

SPEAKER 1

I can't believe you're still struggling with a limp dick. When there are men in their 70s getting rock hard erections that last for 1, 2, 3, even 4 hours, making women squirt like never before. Some of these guys who hadn't felt a hard on in over 10 years are now making women roll their eyes back in pure ecstasy. All this without relying on blue pills or dangerous drugs. This is literally the biggest hardening secret ever discovered. And don't get me wrong, as crazy as this may sound, it's exactly what you heard. There are some old dudes completely reversing their E D and they don't even need pills, pumps or injections anymore. I know this might be hard to believe right now, but listen, I've been in the porn industry for years. I've fucked more than 100 guys on camera and seen every trick in the book. I can prove to you in just three minutes that this is 100% real. So keep watching. All you have to do is put three teaspoons of this baking soda trick under your tongue every morning and watch your dick grow by up to 7 inches while staying rock hard for hours. I know it sounds too good to be true. I thought so too until I saw with my own eyes. Stick around for just a few seconds and you'll see with your own eyes your dick getting hard as a steel pipe. This is the hidden secret behind men who are experiencing powerful, long lasting erections, satisfying their partners with multiple orgasms and reclaiming their confidence and masculinity. Meanwhile, while you're stuck dealing with embarrassing ed and frustrating performance issues, a select group of men who know the truth are out there enjoying mind blowing sex without ever touching those little blue pills. Want proof? This trick went viral in the porn industry and even in Hollywood. Check this out.

SPEAKER 2

In a shocking revelation, Hollywood actors have come forward for the first time exposing a secret they had been using behind closed doors.

SPEAKER 3

Man, I gotta talk about the baking soda trick. Even at 78, I'm giving my wife a harder time than I did 20 years ago.

SPEAKER 4

This trick is absolutely incredible.

SPEAKER 1

The first day I tried it, I.

SPEAKER 3

Felt like I had the energy I.

SPEAKER 4

Did as a teenager.

SPEAKER 1

I've never seen anything like this baking soda trick before. By now, I bet I've made you curious or maybe even a little skeptical. And that's okay. I get it. But here's what you need to know. What I'm about to reveal isn't some bogus pill, painful injection or useless pump that never delivers real results. No way, in fact to Prove this to you? I'm about to share something even more shocking. A controversy is swirling around men over 70 who were diagnosed with chronic erectile dysfunction for over a decade. Men who were essentially sentenced to never feeling the warmth of a wet pussy again, but are now getting rock hard erections lasting at least 40 minutes every night. And if you don't believe what I'm talking about, check this out.

SPEAKER 5

Have you ever imagined having chronic erectile dysfunction for 11 years, being told you'd never have sex again? And then at 73, your life just changes? And now you're able to have erections lasting at least 2 hours?

SPEAKER 3

I have patients over 80 who after years of being unable to have sex, thanks to the baking soda recipe, are now leading an active sexual life.

SPEAKER 1

Yes, I know all of this may seem too good to be true. But please understand that I'm not asking you to believe me right now. All I ask is that you watch the next few minutes. That way you'll see tons of evidence and studies that prove everything I'm saying. So just promise me one thing. Stay with me until the end of this video. Deal. Great. Let's go. Hi, I'm Hayley Davies, and for the past five years, I've been in the porn industry fucking the biggest porn stars in the world. Let's be real. If male performers relied on Viagra every day, they'd be in a coffin by now. Instead, they use a powerful, all natural solution that keeps them going for hours, scene after scene. That's why they've always had their little dirty secrets to last through hours of filming every day. And everyone in the industry knows it. But then, as ironic as it sounds, I met a porn actor who had erectile dysfunction. Yeah. Crazy, right? How does a guy whose only job is to fuck end up with erectile dysfunction? And that's when I saw what Ed really does to a man's confidence. The fear of failing, the anxiety, and even the fear of feeling less of a man at that moment. No matter how many pills or treatments you try, the problem keeps coming back. But you know what's even more impressive? That same actor who struggled with Ed is now one of the biggest porn stars today. All thanks to this baking soda recipe that the pharmaceutical industry is doing everything it can to keep from going mainstream. Afraid of losing sales on their expensive temporary solutions. Think about it. Those overpriced pills might give you a short lived boost, but they never solve the real problem. And until you break free from that cycle, you'll always feel like something is missing. Unable to Fully enjoy life, satisfy your partner, or feel like the confident, unstoppable man you're meant to be.

