NEWS from the Secondary School

Dear TCIS Community,

Welcome back to school after a much needed Christmas vacation. Please don't forget that every student must present their ATK test upon arrival this morning. As Dr. John mentioned in his email to parents, we are doing Hybrid teaching (both online and in person) depending on parents preference. Students will not be penalized based on your decision.

We are getting ready to work with Grades 9-12 on course selections. As this happens, please talk to students and have them think about what classes are most important for them next year.

The TCIS Christmas Show was a combination of Elementary and Secondary performances. The Secondary School Student Council put this together with the help of Ms. Rebekah, Ms. Cream, and Ms. Coya from ES. We have great singing, dancing, stories, comedies, and even some magic. Enjoy!

<https://youtu.be/eshPMkDuO44>

TCIS Secondary School is a MacBook/iPad one-to-one school - MacBooks or iPads are required for all grade 7 through 12 students.

Important Dates

January 10 - Return to School - All Students and Staff must have ATK Test

News from the Secondary School College Admissions Counselor

Hello Parents!

I hope you all enjoyed a nice holiday break! Breaks are a great time to get away from the stresses of school and instead, spend time with friends and family. It's always important to take time to destress and focus on other aspects of life that are important! Now that we're back in school, the year is going to keep moving faster and faster! Many of our senior's US university applications were submitted just before the break, and I know they are eagerly awaiting (hopefully good) news about their applications! Please remind them to relax, continue focusing on school, and let the chips fall where they may, as the expression goes. They have put in 3+ years of hard work in high school so I sincerely hope for the best for all of them!

As we begin to focus on the end of the 1st semester (January 28), midterms exams become front and center. For our freshmen, this will be their first time taking such exams. Here are a few tips to help your children prepare for these tests:

- 1) Don't wait until the day or even week before a test to start reviewing. Plan several study sessions over the course of several days or weeks. This way students won't have to 'cram' material.
- 2) Encourage your child to talk with their teachers in the days and weeks leading up to their tests so that there are no surprises on test day. Students should ask for clarity if they are unsure about what content will be on their exams or what the format of the test might be.
- 3) Students should go to teachers for extra support during PLT class. This is a perfect time to get questions answered and to prepare for exams with the people that are giving them!
- 4) Keep checking PlusPortals regularly and make sure there are no missing assignments. Missing assignments will always hurt a student's grade. If a teacher will allow a student to turn in an assignment late for partial credit, they should do that. Partial credit is always better than zero credit.
- 5) Get plenty of sleep. Getting 8-10 hours of sleep, though challenging at times, has shown to be an effective way to maximize focus and concentration, reduce stress, improve immune system function, among many other benefits.
- 6) Eat a healthy breakfast. By doing this, students will gain essential nutrients that help provide energy, improve alertness, mental performance, concentration, mood, and memory.

As always, if you have any questions or concerns, please feel free to email me or set up a Zoom any time! My door is always open!

Regards,

Jeff Chelin

UNIT OF STUDY

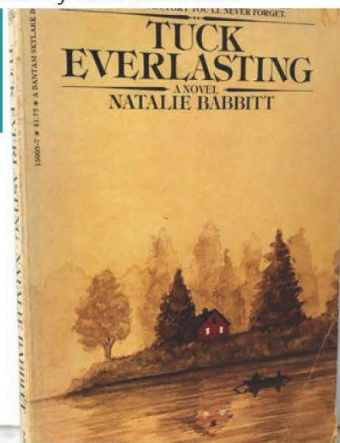

Students are working towards their Accelerated Reading goals. After each book, they complete an online quiz. We also did a written book review of our favorite book so far. These were submitted as surprise tickets to win prizes from the library's Christmas tree for all their hard work!

HAVE A WONDERFUL AND SAFE HOLIDAY!

I asked students to continue to have a balanced but to also try new activities.

