Learning Goals Agreement

Experiential learning opportunities are designed to primarily benefit UC Santa Cruz students. Use this guide to articulate the specific goals and learning you want to develop at your experiential learning site. We recommend co-creating these goals with your site supervisor and establishing day-to-day activities that will help you reach these learning goals while still supporting the needs of the organization.

1. What would you like to accomplish by participating in this opportunity?
2. What skills and abilities would you like to gain from this experience?
3. How will this experience relate to your academic experience?
4. How will this experience relate to your career goals?
5. How will you evaluate your progress at the opportunity?
