"For Nation's Greater Heights"

1.1.1 Motivate activate participation of faculty and students to extension activities

*More than 90% of the faculty are actively involved in the conduct of the extension activities of the college. However, due to the pandemic, there was a little decline on the number of students involved. Only students that are residing within the city area and campus participated in the different extension activities provided that they have signed a waiver or consent for such.*

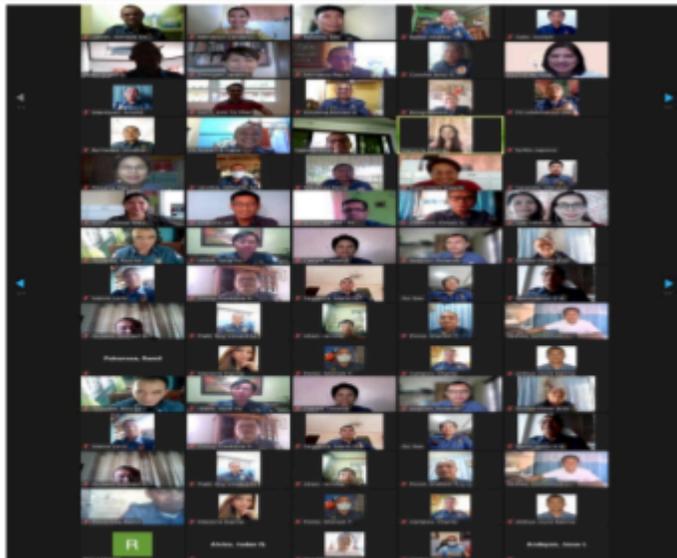

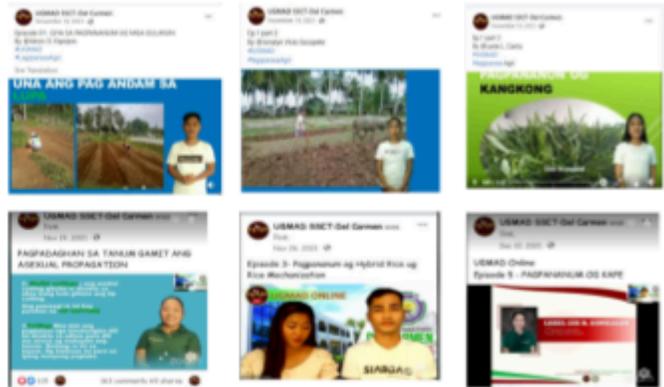

Faculty and students busy preparing the seeds for distribution

BAT program became adaptive in the change of time especially in delivering the knowledge in agriculture and technologies in this challenging time of pandemic to its partner community in the island of Siargao.

With the BAT-4 students, the faculty launched the Extension Online Program called "UGMAD Online". The first episode was aired on the 12th day of November, 2021. The online program consist of ten episodes but unfortunately aired only five episode (5th Episode- December 10, 2021) because Super Typhoon Odette came and devastated the island leaving it with 95% of damage in infrastructure and agriculture.

UGMAD Online have raised the followers of the BAT official Facebook Page: UGMAD-SSCT Del Carmen. As the school is on its recovery phase after the typhoon, BAT program will rise and continue to inspire young people and the community in field of agriculture.

The CAS-ABEL faculty shares triumphant smiles with PNP-RTC CARAGA for a successful five-day extension program.

For five days, the moderators—Miss Marjorie F. Espina and Mr. Dean Mark A. Ogaob, kept the links for the attendance sheets and evaluation forms posted on the chatbox.

"For Nation's Greater Heights"

1.1.2 Institutionally fund feasible extension activity proposals

*All extension projects implemented for the year 2021 are institutionally funded with the approval from the Board of Trustees.*

*There are a total of 57 extension activities that were successfully implemented.*

1.1.3 Recognized faculty/staff/students with exemplary extension services rendered

*Certificates are given to those who actively participated in the extension activities.*

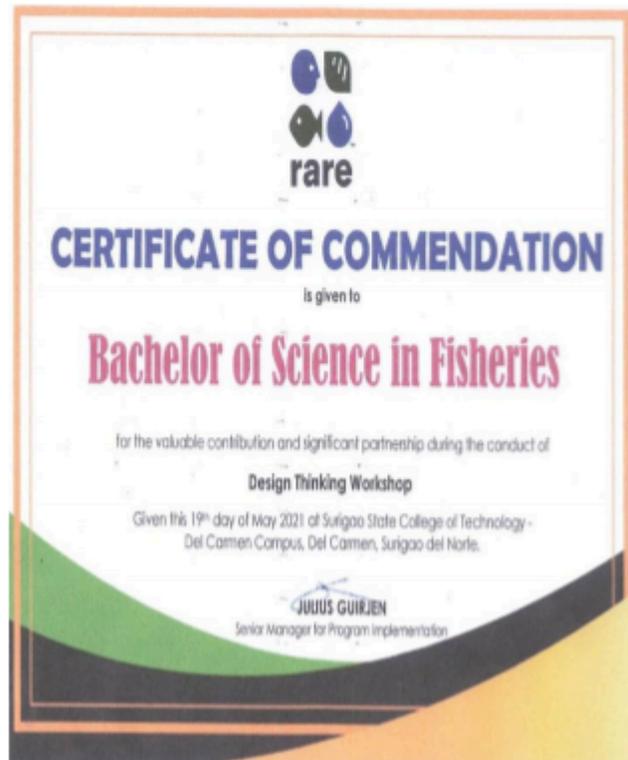

Strategy 1.2 Obtain recognition from reputable institution related to extension programs

1.2.1 strengthen exemplary extension PAPs

Objective 2: Increased number of extension linkages

Strategy 2.1 Active linkage / partnership with other agencies whether local, national, or international
