

Joghanson

Hi [name],

I didn't want to take your time, but it's worth saying. I noticed that you can enhance your social presence on Instagram with the help of your newsletter. Applying funnels can help you enhance your newsletter for direct outreaches to the customers. One shot and two targets; higher traffic on the website, and more followers on Instagram, both will increase your sales significantly. If you want to hear more about it, let me know in a reply.

Good luck.
