PURPOSE AND SCOPE

This agreement assists programs and agencies in meeting the challenges of working collaboratively when faced with different interpretations of criteria establishing eligibility for disability services in Ohio. The dilemma is not which set of criteria is correct, it is to establish a framework that supports a unified system and promotes collaboration in providing services to children and families.

This agreement establishes and defines who has the responsibility for which services. Where possible, it is formatted into three columns to clearly delineate these responsibilities. The agreement also guides the economical use of funds by discouraging the duplication of services and by promoting communication and collaboration. It allows Head Start to continue to provide quality services on time for children who are ineligible for special education services under Ohio regulations and who might not otherwise receive services.

Collaboration between Local Education Agencies, Head Start programs, and Early Intervention providers will improve services to young children with disabilities, from birth through age 5, and their families by making the best use of available resources and avoiding duplication of effort.

The purposes of this agreement are to outline roles and responsibilities and to provide guidance for local collaboration between the CACEHR Head Start and Early Head Start Program, GLCAP - Migrant and Seasonal Head Start Program, Erie County Early Intervention service providers, Erie County Public Preschool Programs, to:

1. Guarantee that all eligible children have access to the full range of services under the agreed-upon definition of eligibility contained herein.
2. Assure the involvement of parents and families in all services provided to children, including procedural safeguards.
3. Enhance the array of services and options available to children and families.
4. Facilitate the transition of young children between Early Intervention, Head Start and Early Head Start, and Local Education Agencies.
5. Maximize services through the joint utilization of services.
6. Assure placement of eligible children in the least restrictive environment and provision of appropriate services.

LOCAL COLLABORATIVE AGREEMENTS

A written local agreement is to be developed about collaborative planning, management, and service delivery. It is a vehicle for establishing a foundation for functional interaction or programs, services, and supports. It may include contractual arrangements or other specific arrangements mutually agreed upon at the Erie County local level.

Partnerships and Expectations

All programs are required to have a disabilities service plan, which must include a commitment to specific efforts to develop interagency agreements with Erie County Local Education Agencies (LEAs) and other agencies within the service area. This must include city, local, county, and exempted village school districts that offer an early childhood special education program for children eligible for enrollment in the service area. It may also include county boards of developmental disabilities, departments of health, and other service providers.

CACEHR Head Start and Early Head Start Program, GLCAP - Migrant and Seasonal Head Start Program, Local Education Agencies within Erie County, Erie County Early Intervention providers develop agreements within the context of this interagency agreement to define relationships and specific areas of collaboration most appropriate to the Erie County community. Numerous methods of collaboration and cooperation will be employed to provide services for eligible young children. This agreement will become part of countywide planning efforts and open increased avenues for collaboration and cooperation.

Confidentiality

Each participant agrees to abide by the Health Information Portability Accountability Act and the Family Education Rights and Privacy Act. And the IDEA as applicable.

Resource Sharing and Joint Efforts

This local agreement will be specific concerning accountability of services provided, funding, personnel, and other resources. It will include the assurance of maintenance of effort required for Head Start. Agencies will collaborate in the identification and evaluation of infants, toddlers, and preschoolers suspected of having disabilities. Provision of services should be appropriate for the child and family, and meet the requirements for the least restrictive environment. Fiscal and service delivery responsibilities will be identified through mutual agreement and assessment of resources available.

Purpose

The purpose of the Agreement is to establish working procedures between Local Education Agencies in Erie County and Erie County Early Intervention/Board of Developmental Disabilities, GLCAP - Migrant and Seasonal Head Start Program and

CACEHR Head Start and Early Head Start Program in the provision of services for children birth through 5 eligible for special education in compliance with Federal and State laws and regulations.

Local Systems

The term “Head Start” will refer to existing programs within the state and include federal and state-funded programs as well as the GLCAP - Migrant and Seasonal Head Start Program and CACEHR Head Start and Early Head Start Program. The current grantee for Migrant Head Start services within Ohio is GLCAP - Migrant and Seasonal Head Start Program. Any reference herein regarding Head Start migrant programming and/or services will apply to this grantee or any other grantee/delegates charged with providing Head Start or Early Head Start services to migrant families.

The Ohio Department of Developmental Disabilities, Ohio Early Intervention (EI) is a statewide system that provides coordinated services to parents of infants and toddlers with disabilities or delays in Ohio. Early Intervention is funded through federal and state dollars and is administered locally by Erie County Family and Children First Council. Early Intervention services support parents of infants and toddlers with disabilities. EI is grounded in the philosophy that young children learn best from familiar people in familiar settings. To develop a coordinated service delivery plan, the Erie County EI team works with families in their homes or places where families and little ones spend time.