Now, how did I discover this? Two years ago, I was cast in a shoot with Johnny, a rising porn actor. But something was off. Johnny, usually confident, looked nervous. We started filming. I was sucking his Dick for like 20 minutes, but nothing happened. Desperate, he took a second Viagra, even though he had already taken one 30 minutes before. We waited, tried again, but he was still limp, like jelly. Because of that, the shoot was canceled. He was mortified. Now, on my way home, Johnny called me. And what he told me shocked me to my core. At 36 years old, he was losing his ability to get hard. This was the ninth time in two months he had to walk off a set. Pills, injections, testosterone, nothing worked. With no other choice, he quit the industry. To my surprise, just two years later, something incredible happened. I got an unexpected email. A major studio wanted me for a big production. When I arrived on set, guess who was there exactly. Johnny. The same man who had disappeared, was back. And when the cameras rolled, I was speechless. Johnny dropped his boxers, and there it was. A big, thick, veiny cock, more intimidating than ever. I went down on him, and within 10 seconds, he was rock solid. Then he fucked me for two hours straight. I was moaning so loud because that hard cock was going deep inside my pussy. I've never felt so horny. No breaks, no stopping, no rest. It was the best sex of my life. I had to know what happened. So after the shoot, I took him for coffee. And I had only one question. I was like, man, how did you go from someone who couldn't get hard to this? His answer? I couldn't believe it. After quitting his job, Johnny decided to take a sabbatical across Europe, trying to find himself and move on. That's when he started dating a German woman named Clara, who changed everything for him. During a trip to Germany, she took him to Dr. Friedrich Bauer, a renowned urologist with research published at Harvard. And that's when everything changed. Dr. Bauer became world famous after completing his most recent study, a groundbreaking discovery that shocked urologists and could finally let any man give women ultimate pleasure, even if he's 80 years old.

SPEAKER 2

For the first time in medical history, we found a natural cure for any degree of erectile dysfunction, unlike what conventional medicine and the media claim this has nothing to do with low testosterone, nitric oxide, psychological issues, or even adult content consumption.

SPEAKER 1

He exposed the real reason behind erectile dysfunction and how Big pharma has been feeding men lies to keep them hooked on expensive temporary fixes.

SPEAKER 2

Think about it. When you take Viagra, it doesn't care about your testosterone levels. It just makes your penis hard. Why? Because the only way to get an erection is by sending a massive surge of blood to the penis.

SPEAKER 1

That's how Viagra works. It forces blood flow by artificially dilating your clogged veins.

SPEAKER 2

But here's the ugly it's not a real solution. It's a risky shortcut. Men worldwide report terrifying side effects. Dizziness, hearing loss, high blood pressure, heart complications, and worst of all, Viagra stops working over time.

SPEAKER 1

But Johnny discovered something better. A completely natural solution that delivers the same rock hard results without pills, injections or dangerous side effects. And in just a second, I'm going to reveal exactly how it works.

SPEAKER 2

For decades, we believed cholesterol buildup was the main cause of erectile dysfunction. That was the prevailing theory until my Harvard published research exposed a far more alarming truth. My study revealed that 94% of penile plaques aren't caused by fats at all, but by toxins from plastics. Contaminants that enter our bloodstream through the food we eat every day. When this discovery became public, it sent shockwaves through the medical community. No one suspected that toxins, not cholesterol, were the real culprits behind it. The evidence is undeniable. These toxins have been silently destroying men's health for decades. And I'm not alone in this discovery. Esteemed experts, including Andrew Huberman, Anthony Fauci, Dr. Oz and Rena Malik have recognized the significance of my research.

SPEAKER 5

A German urologist, Dr. Friedrich Bauer, revolutionized erectile dysfunction with his latest study published at Harvard.

SPEAKER 3

This baking soda discovery is what allowed 80 year old patients to have an active sex life again.

SPEAKER 2

Imagine never having to worry about erectile.

SPEAKER 5

Dysfunction and even better, not having to.

SPEAKER 2

Rely on expensive pills or treatments.

