

Our Core Canada Study Services

As one of the **study in Canada consultants in Mumbai**, ARK Education offers structured, transparent services designed around student needs—not sales targets.

1. Free Personalised Counselling (Primary Service)

Every student begins with **free, one-to-one counselling**. This session focuses on:

- Academic background and career goals
- Budget planning
- Course and country suitability
- Canada-specific pathway options

Counselling is conducted with students and parents, ensuring clarity and alignment from the start.

2. Course & University Shortlisting

Choosing the right program is critical for academic success and visa strength. We shortlist courses based on:

- Academic eligibility
- Career outcomes
- Institutional credibility
- Budget considerations

We work with **recognised Canadian colleges and universities**, helping students avoid unsuitable or misaligned options.

3. College Pathways vs Universities in Canada

Canada offers multiple education pathways. We help students understand:

- Differences between colleges and universities
- Diploma-to-degree pathways
- Career-focused vs research-oriented programs

This clarity helps students choose options that suit both their **academic profile and long-term plans**.

4. Scholarship Guidance

While scholarships are competitive, we provide:

- Eligibility assessment

- Application timelines
- Guidance on documentation

This ensures students apply realistically and on time, without false expectations.

5. SOP & Documentation Support

A strong application requires clarity, consistency, and accuracy. Our team assists with:

- Statement of Purpose guidance
- Academic and financial documentation
- Institution-specific requirements

The goal is **strong application support to maximise admission chances**, without misleading claims.

Visa Guidance: SDS & Non-SDS Applications

Canada offers both **SDS (Student Direct Stream)** and **Non-SDS** visa routes. Each has specific requirements related to finances, academics, and documentation.

At ARK Education, we:

- Evaluate profile suitability for SDS or Non-SDS
- Guide students on documentation preparation
- Ensure clarity on financial requirements

Our approach remains **optimistic but cautious**, focusing on realistic preparation rather than assumptions.

Education Loans & Financial Planning Support

Financial clarity is essential for Canadian education planning. We guide students and families on:

- Education loan options
- Funding structures
- Budget planning for tuition and living costs

This ensures parents feel confident and informed throughout the process.

IELTS Support – An Added Advantage

ARK Education also offers **IELTS support as an added service**, not a pressure point.

Students benefit from:

- Free IELTS diagnostic assessment
- Online and offline IELTS coaching options
- Targeted preparation aligned with Canada requirements

This integrated support helps strengthen overall application readiness.

Intake Planning for Canada

Canadian institutions typically offer:

- January intake
- May intake
- September intake

We help students select the most suitable intake based on:

- Academic readiness
 - Visa timelines
 - Course availability
-

Why Parents Trust ARK Education

Families choose ARK Education because we offer:

- Honest counselling
- No false promises or guarantees
- Structured, process-driven guidance
- Clear communication with students and parents

Our focus is always on **long-term student success**, not short-term admissions.