The term local educational agency (LEA) means a public board of education, or other public authority legally constituted by a State for either administrative control or direction or, to perform a service function for, public elementary schools or secondary schools in a city, county, township, school district, or other political subdivision of a State, or for such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary schools or secondary 20 USC**1402(19) (A). Contact your local Board of Education for further information.

Minimum Components Required in the Local Agreement

By referencing all agency rules and policies, the written local collaborative agreement will address the following for children from birth through the entrance to kindergarten. It is strongly recommended that this local agreement be organized around these components:

- Outreach/ Referral Process
- Evaluation, Assessment, and Eligibility
- IFSP/IEP Development
- Child Outcome Ratings

- Service Delivery
- IFSP/IEP Reviews
- Transition Planning and Process
- Training and Technical Assistance
- Dispute Resolution

County-Wide Planning Regarding Services

It is recommended that the interagency agreement be reviewed and updated during countywide planning regarding early childhood service delivery. In the case of Migrant Head Start grantees and delegates, correlation and collaboration with existing Ohio Head Start Programs is encouraged. The inclusion of Migrant Head Start components within an existing county plan would eliminate the need for duplication of effort in obtaining signatures and support.

It is mutually beneficial for evaluations and implementation of the IFSP and IEP to be representative of shared resources and joint efforts of the Local Education Agency, Early Intervention, and Head Start, per *Member Agreement for Information Sharing*, developed by Family & Children First Council.

Procedures for sharing of information are encouraged for the following reasons:

1. To provide optimum benefit to the child
2. To avoid duplication of effort

All parties will work together to determine a system for transitioning children in and out of Early Intervention and Preschool, while assuring placement of eligible children in the least restrictive environment and delivery of appropriate services.

TABLE NOTE: * with parental consent

Service Delivery Component	Key Points	Early Intervention (EI) (IDEA Part C)	Local Educational Agency (LEA) (IDEA Part B Section 619 — Preschool)	Head Start (HS) (Inclusive of Early Head Start, Head Start, Migrant Head Start, and American Indian and Alaska Native Head Start)
Outreach/Referral Process	All programs have requirements to identify children with disabilities, including timelines once referred. Personnel should understand the eligibility criteria for different agencies for appropriate referrals. States and local programs should develop relationships with the contact people who work on eligibility across programs. Consider responsibilities based on which program first comes in contact with the family and child.	<p>Erie County Early Intervention Service (EIS) providers will accept CACEHR and GLCAP screening information as part of planning for a child's evaluation and assessment process.</p> <p>EIS providers have 45 days from the date of program referral to determine eligibility and hold an initial meeting to develop the individualized family service plan (IFSP).</p> <p>IFSPs are only developed for children who are deemed eligible for EI services based on evaluation and/or assessment.</p>	<p>LEAs accept Erie County EI, CACEHR, and GLCAP screening information and do not duplicate or repeat to determine the need for evaluation to determine eligibility.</p> <p>LEAs have 60 days from the time parental consent is received (or, if the State establishes a timeframe within which the evaluation must be conducted, within that timeframe) to complete the initial evaluation.</p>	<p>CACEHR and GLCAP screening information, child outcomes, and teacher observations are shared with Erie County EI programs and LEAs when making referrals.</p> <p>HS and MSHS programs must complete a developmental, behavioral, and sensory screening with all children and identify children who may need further evaluation within 45 days of enrollment.</p> <p>https://eclkc.ohs.acf.hhs.gov/policy/45-cfr-chap-xiii/1302-33-child-screenings-assessments</p>
Evaluation, Assessment, and Eligibility	EI programs and LEAs have required timelines for conducting evaluations to determine eligibility. Information from other	Erie County EI will utilize information (if/when it is received from CACEHR and GLCAP during the assessment process to develop functional IFSP outcomes.	LEAs observe children in CACEHR and GLCAP classrooms during the evaluation process to develop functional individualized education programs (IEPs).	<p>During assessment periods, CACEHR and GLCAP will share information with Erie County EI programs/LEAs.</p> <p>HS and MSHS programs must complete or obtain a current developmental and behavior screening to identify concerns regarding a child's</p>

