

SL: Ramy, check this out. It may help

Hey Ramy!

I found your channel while searching for iPhone 14 unboxing videos.

I saw your Instagram story highlight on your sub count. Im glad to see how much you have grown. An audience always enjoys a consistent Youtuber such as you 🔥

I noticed that your website's homepage could improve to give people all the information they need about your products and how they are helpful to them.

This can help increase the probability of someone purchasing a product off your website when they click on it.

I would love to share more details with you.

Let me know if you are interested with a quick reply to this email.