SPEAKER 1

I'm one of the most sought after urologists in the US And I can tell you, every patient who walks into my office, I recommend the

baking soda recipe. Now it all makes sense. If toxins are clogging your blood vessels, no testosterone booster, nitric oxide supplement or expensive pill can fix it. It's like a traffic jammed highway. Your blood is the cars and toxin plaques are the blockage. Other solutions, try to force the lanes open. But it's only temporary and comes at a high cost. The only way to restore strong natural erections is by removing these plaques and clearing your penile veins, allowing unrestricted blood flow. Just like when you were 18. After months of intensive study Dr. Bauer made a discovery that will change urology forever. A powerful combination of baking soda and four potent natural ingredients that eliminate 94% of penile plaques in any man. This means that no matter your age, 50, 60, even 80, you can naturally regain the rock hard erections of your youth. But that's not all. This formula doesn't just restore your erections, it supercharges them. Boosts Testosterone levels by 200%, giving you the drive and stamina of a teenager. Increases blood flow by up to 20 times, meaning 20 times harder. Erections adds up to 7 inches to your size when hard. Let me explain the four powerful ingredients in this form. Formula number one, baking soda. The ultimate detoxifier. When combined with the other ingredients, it eliminates acidity in the bloodstream. As an alkaline substance, it fights inflammation throughout the body, Detoxifying your bloodstream and clearing out 94% of the plaques, blocking blood flow to your dick. Ingredient number two, Pycnogenol. When it enters your body, Pycnogenol acts like a natural Viagra. But instead of side effects, it works by naturally dilating the blood vessels in your dick. This allows an even greater boost in blood flow. It's found in fruits like watermelon and cantaloupe. But scientists figured out how to supercharge it into powerful doses. Ingredient number three, Astaxantina. This promotes deep hydration and tissue expansion. When absorbed, it doesn't just improve skin elasticity and hydration, it directly impacts penile tissue. The secret lies in its ability to absorb and retain massive amounts of water, gaining up to seven inches in length. And the last ingredient number four, Boswellia serrata. A unique type of collagen that doesn't just support tissue

health, it also boosts testosterone, the ultimate hormone for male sexual health. With high testosterone levels, you're not just hornier, you're harder, stronger, and capable of going all night.

SPEAKER 4

For the first time in history, science has uncovered a 100% natural solution that eliminates the root cause of ED without pills, injections, or side effects.

SPEAKER 1

Now you have the chance to experience it firsthand. But pay close attention. This only works when used in the exact right amounts and prepared in a very specific way. In just a second, I'm going to show you exactly how you can do this baking soda trick at home and how to get all of these ingredients for free.

SPEAKER 3

So.

SPEAKER 1

So keep watching and let's get to the bottom of this. When Johnny discovered this, his comeback to the porn industry was unstoppable. Everyone who knew about his struggles was dying to know how he managed to turn things around. And once word got out, this baking soda trick spread like wildfire. Quickly becoming a must have secret among top performers, billionaires and Hollywood celebrities.

SPEAKER 6

At 76, it's normal to feel that lack of energy in the bedroom. But man, I never expected this baking soda recipe to make me feel like I'm 20 again.

SPEAKER 2

I was one of the last to.

SPEAKER 1

Try it because I thought it was all nonsense.

SPEAKER 2

Everyone in Hollywood was talk about it.

SPEAKER 1

And I gotta say, it's truly amazing.

SPEAKER 2

What this baking soda does for your vitality.

SPEAKER 7

Since the actors started using the baking soda trick, I've never felt as much pleasure as I do now. And every woman who's been with a man like this says the same thing.

SPEAKER 6

Without any pills, I now get erections lasting two hours. And I even gained four inches in just a few weeks. I've never seen anything like this baking soda recipe.

SPEAKER 1

Today, I don't know a single actor in the industry who isn't using it. But here's a best part. After this discovery exploded in the adult industry, Dr. Friedrich Bauer partnered with a US based lab to make this breakthrough available to every man who needs it. They named it Vivalis. Every selected part of Vivalis is designed to remove 94% of the plaque formed by toxins in the veins of your dick, increasing blood flow by 20 times and giving you rock solid erections lasting at least 50 minutes, all naturally. Oh, and it doesn't stop there. Vivalis can increase your length by up to 7 inches permanently. And as if that wasn't enough, it naturally boosts your testosterone levels. That means more strength, muscle mass, fat loss and energy to

spare. You'll last longer in bed and shoot massive loads your woman will love. Swallowing every drop of Vivalis is proudly made in the US in an FDA and GMP certified facility under the strictest and most sterile conditions at Blue Vital Labs, one of the biggest labs in the country. Each capsule is packed with clinically proven doses of the four powerhouse ingredients you've already seen. Every batch is tested by a third party lab to guarantee purity and potency. And because it's made with 100% natural ingredients, Vivalis is completely safe. No side effects, no crap, no GMOs, no shady stimulants, no toxins, and absolutely no risk of dependence. The moment you start taking Vivalis, you'll have a thick, firm and powerful cock ready to go at your command, making your woman worship you and crave sex every single day. And with that, you'll never have to worry about divorce or cheating again because you'll be the only man capable of giving her the mind blowing pleasure she needs. Throw those little blue pills in the trash because you'll never need them again. After years of the industry, I had the best sex of my life with guys who were taking Vivalas. And it's not just me saying this.

