

In like with you

Generated by AI (Chat GPT) + personal changings

ChatGPT prompt: This is a song about feeling close to a loved one faded away as if that person was still with us. It's a bit like his life after death on the side of the world of the living. How his spirit continues to give life despite his physical absence. Thought of this absent loved one from time to time, continue to keep the memory alive with small daily gestures that can guide us, review photos, pass on their heritage, feel their spirit with signs in life that bring luck and bring smiles and nostalgia.

Verse 1:

I feel your presence, though you're not here
In memories, you're always there
I see you in the little things every day
Even though you've gone away

Pre-Chorus:

I light a candle, say a prayer
For you, my love, to know I care
I keep your memory, close to my heart
Cause you're with me, even though we're apart

Chorus:

In like with you, oh, oh, oh
Feels like you're here, don't you know
In like with you, oh, oh, oh
You live on, in my heart and soul

Verse 2:

Your love lives on, in every thought
At every step, and every path
I see you in the colors of the sky
And feel you in the wind

Bridge:

My tears, a mix of sadness and delight
A sign of your love, in every sight
I hear your whispers in the silence of the night
And feel your embrace, in the morning light

Outro:

You're gone but not forgotten.
