 - 11 act of defense
 - 12 promote Hungarianism
 - 13 reclaim lost territory (start spamming 2 widths and convert them to base template)
 - 14 demand Slovakia (civilian oversight occupation)
 - 15 demand Transylvania (Romania has to be kicked off faction) (wait for yugo war or Greece war and get war eco when axis boost it, ask the axis when their doing yugo to accommodate time and you must join faction before hand)
 - 16 limited economic intervention
 - 17 reintegrate railroad (war industrialst) and financial expert if you afford it
 - 18 expand the ganz
 - 19 Announce the gyori program
 - 20 war games
 - 21 Invest ludovica academy
 - 22 doctrinal studies(do your gyor program decision and do rubber)
- (save pp for conscription and coring states you own from Carpathian, Transylvania, South solvokia and maybe west banat if Italy gives you it)
- From here is where you can decide what focus you wish to go for but there two important focuses I wanna mention is the arpad legacy and award military promotion. Other focuses have mills and civs to take but do keep in mind how much time you are using on those

Research:

- Basic machine tools, construction 1 and research speed
- Concentrated 1 construction 2 trucks
- Excavation 2 construction 3 improved machine tools
- Concentrated 3 excavation 1 fuel refine
- Logi 1 research speed 2 excav 3
- Logistics Advanced tools construction 4 concentrated 4
- Support weapons, radios 1 to 3 fuel refine 3
- From here you get the gist of what you're expecting to do for research

Role for hungry for this guide is barb wall and trade back for Italy because as of now Germany doesn't have the economy to trade back his civs to Italy

Get the Innovative Weapons Designer advisors for more guns and get stability by doing either party popularity loyalty, fascist raids, and improved workers condition (yes no joke)

Next guide will be tank Hungary good luck 🍀
