Maya Calendar

To Build

1. 10  + 4  + 20 

2. 3  + 100  + 30 

3. 5  + 8  + 1 

Quests

Swampland

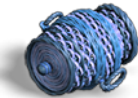

Quests begin when you first travel to Swampland

Mosquitoes, Gnats and much more..

Where are we? The airship is almost drowned, puddles all around! Wow! Whose is this skull? I hope not the previous pilot's. I'd better stay in the airship while you go and take a look around		
		Make a big Combo on the Giant's Skull (x35). You will get some valuable stuff.
		Drain any 3 puddles (click on them until they disappear)
		Find a catapult and complete the first stage of fixing
Reward: 600  , 600  , 5 		
Bandits again, they won't leave me in peace. Anyway, I will settle everything with these thugs!		

Bandits and the Tower

I must settle accounts with these bandits once and for all. It will require much strength, bandits already turned this tower into their castle		
		Fix the catapult and fire the first shot
		Fire the second shot from the catapult

		Demolish the bandits' tower and load their treasures onto the Airship
Reward: 650  , 650  , 5 		
Huh-huh! Finally some justice! And lots of special treasures left from bandits.		

Mysterious Relics

The pilot said that some mysterious antique relics could be found here. I must look around carefully. What is this glitter behind the trees?		
		Find the pyramid and complete two stages of fixing
		Find Maya Calendar and return home"
Reward: 700  , 700  , 7 		
The buildings now look like piles of stones, though the great work of real masters can also be traced in some places.		

Searching for a Golden Snake

It turned out that fixing relics required some assistance from the subjects. Collect Golden Snakes in Adventures!		
		Make 10 Backpacks in the Workshop
		Send any subject on a "Lost Map" Adventure 10 times
		Bring 5 golden snakes from Adventures
Reward: 750  , 750  , 7 		
Great, now it's time you started restoring the Pyramid!		

Broken Airship

OH, MY! What a nasty day, the airship is all covered with the sea mud from the last flight! And there is no fuel left as well, and the bracket is also broken. Will you help me fix it?		
		Make 60 fuel in the Workshop (open 'Special' tab)
		Help the Pilot wash the airship. Make 5 of bottles for water in the Workshop
		Make 20 knives at the Grindstone to fix the bracket
Reward: 500  , 500  , 5 		

The airship looks like a new one. Time to hit the road!

Before the Departure

Heh-heh! We can take off, but first let's take some Cherry Brandy to always stick to our route!		
		Make 3 helpings of cherry brandy
		Plant 40 Sunflowers before the departure, maybe you'll have to come back for a refill
		Load several (5) golden snakes onto the Airship
Reward: 550  , 550  , 3 		
There will be many mosquitos and gnats, gnats and mosquitos again. But we have to finish the Pyramid construction.		

Beauty Knows no Pain

It's time to visit Swampland and get down to the Pyramid restoration. And then handle the Calendar properly. Start up the engine, driver!		
		Go to Swampland
		Complete the Pyramid restoration
Reward: 800  , 800  , 5 		
How beautiful! Some time ago they really knew how to build!		

Antique Recipes

The pyramid looks marvellous - it takes my breath away! We will see how it can come in handy. I hope it's dark passages will give me the answer on how to complete the Calendar construction		
		Make 5 Calendar fragments in the Pyramid
		Make 1 Maya Idol in the Pyramid
		Restore the Maya Calendar
Reward: 850  , 850  , 5 		
Well, the Calendar is restored, now I will know for sure, when I have my weekend! Isn't that great?
