

@Usman @Bright thank you for volunteering to lead the local organisation of WLM in Ghana.

STEPS TO GET GOING

- Firstly please [join this mailing list which is dedicated to WLM](#).
- Visit the list of [participating countries](#). I have listed the user group for you. That solves the issue of one slot for project leads/contacts.
- Both you and Bright should go and list your names under the Ghana section [here](#) as the local organisers.

And feel free to add more organisers. That slot allows for more than one person.

Please make sure you indicate that you are organising for the user group.

- Next please read [this page](#) well. Have an understanding of the project. Ask questions if need be.

– Next check out the [page for Ghana's material cultural heritage](#). Some photos are still missing. Those could be the places where you will be visiting to take the photos.

Some of these monuments could have possibly even disappeared or not traceable.

– Read this [report](#) on how 2016 event went.

– Consult Raphael via the mailing list on how you can move forward

– *From there, I have created a [page for Ghana](#) however it's up to you and the team you gather to build the page with information. The page can [look like this](#). OBSOLETE INFO*

New page is available [here](#)

– You can also look at the [grant application page](#) for inspiration.

Team

(Please list your names)

Project lead(s)

Usman

Bright

Additional organisers

Abdul Gaani

Elizabeth Mensah

Suleman Mubarak

Participants