	adults who know the child and family are valuable in that process.	EIS providers have 45 days from the date of program referral to determine eligibility and hold the initial IFSP meeting.	LEAs must conduct a meeting to develop an IEP for a child within 30 days of a determination that the child needs special education and related services; and, as soon as possible following the development of the IEP, special education, and related services must be made available to the child per the IEP.	developmental and social-emotional skills within 45 calendar days of when the child first attends the program or, for the home-based program option, receives a home visit. https://eclkc.ohs.acf.hhs.gov/policy/45-cfr-chap-xiii/1302-33-child-screenings-assessments
IFSP/IEP Development	EI programs, LEAs, and HS have requirements for individualized service plans. Consider meeting with families to simultaneously develop the program-specific plans to ensure the process is family-friendly and supports coordinated service delivery	Erie County EI will consider CACEHR and GLCAP family partnership agreements and goals when developing IFSPs. HS providers are invited to IFSP meetings with parent permission. The IFSP must include a description of the child's present levels of development and information about the family's resources, priorities, and concerns.	LEA IEP Teams consider the child's functioning in CACEHR and GLCAP classrooms when developing goals and when making placement decisions. The IEP must include a description of the child's present levels of academic achievement and functional performance (including how the disability affects the child's participation in appropriate activities) and measurable annual goals (including academic and functional goals) designed to meet the child's goals.	CACEHR and GLCAP will contribute to IFSP/IEP development by sharing a child's individualization plan and information about the child's knowledge, skills, and behaviors (Assessment Report). HS and MSHS programs must participate in the development of the IFSP or IEP if requested by the child's parents, and the implementation of the IFSP or IEP https://eclkc.ohs.acf.hhs.gov/policy/45-cfr-chap-xiii/1302-63-coordination-collaborationlocal-agency-responsibleimplementing-idea
Child Outcome Ratings	EIS providers and LEAs use data from early childhood outcomes to measure results and	Erie County IFSP Teams use information from all sources, including HS observations and	LEA IEP Teams use information from all sources, including HS observations and reports, to determine child outcome ratings.	CACEHR and GLCAP will contribute information and participate in child outcomes rating discussions using the child's assessment reports, child

	improve systems and services.	reports, (if they are obtained) to determine child outcome ratings.		observations, and child individualization forms.
Service Delivery	<p>EI, special education, and related services support the child's meaningful participation in everyday routines and activities in home, classroom, and community settings.</p> <p>IFSP and IEP Teams have flexibility when identifying services, including the frequency and duration, based on individual child (and family) needs and resources. HS has service frequency requirements.</p>	<p>Erie County IFSP teams consider the frequency and duration of EI services based on the child's developmental needs, the family's need for support, and family availability.</p> <p>Planning joint visits with CACEHR and GLCAP will be coordinated when appropriate.</p> <p>IFSP services must be provided in the child's natural environments to the maximum extent appropriate.</p>	<p>LEA IEP services are planned with CACEHR?GLCAP HS teachers and provided within HS classroom routines and activities.</p> <p>IEP services must be provided in the least restrictive environment to the maximum extent appropriate.</p>	<p>CACEHR and GLCAP will support families in implementing IFSP strategies during HS home visits, parent-teacher conferences, and family engagement.</p> <p>HS teachers integrate IFSP/IEP strategies throughout classroom routines and activities with the assistance of Itinerants and EI staff.</p> <p>HS and MSHS programs must ensure that enrolled children with disabilities, including but not limited to those who are eligible for services under IDEA, and their families receive all applicable program services delivered in the least restrictive possible environment and that they fully participate in all program activities.</p> <p>https://eclkc.ohs.acf.hhs.gov/policy/45-cfr-chap-xiii/1302-60-full-participation-program-services-activities</p>
IFSP/IEP Reviews	All programs have requirements for reviewing children's individualized plans. Coordinating reviews and sharing information* supports robust and	Erie County EI IFSP Teams may invite CACEHR and GLCAP (with parental consent) to IFSP meetings and may align IFSPs to HS family partnership	LEA IEP meetings include CACEHR and GLCAP as well as Erie County EI providers and use information in initial and annual evaluations to determine goals and services from all parties.	<p>CACEHR and GLCAP will actively participate in IFSP/IEP meetings, including aligning HS child program plans with the same/similar goals.</p> <p>HS and MSHS programs must participate in meetings with the local agency responsible for implementing</p>

