

The trainer failed trying to get help from his pokemon, he and his friends thought they could get his attention from the chair, a bad idea they realized after the lucario didnt saw them and proceeded to sit down.

"i wonder where master and his friend go? "

With a couple of minutes of squirming the big luu started to get horny, wondering what was causing, he looked down, the trainer believed that the lucario had finally seen them, not only did he saw them, but they were so tiny that the pokemon didnt recognize them and though they were just bugs.

With a secret crush on his trainer and a taste of feeling dominant, the cario started to pleasure himself with the shrunken people, after a minutes of terror and joy, the blue canine aimed his dick to the chair, only to blast a huge, hot, thick, load of "cream" on the tinies

" \*pant pant\* that was refreshing, i should probably clean all this mess before master come back"
