

Odyssey Community School

Check In- Check Out (CICO)

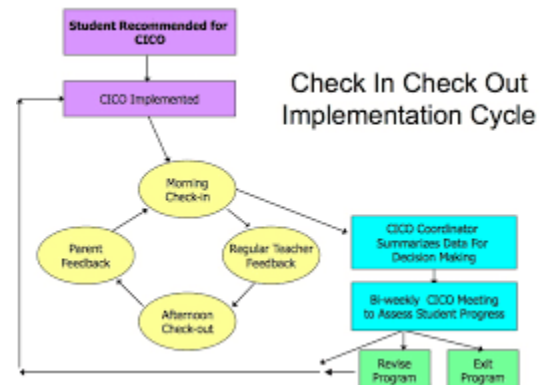

Dear Parents or Guardians:

As part of our Positive Behavior Supports program, we are implementing a tier two leveled intervention for your child called “Check In- Check Out.” The purpose of the Check In- Check Out is to avoid recurring incidents and discipline referral forms. All students are provided with universal (Tier one) supports, and those in need of secondary level (Tier two) supports are provided with behavior support strategies in addition to the universal supports. The Check In- Check Out program is not a form of punishment for students, but is viewed as a positive intervention to help students boost self awareness of their school day.

Students using the Check In- Check Out program are given a daily chart that displays expectations they are striving to meet, as well as a daily goal. Throughout their school day, teachers will give students frequent feedback on their goals. The expectations are connected to Odyssey’s school rules (Be Safe, Be Respectful, Be Responsible, and Be Honest). Basic features of the Check In- Check Out program include:

- A positive Check In with an adult in the morning to set students up for a successful school day.
- Regular feedback and reinforcement from teachers.
- Positive family component (home check in)
- Daily performance data used to evaluate progress (every 6 weeks).
- Goal-setting is a key component of this procedure.
