

UVIC SOCIETY FOR STUDENTS WITH A DISABILITY (SSD) FOOD SECURITY PROGRAM

Spring 2024

Intention

The intention of this program is to reduce financial barriers for UVic students with disabilities. This program began due to COVID-19 pandemic-related social distancing and/or self-quarantine precautions, though is now serving to increase food security and access to food for disabled students at UVic. Food security is a main issue for disabled students at UVic, and this is supported by SSD community surveys conducted in 2024.

Eligibility

This program is only applicable to members of the SSD. This includes students at UVic who:

- a) self-identify as having one or more disabilities, and
- b) are members in good standing of either the UVSS or the GSS.

This does not include associate members of the SSD. Please note there are two options for participating in this food program, and any eligible individual may only apply in one option per semester. Find details below for application deadlines and specifications. SSD Council members are eligible for this program, but their applications will not be considered until all non-council member applications received on or prior to the specified deadlines have been assessed. SSD Council members will only have access to this program if there are adequate funds left over in the budget for this program after all non-council members' applications have been processed.

The scope of this program offers two options.