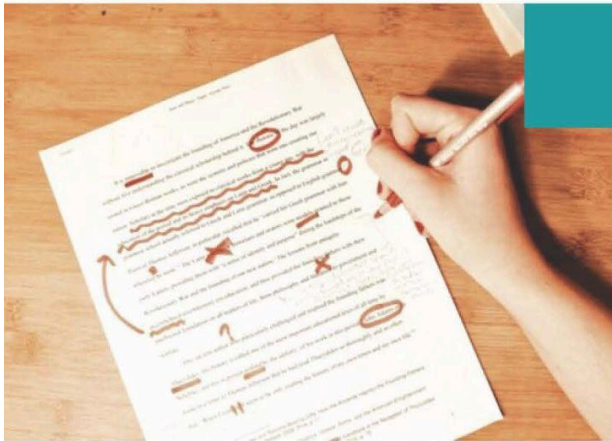

READING

We completed a class reading of the book "Tuck Everlasting." As we read, we applied the reading strategies we have learned during the year. The pace was much slower than independent reading since we analyzed the story in depth. This will help to transfer skills to students. Students will find reading more enjoyable and will be able to achieve more during independent reading. Students visited the library to checkout books more books.

WRITING

Students chose an independent writing prompt. Based on the prompt, students had to write at least 5-paragraphs in one sitting. Writing by hand helps students be more creative with their writing and it is an activity they should do often. Writing by hand also helps to improve comprehension, memory, and literacy. Students worked to expand the introduction, body, and conclusion by hand. These revisions were also done by hand. The final writing can be published online typing.

VOCABULARY

Students studied the 8 parts of speech. They used their research skills to find the definition of each. Once they understood each part of speech, they created an infographic. The infographic will help other students learn the definition. Students used their creativity to make each infographic unique, but they had to include at least the definition, example sentence, and example words. When they were done, they presented their infographic on Seesaw for other students to learn. As a class, we gave feedback on our friend's designs. These activities prepared us for our vocabulary quiz. Results were provided to students.

GRAMMAR

The last few weeks were focused on applying the rules we learned. We wrote with clarity. When we revised our work, we checked to make sure we followed the rules we learned. Finally, as we provided feedback, we supported our friends in remembering the rules. We will continue to improve our grammar when we return. By reading for 30-minutes every day, students will see their grammar improve during the break.

Children are more likely to eat fruits and vegetables if they participate in gardening projects. In Colorado's Denver Urban Gardens (DUG) school program, "73 percent of students who work in the school garden reported increasing their actual consumption of produce." As this statistic demonstrates, taking care of fruit and vegetable plants can give students a greater appreciation for these healthy foods. In addition, especially in neighborhoods that aren't close to farms or high-quality grocery stores, gardening can make produce more easily available for students to eat.

NEXT YEAR

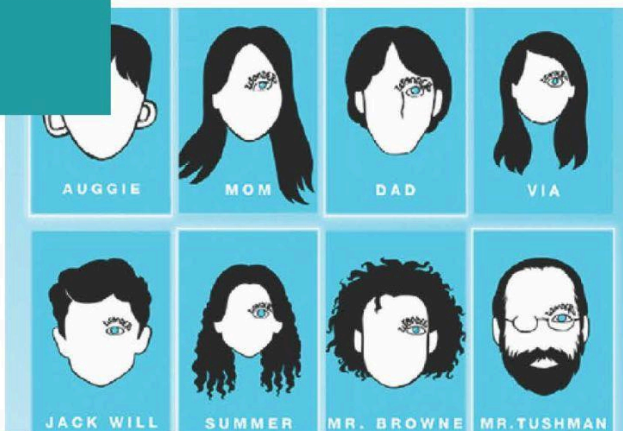

I wish students and families a wonderful break. School breaks are a perfect time for adventure and fun. Through activities, students will continue to make great progress while also learning more. Most importantly, it is a time they can be with family and friends. I will be available by Email. When we return from the break, we will go back to working towards making great progress as we finish up the last part of the year. See you next year!

English Grade 5 / Semester 1 Week 16

Students are working towards their Accelerated Reading goals. After each book, they complete an online quiz. We also did a written book review of our favorite book so far. These were submitted as surprise tickets to win prizes from the library's Christmas tree for all their hard work!

Students finished reading parts 4 and 5 of Wonder. After each section, we answered reading comprehension questions using complete sentences. We discussed the book and thought critically about the different perspectives. We also thought about our own perspectives and how we might handle difficult situations. All of the events in this book support student life and designing their own book they are creating.