SPEAKER 7

It's insane what's happened to the actors since they started taking Vivalis. The pleasure they're giving us while slamming those rock hard cocks inside us is unreal. There isn't a single scene I shoot now that doesn't leave me squirting all over from pure ecstasy.

SPEAKER 8

With all due respect, I'm the most watched porn actress right now. And even though I've left the industry, I heard about what the guys were doing when Vivalas took over. Recently I did everything I could to get the formula and give it to my husband. And let me tell you, this stuff has the power to turn any man into a wild alpha male. I'm completely addicted to sex again and can't go a single night without begging my husband to fuck me senseless and give me multiple orgasms.

SPEAKER 1

Look, so far more than 67,000 people have tested Vivalis and said this was the best investment of my life.

SPEAKER 3

It's about gaining confidence, self esteem and feeling like a virile man. That's what the Vivalis gave me. It couldn't be better. Getting my energy back, feeling alive and seeing my wife happy. What more could I ask for? The talk of Hollywood right now is one thing. Who's tried Vivalis?

SPEAKER 1

My husband is older than me and since he started taking Vivalis, our nights.

SPEAKER 7

Have been so much better.

SPEAKER 5

A lot of athletes have been talking about Vivalis inside the NFL. So I decided to try it. And I got to say, this shit's for real.

SPEAKER 2

Getting out of the prison that Ed.

SPEAKER 4

Put me in was such a relief that Vivalas brought back along with confidence and joy in my life.

SPEAKER 3

Not feeling ashamed or scared to undress in front of a woman was priceless.

SPEAKER 2

Vivalis made me able to to pleasure.

SPEAKER 4

Any woman anytime I want. Seeing women scream, having orgasms while shouting my name, it's the best feeling in the world.

SPEAKER 2

And on top of that, Vivalis made me gain 4 inches in length every time I take off my underwear. I feel proud.

SPEAKER 1

Now pay attention because I'm about to tell you how to get three months of Vivalis for free. This isn't just the most powerful, game changing solution for rock hard, long lasting erections. It's also so effective and affordable that the lab constantly runs out of stock. And here's why. Most customers go for the six bottle option. First, because once they start using Vivalis, their lives are completely transformed and they can't imagine a day without this erection boosting powerhouse. Second, because Vivalis takes three to four months to produce, the lab refuses to cut corners or sacrifice quality. Which means that once stock runs out, it's gone for months. And that's exactly why demand is sky high and supply is extremely limited. When they run out, some customers are left high and dry. Literally. And guess what happens? Those old erection problems sneak back in. Because, let's be real, years of toxic buildup don't vanish overnight. You've got to take Vivalis consistently and long enough to flush out every last trace of those plaques. That's the only way to fix your ED for good. Stop too early and those toxins will start building up again. Next thing you know, you're back to weak, unreliable erections. Bottom line, if you want to reclaim your manhood permanently, the six month plan is the way to go. It's the only way to fully clear out those toxins and guarantee you'll be rock hard whenever you want for the rest of your life. Each bottle contains 30 capsules. Just take one capsule with a glass of warm water first thing in the morning on an empty stomach. Within a

week, you'll feel more energized, stronger, and ready to take on the day and the night. By the end of the first month, Vivalis's powerful combination of ingredients will work its magic, reigniting your sex life like never before. From that point on, you'll notice your manhood getting stronger by the day. But let me be clear. Patience. Vivalis is everything. Vivalis isn't some shady quick fix like those pills that force an erection, but mess up your health and damage your dick. It's a natural solution that works with your body, not against it. Dr. Friedrich Bauer recommends sticking with Vivalis for at least six months. A total of six bottles. This gives your body the time it needs to detox fully and make those improvements permanent. By then, your member will pump blood like a beast, guaranteeing rock hard, long lasting erections that leave her breathless. Medical tests showed that after six months, not a single man had issues with limpness again. Their erections lasted over 50 minutes on average, and they saw noticeable gains in both length and girth. And the best part? They'll never again disappoint their wives or girlfriends with a flaccid excuse for Manhood, no matter how old they are. Let's be honest, the damage those toxins caused over the years varies for everyone. It depends on your diet, lifestyle and health history. That's why, if you're serious about transforming your sex life for good, the six month course of Vivalis is your safest bet. In six months, you'll clear out every last toxin, heal your penile muscles and secure the benefits of a rejuvenated sex life permanently. After seeing so many doctors recommend it, I was absolutely certain of one thing. Vivalis really works, no matter your age or how bad the situation is. And it only takes one small capsule a day. So I can say this with absolute confidence. This is hands down the best solution for erectile dysfunction. Nobody's ever come close to creating something this revolutionary. Now, I know what you're thinking. How much is this going to cost? Before I reveal the exclusive deal where you'll get it at a ridiculously low price, plus three free months to experience the magic for yourself, I want you to really think about this for a second. What's it worth to you to wake up every morning with rock hard, mind blowing erections? What's it worth to see that look of

