=====WIKI ARTICLE BELOW=====

==Now in Ohio==

After the [[Season 14]] feedback game that switched her to the [[Ohio Worms]] in exchange for [[NaN]], Rosa had found herself preoccupied with the Cuyahoga River Fires. After the season, she formally requested a departmental transfer to combat the fires. Since then, Rosa has been requesting her old Firehouse to come down during the off-seasons for assistance.

Rosa also had collaborated with Museum staff to outline and enforce more efficient safety protocols as soon as she could. After her formal transfer, Rosa found and rented a place in Wapakoneta.

She became close to [[Cantus Hojo]] and often visited Hojo's gardens to meet the critter-like plants Hojo grows. Along with Hojo, Rosa became friends with [[Farrell Seagull]], allowing Seagull to drag her on adventures to explore Ohio's mysteries.

Although the feedback was unexpected and shocking, Rosa had grown to begrudgingly love Ohio after her new teammates shared their favorite places with her. However, she would not admit this to anybody who asked.

Her jersey number remained 331.
