disability.

Monday 22 March 2021, 6.00–7.30pm

Charles Sturt University, Orange campus

Bathurst

Tuesday 23 March 2021, 6.00–7.30pm

Charles Sturt University, Bathurst campus

Online event

Tuesday 4 May 2021, 6.00–7.30pm

Online

Come to our free medicine information night and discover everything you need to know about our five-year undergraduate entry degree, the Doctor of Medicine. It's a Joint Program in Medicine offered by Charles Sturt University in partnership with Western Sydney University.

Whether you're in high school, looking for a career change or keen to take the next step in your health career – this information night is for you! Parents and career advisers are also welcome. We'll start with an overview of the course and our facilities, entry requirements and how to apply. We'll tell you about clinical placements, career opportunities, support services, scholarships and more. Then you'll have a chance to mingle with our School of Rural Medicine team and chat with current students.

You will get to know our team, have all your questions answered and hear about the experiences of rural and regional doctors.

Book your spot quickly! Numbers at our on-campus events are limited due to COVID restrictions.
