

Tonight the school board, superintendent, and art teachers, are pleased to acknowledge the artists who have their artwork displayed in the district office. Artists, could you please form a line in the aisle to my right?

The St. Michael-Albertville School District fully embraces the arts and recognizes that a vibrant and robust arts education program is critical to a complete and balanced education for all students. Each art teacher in the district was asked to choose one piece of artwork to display in the district office for the months of February-May. Tonight we celebrate the efforts of our schools and teachers to support academic and artistic excellence in our students.

We also want to congratulate the parents of our artists. Thank you for encouraging their talents. Students, please come forward to receive your certificate when I call your name.
