

The prophet said to plant a garden

so that's what we'll

do

For God has given

rich brown soil

**the rain and
sunshine too**

And if we plant the

seeds just right

and tend them carefully

**Before we know,
good things will
grow**

to feed our family

**We'll plant the seeds
to fill our needs**

**then plant a few to
spare**

**And show we love
our neighbors**

**with the harvest
that we share**

**Oh, won't you plant
a garden, too,**

and share the

many joys

A garden brings in

health and love

**to happy girls and
boys!**
