

Directions:

1. First, put students in pairs. In the perfect world, it would be a heterogeneous pairing. Students work independently to cut out their words and alphabetize them on their own. The cutting should take about five minutes and the alphabetizing should take about 10 minutes.
2. The second step is to have the pair work together to alphabetize both lists together.
3. Finally, the teacher confirms the two lists are combined together in alphabetical order together.

Answers:

1. Basin
2. Border
3. Coast
4. Compass
5. Coordinates
6. Degrees
7. Delta
8. Desert
9. Direction
10. Dune
11. East
12. Equator
13. Glacier
14. Globe
15. Hemisphere
16. Island
17. Latitude
18. Longitude
19. Map
20. North
21. Northeast
22. Northwest
23. Parallel
24. Peninsula
25. Volcano

Partner 1

basin	compass	coordinates
degrees	border	delta
desert	direction	coast
dune	east	equator
globe		

Partner 2

island	map	northwest
latitude	north	hemisphere
longitude	northeast	glacier
parallel	peninsula	volcano
