

Welcome Week Activities for Students

As teachers engage in professional learning, students will have access to differentiated, standards-based activities that build skills for online learning, develop social emotional skills, engage in content standards and provide an opportunity for voice and choice. These stand alone, student-centered activities will be distributed by teachers through their [online platforms](#). During morning meetings, teachers can celebrate learning by allowing students to share experiences and artifacts from these activities.

Early learners through grade 5 will have access to pre-populated Learning Menus that guide students through required activities in Math, ELA/ELD, and SEL (blue band). Upon completion of the required assignments, students will choose an additional two activities per day from the VAPA, Technology, and PE choices (yellow band).

See Learning Menu sample below.

Day 1 August 31st

Complete each activity listed in BLUE below

<p>Classroom Community/SEL</p> <p>Myself and My Digital Learning</p> <p>CLICK HERE</p>	<p>ELA</p> <p>My Personal Narrative</p> <p>CLICK HERE</p> <p>ELD</p> <p>Understanding Learning</p> <p>CLICK HERE</p>	<p>Math</p> <p>Learning all about Number Talks</p> <p>CLICK HERE</p>
