

Dear Elementary Families,

September 7, 2020

This year Wheaton Elementary; preschool through 6th grade will be utilizing the Seesaw communication tool. Seesaw is a student digital portfolio and communication tool. Teachers and students will be able to post to their journal to show you what they are learning in the classroom everyday. Teachers and the office can send out important announcements for parents/guardians. It is extremely important that you connect to your child's Seesaw journal by Tuesday, September 8th. This is going to be the main platform of communication for elementary students. If you have more than one student in the elementary, you will be able to access each Seesaw account from the app.

Yesterday, September 2nd, your child brought home a Seesaw paper for you to sign up. That was actually the student login and that will be used by your child.

Today, September 3rd, your child brought home a Seesaw paper that is a family invite for Seesaw. This QR code will allow you to have access to your child's Seesaw journal and allow you to communicate with your child's teacher.

You have two ways to connect to your child's Seesaw journal:

1. You can follow the directions and scan the QR Code that your child brought home and you will be automatically connected. The QR code is specific to your child and should not be shared with anyone that you do not want to have access to your child's journal.
2. You may click on the link below to your child's teacher and follow the directions. If you follow the link below, you will be asked to create a login and once that is completed, your child's teacher will have to approve you. We do this for privacy and to be sure only the child's parent/guardian is connected to the Seesaw journal.