satisfaction on your wife's face? The one that says you're all she'll ever need? What's it worth to feel like a real man again? To walk with unshakable confidence, own every room you step into and bring that alpha energy back into your life. But more than that, what's it worth to reignite the fire in your relationship? To have your wife practically begging for you every night? To feel that raw, passionate connection again, Just like when you first met. Think about it now. Because of the time, care and resources it takes to create each bottle of Vivalis, the lab initially priced it at \$500 per bottle. And to be honest, thousands of men who bought it after I recommended it on my Instagram were completely satisfied and kept coming back for more because the results were truly life changing. But only today, you'll get a very special offer. Here's the deal. You won't pay \$500, which is the original price. You won't even pay \$250, which is half of that. You won't even pay \$125, which is already a steal. Today, right here on this video, you'll get 3 months completely free of Vivalis. Here's how it works. You'll get a full 30 day supply of Vivalis for just \$89. And here's the best part. Like I said earlier, the longer you take Vivalis, the better the results. You've already seen that the six month treatment is the ultimate choice. It's the only way to guarantee those permanent rock hard erections that'll have her begging for more. So the lab decided to do something special for you. When you lock in the six month package, you won't just pay less than \$89 per bottle. Oh no, they're slashing it even further. Today you can get six bottles, but only pay for three bottles. You'll get three months absolutely free. Which means you'll pay just \$39 per bottle when you grab the six pack. That's less than \$2 a day. A ridiculous price for the transformation you'll experience. And it doesn't stop there. When you choose the three bottle or six bottle package, they're also offering free shipping. So what are you waiting for? Hit the button below this video right now and grab the six month package. Or whichever option works for you while they still have stock left. Now listen up. Right now, thousands of men are watching this video just like you. And there's no doubt in my mind this special offer is going to sell out fast. These special conditions

are only available right here on this video. You won't find this deal anywhere else. And with hundreds of guys snapping up six bottle packs at once, the lab stock is running low. When they sell out, and they will, it could take three to four months before they can restock. That's why I highly recommend the six bottle option. You'll avoid any frustrating delays and ensure your treatment goes uninterrupted. Now here's the one bottle of Vivalis. Great to get you started on the path to reclaiming your sexual vitality. Three bottles. Perfect to reverse years of damage caused by toxins and bring back erections for wild, mind blowing sex on the regular. But six bottles. That's where the six bottles mean long term protection. It completely clears out toxins, fuels your body and sends a tsunami of blood straight to your boner. Every night you'll wake up rock hard and ready to claim your alpha status like never before. And here's the cherry on top. After six months, you'll see an extra one or two inches of length and girth on your manhood. With six bottles, you'll boost your testosterone levels, feel the energy of a 20 year old, pack on muscle, drop fat and radiate virility. Say goodbye to prostate problems and hello to thicker hair. And most importantly, you'll give your woman the kind of pleasure she deserves. She'll feel your big throbbing tool like never before and she'll be begging for more. That's why the six bottle pack is hands down your best choice. If Vivalis is still in stock, you'll see a button below this video. Click the button now and lock in your six pack or any other package you prefer. When you click, you'll be taken to the payment page on the Labs platform buygoods. It's one of the most prestigious payment platforms in the US. There you can choose your kit. Remember, the six pack is the most recommended and your details are 100% secure, protected by the same encrypted security system as Amazon and ebay. Once you place your order, you'll get an email confirmation and the lab team will get straight to work packing up your shipment. In just five business days or less, your discreet package of Evalis will arrive right at your door with free shipping. When you choose the three or six bottle options, there are no hidden fees, no sneaky auto ship programs, just a one time

