Workflow for the final exam

Reminder and email verification

Two weeks before the exam, you will receive an email, including the link to a Google Form, to check if your email address is correct and valid. **Please fill in the Google form to indicate you have received the email**.

How to get the exam paper?

Within 10 minutes before the exam, you will receive an email including the exam paper and the link to another Google Form. **Please fill in the Google form to indicate you have received the exam paper**. You may start working on the exam once you finish the Google form.

- Put your code in the ipynb file.
- Remember to copy your output to a distinct Markdown cell.

How to turn in your answers?

Submit your **ipynb file** to **Cyber University > Homework > ML exam**. There are 10 more minutes after the exam for you to upload your answers. **If there is any technical difficulty, please email Jephian** (see email address below) **within 30 minutes after the exam ends**.

Questions

If you have any questions,
- you may find Jephian and the TA on Discord throughout the exam period, or
- you may email Jephian.