Some students were able to submit their books about bullying before we moved online. However, we can continue after the break when we return again. It is very important that students complete their book and keep it safe. Writing by hand also helps to improve comprehension, memory, and literacy. When we return to school, I will submit their creative books to our library. Other students will benefit from our stories that teach important and valuable lessons about bullying.

Consequences of Bullying

Hi! Today I am going to talk about the consequences of bullying. As you know, these days there's a lot of bullying around the world. Though what I just said is about bullying, now I am gonna talk about what I just said at the start of the paragraph and that is "The Consequences of Bullying".

Now let's dive into what I think the consequence of bullying should be. In my opinion, the consequence should be a "Parents Talk." I think the consequence should be parents talk because the bully's parents could talk to the bully about their action and the bully's parents could teach the bully a lesson. This would allow the bully to change.

Now here's another reason and that is the bully could say sorry to the kid who got bullied. You know of course, when the bully's parents talk to the bully, usually and the bully's parents will definitely tell the bully to say sorry to the kid who got bullied. In this world, when someone does something bad to you and then humiliates you, after that, you will feel better and this is the story if the bully apologizes to the kid who got bullied because will feel better too.

"Wasn't how!" We have come down to our last reason why parents talk is a good consequence for the bully. That reason is, the bully doesn't talk anymore. You might wonder how this reason will be answered right now and the answer is, it won't. The bully might not want to hear his parents' words but he will be trying to stop his bully from bullying. The bully will be going to bully someone else. The bully can't talk anymore. The bully parent is not with the bully and then the bully parent has to be a detective.

There you have it, my opinion of what the world should be for bullying someone and those reasons and evidence for the reasons. I hope you agree with me. Thank you.

Wonder has a long list of vocabulary words that will be new to all students. Reading supports learning new words. However, students can improve remembering these new words by taking notes or applying the dictionary activities that we have practiced all semester. I provided students with a word list of academic vocabulary words. Students do not need to study this list. Instead, they can use it to check on how many academic English vocabulary words they know. As students continue to read for at least 30 minutes every day, they will see their Lexile scores increase which is also an indicator of how large their English vocabulary is.

GRAMMAR

The last few weeks were focused on applying the rules we learned. We wrote with clarity. When we revised our work, we checked to make sure we followed the rules we learned. Finally, as we provided feedback, we supported our friends in remembering the rules. We will continue to improve our grammar when we return. Unit 2 is talking about "Let's go traveling".

Students can write Chinese descriptions of scenic spots according to the pictures. After the students receive the picture information, the students can use their existing abilities and combine what they have learned in the text to generate their own sentences in Chinese. Every student expresses it very well and has its own characteristics, which I like very much.

Chinese Foreign tongue Class Gr.7- Level 1

At the beginning of December, each of Gr.7 students made a card for Father's Day. They used torn paper to fill in Chinese characters.

Those Chinese characters are “爸爸 全家愛你 (Dad, we love you)”.

Lesson 3: Number and Idioms 數字與成語

CFT Gr.7 students can understand the meaning of “idioms” and know how to use it.

They learned 7 idioms: 一心一意, 三心二意, 五顏六色, 五花八門, 一舉兩得,

一石二鳥 & 九牛一毛.

