

Permission Slip Information

42nd Michigan Science Olympiad State Tournament – May 4th, 2024 at WMU

Your school district will require your competitors to have permission slips. There is almost certainly a form approved by your school or school board, please use that. You should **bring a signed permission slip for each student** that will be participating that day (this includes alternates who accompany the team). Please take the necessary steps to distribute and collect your team’s permission slips, and make sure you have them before coming to Kalamazoo.

Your school district may require additional information for travel, and it is your responsibility to get approval for your team to travel. We will not ask for that documentation.

Below is a **sample** permission slip with the minimum information that is required by WMU. *Check with your school district for their approved permission slip, and please use that form* after ensuring that it contains at least the information on the sample.

Sample Permission Slip