payment for your package. And it doesn't stop there. If you're still feeling skeptical or have doubts, I don't blame you. That's why the lab is giving an unconditional 60 day guarantee. If for any reason you're not happy with Vivalis, just email support@go.vivalis.com and they'll refund every single penny you invested. Or just call the phone number on the back of the label if you prefer. When your Vivalis package arrives, rip that box open and start popping those capsules immediately. Watch as your morning wood springs back to life, standing tall and proud to greet you. Feel those rock hard erections return on demand, just like when you were 20 and get ready for all night sex marathons that leave her soaked, shaking and totally satisfied. If that doesn't happen, if you don't feel a massive transformation in the first four weeks, or hell, even if you don't like the damn color of the bottle, you'll get every cent back. Keep the pills and any unopened bottles as a gift, no questions asked. Just email the Lab team within 60 days of purchase and your refund will be processed the same day. That gives you two whole months to test dry Vivalis completely risk free. Sound fair? Good. Now tell me this. When's the last time your doctor offered you a guarantee like that? When has big Pharma ever backed their side effect filled pills with a promise this solid? That's why Vivalis is different. There's zero risk for you. Either you experience massive stiff erections that Leave her begging for more or you get every single dollar back. Simple as that. And trust me, it works. And the best part is you have a 60 day guarantee. So what do you have to lose? Absolutely nothing. If by any chance it doesn't work, you simply get your money back. I did everything in my power to make everything simple and easy for you. I showed you all the scientific evidence behind Vivalis. I showed you how the lives of thousands of men have changed thanks to this compound. And believe me, I really have no connection with this lab. And you, you can research and verify it. Well, I believe there is no one better than yourself to make your own decisions. But remember, if you don't do something for yourself and your marriage, no one else will. If you want to change your life and stop suffering from E D you need to take different actions. You've already realized that living on blue pills and other common solutions doesn't work. So the time has come for something new that is scientifically proven and has already helped thousands of men to regain their erections like they did in their youth. Choose your package of Vivalis now by clicking on the button below. This video still here. Know that the men who achieve great feats and transformations are the ones who have the courage to make a decision when it matters. And to help you make that decision, I'm going to answer the most common questions from customers about Vivalis. Question one. Is Vivalis safe? Vivalis is made of healthy and naturally occurring nutrients with no known side effects. It's produced in a lab certified by the fda, tested for

quality and purity and above all, safety. You can relax as you take Vivalis each morning, happy in the knowledge that the nutrients can only be beneficial for your body. There are no problems with feeling jittery or strange like you might do with other supplements, only pure sexual energy and rock hard erections.

Question 2. I'm 63 years old. I've tried pills, penis pumps, testosterone supplements, but nothing has worked. Does Vivalis work for me too? Look, it doesn't matter what your age is, how long you've suffered with E D or what you've tried to solve it. The truth. Truth is that your E D problem is caused by one very simple factor, the plaque that obstructs blood flow to your penis. When this happens, blood stops flowing to your member, which makes it impossible to have an erection. Well, this is exactly what Vivalis fixes. Vivalis contains a sequence of four ingredients used to detoxify your bloodstream and restore blood flow to your penis, giving you hard, powerful erections whenever you want. That's why Vivalis works for anyone, regardless of age, what they've tried or how long they've suffered.

With ed, this is the only compound that restores your erections definitively. Therefore, Vivalis will work for you. How to take Vivalis? It's very simple. You don't need to plan one hour before sex like ED pills. You just need to take one capsule a day every morning and wait while the ingredients in Vivalis cleanse your body from the damaging toxins you have accumulated over all these years. For how long does it take to see results? Look, it's difficult to say this because each person's body is different, but generally, in the first week, you start to feel more energy, libido and mental clarity. Then between the second and third week weeks, you start to notice firm erections appearing spontaneously. And between the third and fourth weeks, you can start having frequent sex with your wife again, having long lasting hard erections. Now, the best results come with the those who guarantee the three and six month packages. This is because the body has more time to process and ingest the nutrients from Bivalis, giving you thicker, firmer, bigger erections and the security that you'll never fail when you need it. Therefore, we seriously recommend that you take advantage of the

three month and six month packages. What if it doesn't work for me? Well, I understand that each person's body is different and what may work for some may not work for others. That's why they made a point of adding a 60 day ironclad guarantee where if you don't notice firmer, longer lasting erections you get every penny of your money back immediately so you literally have no risk and if it doesn't work you'll get your full refund in a few minutes. Question 6 I liked it. I want to get started. How do I do it? Excellent. This will be the best decision of your life.