Chéng yǔ

成語

查一查他們是什麼意思？

- 一心一意 yìxīnyíyì
- 三心二意 sānxīn'èryì
- 五顏六色 wùyánliùsè
- 五花八門 wǔhuābāmén

做事情不能 ，要不然什麼事都會做不好。

如果你 做一件事，很快就會做完。

一舉兩得

當交換學生不但可以學到很多東西，還可以認識新的朋友，真是一舉兩得。

五顏六色

成語是用四個中文字組成的詞

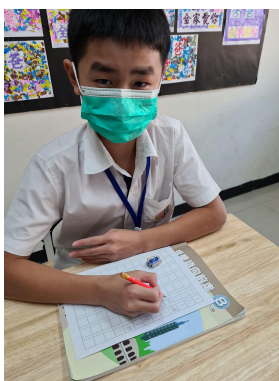

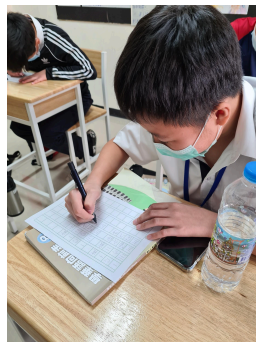

Chéngyǔ shì yòng sì gè Zhōngwén zì zùchéng de cí

對華人來說，成語很重要

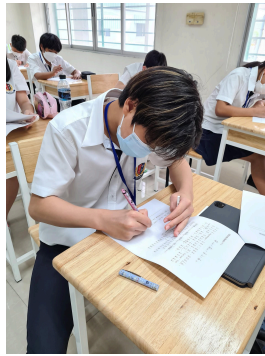

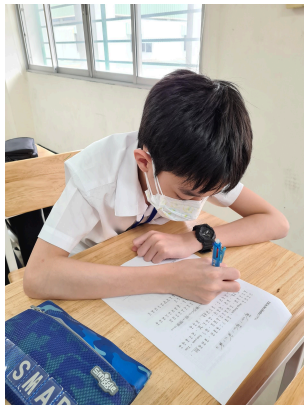

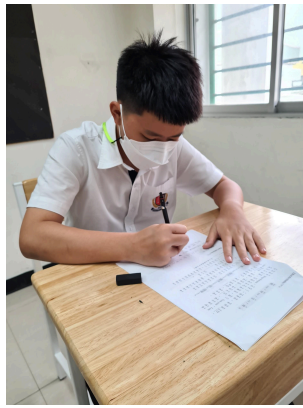

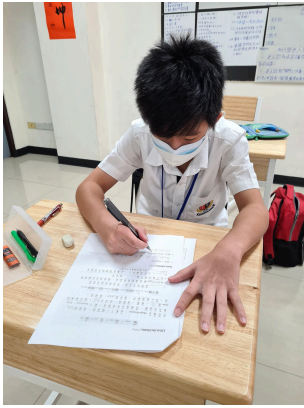

Duì huárén lái shuō, chéngyǔ hěn zhòngyào

成語可以表示一個故事，一個情況

Computer Policy for 2021-22

Student Computers - 2021-22

The Faculty and Administration believe technology is a powerful and integral part of the TCIS instructional program. While there are many good computers on the market, please understand PC/Windows based computers are not supported for academics at TCIS.

- 1) TCIS Secondary School is a MacBook/iPad one-to-one school - MacBooks or iPads are required for all grade 7 through 12 students

- 2) TCIS Grades 5 & 6
- a) School owned Chromebooks are provided for grades 5 & 6 students.
 - b) All students in Grades 5-6 need access to a computer at their home. Students will be using Google Classroom and various websites for school work. We do recommend a laptop but any computer for home use is fine. iPads and tables are acceptable but have some limitations. Windows-based computers are fine for home use as well but are not allowed on the school network.
 - c) Grade 5 & 6 students can opt out of the school owned Chromebooks if they have their own MacBook or iPad.
 - i) iPads are more durable for Grade 5 & 6 students and are recommended.
- 3) TCIS Elementary School
- a) School owned technology is provided for elementary students

Middle School Math Pathways

For math in middle school, we offer Pre-Algebra in Grade 7. In order to move to Algebra 1 in Grade 8 students must score 80% or higher in both Semesters. Alternatively, students can be placed in Algebra 1 in Grade 8 if they score 70-79% for a class average and pass a cumulative exam with a mark of 80% or above. Any Grade 7 student who does not meet these conditions must take Pre-Algebra Part 2 in Grade 8. For Grade 6, any student who does not have 80% or above for a yearly average will take Pre-Algebra Part 1 in Grade 7 and Pre-Algebra Part 2 in Grade 8.

Hair Color Requirement at the TCIS

It is a requirement that students at the TCIS maintain their natural hair color. Other colors (including highlights, shading, etc.) are not acceptable. While students enjoy trying new things in Secondary School, hair color is not one of those things that we allow students to experiment with.

Section 5.4-2 (page 29) of the Student Parent Handbook (Uniform and Appearance) regarding hair color:

Hairstyles, if considered inappropriate for students in a school setting, will not be allowed.

