--- TERMS OF SERVICE ---

- Please [submit a form](#) to request a commission!
- You must be 18 years of age to commission me.
- I will draw humans, furies, robots, monsters, etc.! Depending on the level of detail, some characters and elements may cost more than listed in the price guide (ex. centaurs, mecha, detailed wings, etc.).
- Some adult content may be accepted, feel free to inquire about your idea/character(s).
- Payment is due up-front within 3 days of invoice date. Once cleared, you will be added to the queue.
- I will email a sketch for review and will finish the art once feedback is received. The first sketch revision is free of charge! Further revisions and any added details may incur an additional charge.
- I cannot refund work which has been completed to the best of my ability.
- When filling out the form, please include clear references and description - if you would like exact colors used, please provide a *flat color ref*. I shade with color, so your character may appear different if you have requested shaded art.
- Art is for use by the commissioner and artist only and may be re-posted by the commissioner with a link to the original art. Artist reserves the right to post and use art on portfolio and social media unless arranged otherwise prior to commissioning.
- You will receive your image as a PNG in RGB format at the full resolution it was drawn (typically 3000 pixels in the largest dimension, depending on the layout of the art). CMYK art and alternative sizes and formats may be requested up-front before art begins. Once art is approved, I cannot make additional revisions weeks or months down the road, and I do not keep/send working files, thanks for understanding!
- By commissioning me, you have agreed to these terms. Thank you!
