Analysis Scoping Doc

What is the purpose of an Analysis Scoping Doc?

By filling out this doc, we can:

- Improve the effectiveness of the data
- Ensure analysts are working on the highest priority needs
- Ensure analyses do not balloon in scope
- Reduce back and forth on analyses

Want to learn more about Faire's hypothesis-driven analysis? Read [the article](#).

Context

- *How does this analysis fit into what the team is working on?*
- *What are the motivations for this analysis?*
- *What do we already know?*
- *What type of analysis is it?*
- *When is this information needed by?*

Hypotheses

- *What are the key hypotheses the team is trying to validate?*

Impact

- *How will the team use this data to make decisions?*
- *What will next steps be based on this analysis?*

Analysis Plan

- *What are the questions we need to answer to validate these hypotheses?*
- *What data will we use to investigate these hypotheses and answer these questions?*