Hair, even if colored, should be of natural hair color or hue.

Hair Styles Not Permitted at TCIS for Students from PK2 to Grade 12

Images such as lightning bolts are not shaved into a student's hair. (Example: Image 1)
Hair must be kept as the student's natural color. Dyed, highlighted, bleached, or colored hair is not permitted at TCIS. (Examples: Images 2 & 3)

Parents/visitors who wish to enter campus are asked to schedule an appointment through the registrar.

- Masks must be worn at all times, including the classroom.
- Students' temperature is checked upon entrance.
- Late students must check in with the Registrar to receive an "Admit to Class" slip. The registrar is located in the main lobby of the admin building.
- Students must use hand-sanitizer before entering school and before entering each classroom.
- Students must sanitize any shared classroom materials/supplies after each use.
- Students sanitize their desks before leaving from every class, with the provided supplies.
- Students must remain socially distant at all times.
- No more than 4 students in the restroom at any given time.
- Students may take their backpacks into their classroom for each block to avoid groups at the lockers.
- MS Students have a 20 minute transition period between classes.
- Students may wear a face shield as well as a mask but not instead of a mask.
- Lunch (Students' temperature is checked upon entrance to the canteen before lunch.

Students in grades 5-8 use the Accelerated Reader program to track their reading comprehension skills and obtain points based on the books they read each quarter. Accelerated Reader is a software tool that allows students to select their own book and then assess whether a student has completed reading the book by asking a

series of questions. We keep track of this each quarter and have a big party at the end of the year.

Accelerated Reader is administered by the English Department under the direction of Mr. Ted, our Curriculum Coordinator and Head of English. Students in each grade are required to read independent novels and get points each quarter.

Grade 5 - 12 points

Grade 6 - 15 points

Grade 7 - 20 points

Grade 8 - 25 points

To find a list of books that qualify as Accelerated Reader (AR) books and the points for each book, please go to: <https://www.arbookfind.com/>

Reporting Student Absences and Tardies

(New Process This Year)

Send an email to: registrar@tcis.ac.th

Or

Call the Registrar's Attendance line at: [02-751-1201](tel:02-751-1201)

**Please notify the registrar as soon as possible of your child's absence or tardiness from school.
A parent or guardian must email the Registrar within one day following the absence.**

Excused Absences

For an Absence to be Excused, a parent must email/call in the absence within 24 hours. The reason for the absence must be supported by the factors outlined in the attendance policy:

- Illness with medical documentation
- observation or celebration of a religious holiday
- recovery from accident with medical documentation
- required court attendance with court notice
- death in the family
- other absences that may be deemed acceptable by the Head of Schools or Designee

Unexcused Absences

If a parent does not email/call in the absence, the student is marked as absent without excuse.

Birthday Cupcake Procedures and No Food Deliveries Policy

At TCIS, we understand that children and parents wish to celebrate birthdays with classmates. It is a big day! While we do allow children to bring in cupcakes to share with classmates, we do have procedures in place that need to be followed.

Please note, no soda, no full birthday cakes, or candles are allowed, as it takes too much time for us to cut and distribute cake to students and to clean up. Of course, candles are dangerous and present a serious fire risk.

These steps need to be followed:

- The cupcakes must come to school with the student when he/she arrives at school.
Deliveries are not allowed under any circumstances.
- The cupcake will be given to Ms. Ooy or Dr. Michael in the morning and kept their office
- Do not provide any knives to your child to cut the cupcakes.
- Cupcakes will be distributed only lunch time by the student
- No loss of class instructional time will be allowed due to the celebration

No Food Deliveries Allowed

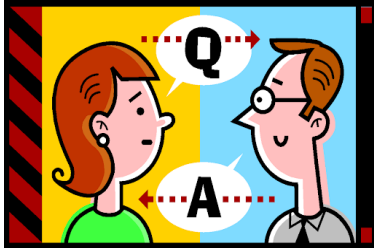

No food deliveries are allowed to TCIS at any time during the school day.

If a student forgot his/her lunch, do not worry, we will make sure to take care of them on that day. However, please do make sure your child has money on his/her card to use in the canteen.
