

The Classic Debrief the Day

Provided by: [Zack McGill](#)

1. Were conditions what we expected?
2. What is going to happen to avalanche danger overnight? What should we be concerned about tomorrow?
3. Did we make good decisions today? Or did we just get lucky?
4. Where were we most at risk?
5. Knowing what we know now, how could we have improved our plan for the day? Is there anything you would have done differently?
6. Submit an observation to NWAC?