	functional plans and service delivery.	<p>agreements, when appropriate.</p> <p>IFSPs must be reviewed every 6 months and annually.</p>	IEPs must be reviewed at least annually.	<p>IDEA to develop or review an IEP or IFSP for a child being considered for HS enrollment, a currently enrolled child, or a child transitioning from a program.</p> <p>https://eclkc.ohs.acf.hhs.gov/policy/45-cfr-chap-xiii/1302-63-coordination-collaborationlocal-agency-responsibleimplementing-idea]</p>
Transition Planning and Process	All programs have requirements for reviewing children's individualized plans. Coordinating reviews and sharing information* supports robust and functional plans and service delivery.	<p>Erie County EI IFSP Teams invite CACEHR/GLCAP HS and LEA personnel to transition meetings to provide information about options for parents.</p> <p>Erie County EI provider support visits to different program options.</p> <p>Transition planning meetings (TPC's) must occur 9 months- 90 days before a child's third birthday.</p> <p>For children referred 90-45 calendar days from 3rd birthday, a TPC is NOT required. EI Service Coordinators will notify school districts (via email) of</p>	<p>LEA IEP Teams provide information to families transitioning from Part C to Part B services, including how IEP services might be provided in HS classrooms.</p> <p>LEA personnel must participate in transition planning conferences.</p>	<p>CACEHR EHS will facilitate discussions with Part C families and CACEHR HS programs. GLCAP will facilitate migrant families.</p> <p>CACEHR and GLCAP will attend transition meetings to describe program options, including services for children with disabilities available in HS classrooms.</p> <p>HS programs must work to develop interagency agreements with the local agency responsible for implementing IDEA to improve service delivery to children eligible for services under IDEA, including transition services as children move from services provided under Part C of IDEA to services provided under Part B of IDEA and from preschool to kindergarten.</p> <p>https://eclkc.ohs.acf.hhs.gov/policy/45-cfr-chap-xiii/1302-71-transitions-head-start-kindergarten)</p>

		the late referral and this will serve as an official referral to Part B services.		
Training and Technical Assistance	Joint professional development across programs builds a shared understanding of program requirements, knowledge of integrated child development, and the capacity to implement evidence-based practices with fidelity. It also contributes to raising the early childhood profession and building comprehensive and coordinated early childhood systems.	Erie County EI programs invite CACEHR/GLCAP personnel to trainings, and special workshops and conferences when appropriate.	LEAs invite CACEHR and GLCAP personnel to the coaching meetings, regular training, and special workshops and conferences.	CACEHR and GLCAP programs will invite Erie County EI and LEA personnel to coach meetings, regular training, and special workshops and conferences.
Child Find	All programs will work together to identify children with disabilities from birth through age 21.	Erie County EI will identify children potentially eligible for Early Intervention services through child find efforts, public awareness, and community outreach activities. Staff will refer to the appropriate service(s) with parental permission.	<p>The school district where the parent resides will assume the responsibility for Child Find in their respective areas.</p> <p>Each school district will adopt and implement procedures that ensure all children below twenty-two years of age residing within the district who have a disability, regardless of the severity of their disability, and who need special</p>	<p>CACEHR and GLCAP will:</p> <ul style="list-style-type: none"> ● Disseminate Head Start, Early Intervention, LEA, and other appropriate brochures and flyers at events for families in the community. ● Provide joint educational information sessions with Early Intervention, ECBDD, and LEA

			<p>education and related services are identified, located, and evaluated.</p> <p>Upon receipt of the information of children ages prenatal to age three, the LEA will share resource information with the parent about EI and/or CACEHR Early Head Start.</p>	<p>regarding the Referral and Evaluation process.</p> <ul style="list-style-type: none"> • Distribute recruitment information that offers services to families whose children may have special needs. • Report to EI Central Coordination and LEA of children NOT receiving services and are suspected or at risk. These children may not be enrolled in the Early Head Start Program.
Dispute Resolution		<p>DODD's dispute resolution process can be found here: EI rules 5123-10-01.</p>	<p>Complaints regarding services provided by the LEA must be directed to the LEA.</p> <p>If a local resolution is not forthcoming written concerns will be forwarded to The Ohio Department of Education, Division of Early Childhood Education according to (Operating Standards for Ohio Schools Serving Children with Disabilities).</p>	<p>A Notice of Parent's Rights and Due Process describes the Early Head Start and Head Start complaint process.</p> <p>If there is no resolution, the complaint can be referred to the Ohio Department of Education/Office of Early Learning and School Readiness or to Region V ACYF as both agencies fund and monitor Ohio Head Start programs.</p>

Head Start and Early Head Start

Enrolling birth to 5 years

Mission Statement

**To Promote self sufficiency and improve
the quality of life of those in need.**

CACEHR Head Start and Early Head Start are federally funded programs for children birth to 5 years old. Both programs use a two-generational, comprehensive approach to ensuring children and their caregivers are school-ready regardless of their families' socio-economic status.

