

Sharing a video on the projector and from your computer

Directions & STEPS

1. Connect your Macbook to the projector using your HDMI cable.
2. Go to system preferences "SOUND" and make sure:
output is Epson projector- HDMI
Input is Internal microphone
3. Go to share in zoom

4. In Zoom- find the mute icon and click on the tiny arrow. checked off.

***Under “**select a speaker**” make sure HDMI (Epson PJ) is checked off.

***Under “**select a microphone**” make sure Built-in-Microphone is checked off.
