Request Access Application

Part 1: Applicant Information

**Please provide the following details about yourself and all the related researchers (you can add lines if you need):*

Name:	
Affiliation:	
Role/Position:	
Contact information (email):	

Name:	
Affiliation:	
Role/Position:	
Contact information (email):	

Part 2: Dataset Access Application

**Please address the following points in your application:*

1) Describe the purpose of your research and how it aligns with the dataset's focus.
2) Explain how accessing this dataset will contribute to your research objectives.
3) Outline your proposed methodology for analyzing the dataset.
4) Describe any previous experience you have in working with similar sensitive data.
5) Explain how you will ensure the confidentiality and security of the dataset.

6) Indicate the anticipated timeline for your research project.

Part 3: Ethical Review by Your Organization

**Please attach the ethical review by your organization in your application:*

The dataset was produced at Sungkyunkwan University (SKKU) in South Korea, and the research conducted on this dataset at SKKU has been granted exemption from Institutional Review Board (IRB) evaluation by SKKU's IRB (SKKU2022-11-038). This exemption applies to the analysis of pre-existing data that is publicly accessible or involves individuals who cannot be directly identified or linked to identifiable information. Nevertheless, due to the potentially sensitive nature of this data, we require that researchers who receive the data obtain ethical approval from their respective organizations.

Researcher1: ___Name___ (Signature), Researcher2: ___Name___ (Signature)

Researcher3: ___Name___ (Signature) , Researcher4: ___Name___ (Signature)

Researcher5: ___Name___ (Signature) , Researcher6: ___Name___ (Signature)

Date: _____ / ___ / ___ (Year / Month / Date)

For Internal Use Only

Date Received _____ Receipt Control No. _____
