

B.2.3. maintenance, repair and upkeep of property;

University of Southern Mindanao

AREA VIII: B – CAMPUS

The University of Southern Mindanao (USM) Repair and Maintenance Program is managed by the Physical Plant Development Office (PPDO), a dedicated team responsible for ensuring the safety, usability, and longevity of all campus buildings and infrastructure. The program encompasses regular inspections, timely repairs, preventive maintenance, and upgrades to create a functional, safe, and aesthetically pleasing environment for students, faculty, staff, and visitors.

Key Responsibilities of the Physical Plant Development Office (PPDO)

1. Routine Inspections and Assessments

- Inspections cover essential structural elements, electrical systems, plumbing, HVAC (heating, ventilation, and air conditioning) units, and fire safety systems to identify issues before they escalate.
- A detailed report is generated after each inspection to prioritize repairs, allocate resources, and set timelines for maintenance tasks.

2. Preventive Maintenance Program

- The office implements a preventive maintenance schedule to keep facilities in optimal condition and extend the lifespan of campus infrastructure.
- Key systems, such as electrical and plumbing, are serviced periodically to minimize the risk of unexpected failures, reduce repair costs, and ensure uninterrupted campus operations.

3. Emergency Repair Services

- The PPDO is equipped to handle urgent repair needs to ensure the immediate resolution of safety hazards or disruptions in facility operations.
- A response team is on standby for high-priority repairs such as structural damages, electrical malfunctions, water leaks, and broken fixtures, providing swift action to maintain a safe campus environment.

4. Renovation and Modernization Initiatives

- To keep up with the changing needs of the university, the PPDO undertakes renovation projects aimed at modernizing old facilities, improving accessibility, and enhancing campus functionality.
- Upgrades include energy-efficient lighting, sustainable building materials, and ergonomic classroom and office designs that improve the user experience and support the university's environmental goals.

5. Health and Safety Compliance

- Safety features such as fire alarms, emergency exits, sprinklers, and signage are routinely checked and maintained to ensure compliance and readiness for emergencies.
- PPDO also oversees accessibility modifications, such as ramps, handrails, and elevators, to create an inclusive environment for individuals with disabilities.

6. Facility Upkeep and Aesthetic Maintenance

- Beyond functional repairs, the PPDO is responsible for the overall appearance of campus facilities, including landscaping, painting, and general cleanliness.
- Aesthetic maintenance contributes to a welcoming and inspiring campus environment that aligns with the university's standards of excellence.

7. Communication and Coordination with University Departments

- The PPDO works closely with university departments, faculty, and student organizations to address specific facility needs and communicate ongoing repair schedules or temporary closures.
- A clear communication system is in place to ensure that maintenance activities are well-coordinated, minimizing disruptions to academic schedules and campus events.

UNIVERSITY OF SOUTHERN MINDANAO		Document No.	USM-PPD-001- Rev.3.2020.09.21
Building Repair Management Procedure		Rev. No.	3 Page 2 of 3

- 1.0 PURPOSE
- The Building Repair Management Procedure ensures efficient and timely repair of USM Campus Buildings.
- 2.0 SCOPE
- This procedure covers all offices of the University with repair requests.
- 3.0 DEFINITION OF TERMS
- 3.1 USM buildings refer to existing academic, office and research buildings within the University Campus, constructed using government funds and buildings donated to the university.

3.2 University Campus refers to academic, production and research areas.
- 4.0 REFERENCE DOCUMENTS
- 4.1 USM Quality Management System Manual (USM-QMS-002-Rev.3.2020.02.18)

4.2 National Building Code of the Philippines (PD 1096), 2005 Revised Edition

4.3 Fire Code of the Philippines of 2008 (RA 9514)

4.4 Accessibility Law (BP 344)

4.5 Structural Code of the Philippines

4.6 Philippine Electrical Code, Part 1, Volume 1, 2009

4.7 Construction Management Procedure (USM-PPD-002-Rev.3.2020.07.10, Sec. 6.1 and Sec. 6.3)

4.8 Occupational Safety and Health Standards

4.9 National Plumbing Code of the Philippines
- 5.0 RESPONSIBILITY AND AUTHORITY
- 5.1 The PPDSO Director instructs and guides the Section Head so that the purpose of the section is accomplished.

5.2 The Section Head instructs and guides the construction foreman based on the approved program of work of the repair work that is being implemented in which materials delivered conform to the specifications.

5.3 The Construction Foreman instructs and guides the hired skilled and unskilled construction workers based on approved Program of Work of the repair work that is being implemented.

5.4 Deans/Directors/Heads of Units are responsible in the preparation of Project Procurement Management Plan (PPMP)
- 6.0 PROCEDURE DETAILS
- 6.1 Building Repair

6.1.1 PPDSO Director shall assign technical men to regularly inspect following the Preventive Maintenance Calendar (USM-PPD-F02-Rev.2.2020.03.16) and Building Inspection Checklist (USM-PPD-F07-Rev.2.2020.07.10).

6.1.2 PPDSO technical men conduct inspection.

6.1.3 PPDSO Director shall evaluate the result of Building Inspection.

6.1.4 PPDSO Director shall assign technical men to prepare bill of materials and the necessary working drawing for repairs based on inspection.

6.1.5 The PPDSO Director shall check and review bill of materials and working drawings.

6.1.6 The PPDSO clerk shall encode the detailed estimate, program of work and then submit it to the Office of the President for approval.

6.1.7 Upon approval of the program of work, Purchase Request shall be prepared and submitted for approval.

6.1.8 Approved Purchase Request shall be submitted to Bids and Awards Committee for procurement.

6.1.9 Project Implementation (Refer to Construction Management Procedure, USM-PPD-002-Rev.3.2020.07.10, Sec. 6.2)

6.2 Immediate Job Order Works

6.2.1 Request for repair is received by the PPDSO office.

6.2.2 The PPDSO Director shall evaluate the urgency and scope of the request and assign appropriate technical men to inspect/evaluate and execute the work with Request Job Order (USM-PPD-F11-Rev.2.2020.07.06) issued.

6.2.3 If materials needed to execute the work are not available, the list of materials needed shall be given to the requesting Dean/Director/Unit head for procurement.
