

Name: _____ Period: _____ **Deadline:** May 15 - Week 19

Quiz #7: Systems of Equations Objective #1 - Solve Linear Systems Retake INSTRUCTIONS

Solve a system of linear equations using multiple methods
(table, graph, equal values, substitution, elimination)

In order to earn a higher score on your quiz (4 max), you must complete the three sections below: Review, Reflect, and Retake. You can do the work on a separate sheet of paper or print this page.

Review

1. What score did you earn on your original quiz?

2. On a separate sheet of paper, redo all the problems you missed and attach it to the original test.

3. To prepare for the retake complete AT LEAST 4 PROBLEMS from the [Systems of Equations Review](#) [video walkthrough linked in notes; [Answers](#)]. If you WANT to study more feel free to complete all 8 problems and/or use any of the following:
 - [Systems Quick Notes](#)
 - [Systems Review Video](#)
 - [Chapter 4 Parent Guide](#)
 - [Khan Academy Review](#)

Reflect

4. Write a few sentences about what you learned or took away from doing the **Review**.

Retake (Wednesdays and Thursdays at Lunchtime)

5. At lunchtime, turn in all the work from the **Review** and **Reflect** section above. Your teacher will then hand you a new quiz for you to retake.