Head Start and Early Head Start promote school readiness of children supporting the physical, cognitive, social and emotional development of the child. All children receive health and development screenings, nutritious meals, oral health and mental health support.

Head Start and Early Head Start provide services to families and children in the following areas:

- Continuity of Care
- Disability
- Education/School Readiness
- Family Engagement
- Family Services
- Health/Nutrition
- Mental Health
- Transportation (Limited)

HALF-DAY PROGRAM:

- Children attend a half-day session which is 3-1/2 hours long. Sessions are in the morning or afternoon.
- Classes are four days each week (Monday Thursday) September through May.
- Children attending morning sessions receive a USDA approved breakfast and lunch.
- Children attending afternoon sessions receive a USDA approved lunch and snack.

FULL-DAY PROGRAM:

- Children attend all day (at least 6 hours).
- Classes are five days a week - September through May.
- Children receive a USDA approved breakfast, lunch and snack.
- Parents /Guardians of children enrolled in the full day program need to meet additional criteria.

ECE PROGRAM:

- Provides high quality extended early learning experience for age eligible children to prepare for success in kindergarten.
- Classes are five days a week - September through June.
- 12.5 hours per week.

EARLY HEAD START PROGRAM:

- Provides safe and developmentally enriching care giving to Infants/toddlers age birth to 3 years. To prepare them for continued growth and development.
- Program is five days a week - September through May/1380 annual hours.

ALL CHILDREN:

- Must meet income guidelines.
- Must obtain physical and dental exams upon enrollment.
- Will receive child screenings and assessments.
- Must complete any necessary follow-up based on the screening results.

SERVICES ARE PROVIDED AT NO COST:

CACEHR Head Start and Early Head Start are federally funded by the U.S. Department of Health & Human Services. Programs also receive funds from the Ohio Department of Education and the U.S. Department of Agriculture through the Child and Adult Care Food Program (CACFP).

What should you know about Early Intervention?

Early Intervention is available in every part of the state and to any eligible child, regardless of the family's income.

Because children learn best with familiar people and in familiar places, Early Intervention services are usually provided in the home or a community setting. Virtual options may also be available.

Early Intervention services can be provided side-by-side with other services a family receives in their community.

Anyone can refer a child to Early Intervention, and families can self-refer their child if they have concerns. You do not need to be a doctor or teacher to refer a child. All it takes is a simple phone call or filling out a short form online.

CONCERNED
about your child's
development?

Act early!

Ohio Department of
Developmental Disabilities

Early Intervention is part of the
Help Me Grow system of supports.

In Ohio, the Early Intervention Program
fulfills the federal Individuals with Disabilities
Education Act (IDEA), Part C
(Early Intervention program for Infants and
Toddlers with Disabilities).

The full text of the law is online at
idea.ed.gov/download/statute.html

CONCERNED?
Act early!

Ohio Department of
Developmental Disabilities

What is Early Intervention?

Early Intervention is part of the Help Me Grow system of supports.

Early Intervention supports families with children birth to age three who have developmental delays or disabilities so that they have the best possible start in life. The early years are a critical time, so parents, families, doctors, and others who are concerned about a child's development should refer a child to Early Intervention as early as possible.

In recent years, more than **95 percent** of Ohio parents who accessed Early Intervention for their child reported they were better able to support their child in learning new things and gaining new skills.

How can Early Intervention help your child and family?

Every child is unique.

Early Intervention professionals support your family to identify your child's strengths and needs and address concerns as early as possible.

Research shows that Early Intervention services give a child the best chance to learn and grow. Early support can reduce the need for services later in life.

Early Intervention can address all types of concerns, such as physical development like crawling or walking, speech delays, and social interaction like playing with other children.

How does Early Intervention work?

Parents and families are the center of a child's development. That's why Early Intervention works closely with your family to build on your skills and confidence in supporting your child.

Developmental experts will determine if your child is eligible for services and will support your family in addressing your child's specific developmental, physical, social, and emotional needs.

Early Intervention focuses on building skills with your family in places where your child already spends time, like at home, childcare, and in the community.

If you're concerned that your child may have a delay or disability, it's important to refer them for Early Intervention as soon as possible.
