

BATAAN PENINSULA STATE UNIVERSITY-ORANI CAMPUS

Office of the Physical Plant and Engineering Services

B.S.9 The buildings have facilities for persons with disability (PWDs) as provided by law.

The academic programs of Orani Campus are designed to foster academic excellence, practical skills, and holistic development across a range of disciplines. With a strong emphasis on quality education and community engagement, the campus offers a supportive learning environment that equips students for both local and global challenges. Each program integrates modern teaching strategies, hands-on training, and research-based instruction, preparing graduates for success in their chosen fields.

In alignment with the institution’s commitment to inclusivity and equal access to education, all campus buildings are equipped with facilities for persons with disabilities (PWDs), as mandated by law. These include ramps, accessible restrooms, and signage to ensure that all students, regardless of physical ability, can navigate and use the campus safely and comfortably. This infrastructure supports the goal of creating an inclusive educational environment where every learner has the opportunity to thrive.

STRATEGIC DIRECTION TOWARDS THE REALIZATION OF THE VISION

The **Bataan Peninsula State University** was established by virtue of Republic Act 9403, signed into law on 22nd of March 2007. It is a conglomeration of the leading higher education institutions in Bataan seeking to contribute to the national and regional development through providing excellent quality of services in instruction, research, production and extension.

Guided by one **Vision** of becoming a leading university in the Philippines recognized for its proactive contribution to Sustainable Development through equitable and inclusive programs and services by 2030.

Before the conversion, BPSU used to have three campuses; two are located in the City of Balanga while the third is situated in Orani. The passage of RA 9403 resulted to the expansion of BPSU's campuses as the said Act duly integrated the Bataan State College in Dinalupihan and its satellite campus in Abucay (formerly Bataan National Agricultural School). The five campuses of the university have very humble beginnings and yet they all emerged with glorious histories to be proud of. More empowerment is expected to be bestowed to each campus as their strengths shall be utilized for the success of the 111 programs and other services of the university. On June 2008, the University made education more accessible to the residents of the towns of Bagac and Morong by establishing an extension in the Municipality of Bagac. The extension offers some of the most in demand courses in the country like BS Entrepreneurship, BS Hotel and Restaurant Management, first two years of Nursing, and General Engineering courses.

Contributing to national development has always been the topmost priority of the university; therefore BPSU relentlessly keeps itself updated on the recent trends to be responsive to the present and future demands of the community. At present university has three programs granted with Level 1 Accreditation from AACUP. Fifty-six (56) programs are scheduled for accreditation from 2008 to 2012. Moreover, the university continues to equip itself with faculty and employees who have remarkable skills and knowledge in order to uphold academic excellence and maintain its capacity of producing quality graduates. At present, 6 percent of its faculty have Doctorate degrees and 31 percent have master's degrees. The rest are still working on their post-baccalaureate studies.

BPSU STRATEGIC PLANNING PROCESS
2017-2021
