

THE [MAIN] TITLE OF THE PAPER, 14 PT FONT-SIZE, ALL IN BOLD, CAPITALIS/UPPERCASE

The author's name and the affiliation must not be written here, just put them in the "user profile" in the journal website. It is suggested as well to remove all "document properties and personal information" from your file

Abstract: Write down here your paper's abstract in one paragraph, no more than 200 words. The abstract is not an "introduction", nor the conclusion of the discussion. Instead, it should contain, but not limited to: (1) the main question and the background of the discussed issue; (2) the research position; (3) how the question is discussed in the paper (the method used in this paper); and (4) the main result of the discussion. Other important matters discussed in the paper that significantly contribute to the result of the research may be noted here, but you must consider, however, the limited space of the abstract.

Keywords: mention only specific concepts [word or phrase], 3-5 concepts, truly conceptual words, and not too general ones, and are separated by semicolon (;).

Abstrak: *Tuliskan di sini abstrak makalah Anda dalam satu paragraf, dengan huruf miring, tidak lebih dari 200 kata. Abstrak bukanlah "pengantar" atau kesimpulan dari diskusi. Sebaliknya, abstrak harus berisi, tetapi tidak terbatas pada: (1) pertanyaan utama dan latar belakang masalah yang dibahas; (2) posisi penelitian; (3) bagaimana pertanyaan tersebut dibahas dalam makalah; dan (4) hasil utama pembahasan. Hal-hal penting lainnya yang dibahas dalam makalah yang secara signifikan berkontribusi terhadap hasil penelitian dapat dituliskan di sini, namun perlu diperhatikan bahwa ruang abstrak yang tersedia sangat terbatas.*

Kata Kunci: *hanya menyebutkan konsep [kata atau frasa] tertentu, 3-5 konsep, kata-kata yang benar-benar konseptual, dan tidak terlalu umum, dipisah dengan tanda titik koma (;)*

Introduction [the First Section must be "Introduction"; Typed in Bold, List-style without ABCs Alphabets]

Your text is here, in 12pt font-size, 1 line-spacing; don't add space before and/or after paragraph. It is much better to not format your text in a specific technique, instead, just leave it plain except that you really need to type certain words in a "special method", or to emphasize certain word or words. Italic is a must in typing non-English word. Arabic word is transliterated based on JIU style, which is available for download in PDF file format [url:].

Please explore in more words the background of your paper and your current research position among other research on related themes. You should discuss here as well your research's relations with those of other researchers; literature review, especially on most relevant, newly academic works published in high reputation journals, is a must.

To put it another way, please try to answer at least two questions: (1) why you believe that your research question is such an important to answer; and (2) how other scholars have or have not answered, or how you think your answer would be a contribution to the existing scholarship on the subject.

A detailed description of your methods in doing the research is not necessary to write down in this section, but if you think you must do so, you may mention it slightly in one or two sentences.

A little bit of exploration on the flows of your discussion and the expected results will be good points for closing this introduction section.

The First Aspect of the Discussion as the Second Section

Here you may discuss every aspect of the issue one by one. It is necessary to build argument and to provide original data discussed and compared to research and works of other scholars. In other words, the way to discuss an issue here is by combining the data and the discussion. So, it is not recommended to separate merely data description from the analysis on it.

Every quotation is written down in a specific way that can be identified as a "quotation" different from your original text. At the end of every quotation, you must put its reference[s] in **endnote** style of *Ilmu Ushuluddin*. A reference must also be put in the end of every citation that paraphrasing ideas from someone's works. If citation is taken from a book, it must be like this,¹ and the subsequent citation is like this.² A book with volumes,³ cited in a subsequent note;⁴ please note that the endnote reference number is placed after [not before] any punctuation. Citations from any previous references, but not subsequently cited, is noted like this.⁵ Just mention the last name of the author and the sorted version of the work's title.

The Second Aspect of the Discussion, the Style of Other References

Examples of references other than book are paper in a journal,⁶ websites,⁷ book chapters,⁸ a master thesis,⁹ and a PhD thesis.¹⁰ Please provide a complete internet URL whenever available along with the date access (see footnote 7).

The Third Aspect of the Discussion, and so on

It is possible to add sections as needed. A section may consist of several sub-sections, like the following example.

Sub-Section as Part of its Parent Section

You do not need to add any special indentation in typing body text under sub-section heading. The body text here is typed just like any other body text.

Another Sub-Section

Although you may need another sub-heading under this “sub-section”, it is strongly not recommended to do so. Instead, please arrange your discussion and explanation in narrative paragraphs. In addition, listing style of text paragraph is also not suggested.

Figure and Other Illustrations

If you need to include any table, figure, image, or other illustration, please provide a high-resolution picture file as an attachment for your submission file. We will be very happy, however, if you can convert such illustration into narratives and do not include any picture in your paper.

Conclusion

Please provide here your remarks as closing statement. It could be a conclusion from your discussion and analysis and your recommendations for further research project. In this section as well, you may give your acknowledgment for people and parties whose supports make your research possible.
