# **CLASS CHANGES**

Class changes between first and second semester will only be allowed for semester classes, or to meet graduation requirements. Once a semester has begun, class changes will only be allowed for **three** days. To make changes to a schedule the student will need to sign the form and get the necessary paperwork in the office. After completion of the class transfer paperwork the student will meet with Mr. Lovercamp and Dr. Loveland. Please Note: Not all transfers will be allowed.

# JUNIOR HIGH COURSE STUDIES

Sixth, Seventh and eighth grade students are part of the middle school grades and are assigned to the high school principal. Middle school is a period of transition from high school to high school. Students are required to take and successfully complete the following courses:

```
6th Grade Courses—English, Math, Science, Social Studies, Computers, PE, Music
7th Grade Courses—English, Math, Science, Social Studies, Agriculture, Music, PE, Careers, Art, FACS
8th Grade Courses—English, Math, Science, Social Studies, Agriculture, Music, PE, Intro to Business, Careers, Art, FACS
```

Band is an exploratory course for interested students and is not a requirement for middle school students.

# HIGH SCHOOL GRADE LEVEL CLASSIFICATION

Students should expect to graduate from high school in four years. In their first year of high school students will be classified as freshmen. As a student earns credits for passing classes the student moves up in classification.

All parents and students should understand that not all students will automatically get a diploma after four years of high school. Students must complete all state and local graduation requirements, and attend school for eight semesters. If a student must repeat a class due to failure they should assume their schedule will become difficult to complete. If a student fails a course required for graduation, it could cause the student to fail to graduate on time.

Courses for dual enrollment -- both high school and college -- will also be available to students with high GPA's as juniors and seniors. Course offerings will depend on the needs of students and the availability of courses.

# **DUAL ENROLLMENT COURSES**

In an effort to assist students preparing to go to college, Golden City High School will attempt to make some entry-level college courses available to our top juniors and seniors each year. Students will be required to have an overall GPA of 6.875 or higher. Students will be responsible to pay for all tuition, fees, and books necessary for all dual enrollment course enrollments. Students who successfully complete these courses will be granted high school credit, as well as earning college hours. Students who successfully complete a dual enrollment course have the opportunity to apply for the Dual Credit Tuition Reimbursement Scholarship. This will apply to one course per semester. Guidelines are below:

- · Be a junior or senior with at least a 90% attendance rate for the semester
- · Student must receive a grade of C or better shown on a printed transcript once the class is complete
- · Student must maintain a record of excellent citizenship
- · Student must maintain a GPA of 6.875 or better
- · Parent/Guardian/student must submit a copy of the paid receipt for the course to be reimbursed

Generally, courses will be basic, freshman level, liberal arts subjects that would apply to any college program. Golden City High School cannot guarantee that any college will accept dual enrollment courses. The decision to accept transfer credits is made by each individual college, however we will attempt to help any student determine what the policy is at any college that they wish to attend.

# STUDENT EXPECTATIONS AND PROCEDURES

# STUDENT EXPECTATIONS

There are guidelines that the school expects from its students:

- 1. Attend school and be on time for each class.
- 2. Be prepared, including all materials for class. Complete coursework on time.
- 3. Expect to come in before and after school to make up work, get help, or complete assignments.
- 4. Follow the instructions of all teachers and staff while at school.
- 5. Expect curriculum and grading standards to hold students to high levels of performance.
- 6. Be respectful to others and their property.
- 7. Water must be in a clear container. Other food and drink is prohibited in class.
- 8. Phones are to be turned off, placed in lockers or backpacks between the hours of 7:45AM-3:15PM
- 9. Headphones and earbuds (must be wired) may be used when approved by the teacher while using their Chromebooks.

# **ARRIVAL TIME**

School begins at 8:10 a.m. It is very important for students to arrive no later than that time in order to prepare for their day. Being on time is crucial for the development of responsible citizens. Students are asked not to arrive prior to 7:45 am as there is no supervision prior to this time. Parent/Guardian help in this is greatly appreciated.

# **GOLDEN CITY APP AND COMMUNICATION**

The official Golden City Schools website is <a href="www.goldencityschools.com">www.goldencityschools.com</a>. There is also an app that is available for download in the Apple App Store and Google Play Store. One of the features of this app is mass communication from the school. Parents should download the app and enroll in ALL notifications from the school. This includes: text messages, automated calls, push notifications, and general updates. This app is also connected to the school's social media pages and website. ALL COMMUNICATION SUCH AS SCHOOL CLOSINGS, EMERGENCIES, OR CHANGES WILL BE COMMUNICATED THROUGH THIS APP. Please contact the office with any questions regarding the app.

# LATE WORK POLICY

Each teacher is responsible for clearly covering and defining the late work policy for their classroom. The late work policy will be required to be published in the course syllabus that is handed out to students on the first day of class. Late work policies are approved by administration prior to being published in the course syllabus. Each syllabus will have a signature page for student signature for agreement and acknowledgement of the information contained in the syllabus.

# **PROGRESS REPORTS**

A semester grade, which is the average of two quarter grades, will be recorded on the permanent record of each student. Grade cards will be issued each quarter. After the third and sixth week of each quarter progress grades will be sent home. Interim progress reports requested by parents for any reason at other times, will be the sole responsibility of the student to gather information from teachers. This must be done in a manner which will not disrupt classes in progress. Student athletes may have eligibility reports sent around by the athletic department on a regular basis. At the discretion of the coaching staff, these reports may be sent home to parents.

Eligibility for school activities: Any student who is determined to have below a 60% grade/grades at the ineligibility check will not be allowed to participate until the grade has been raised. Grades are checked at designated progress points throughout the year. If a student has below a 60% in a class they will have 1 week to raise the grade before they are considered ineligible.

# **LUMEN STUDENT MANAGEMENT SYSTEM**

Golden City Schools uses the Lumen system to record a wide variety of student information. Parents can access attendance, tardies, lunch information, grades, and discipline reports for their child. Parents will need to contact the high school office (537-8311) to get password information as this is a secure site for each child. Parents can also email teachers with questions or concerns using this system. Student grades are updated each Monday by 10:00 am. Attendance, tardies and lunch information is updated daily and discipline reports are recorded as they occur. The district anticipates adding more features to this system so more information can be made available through this means of communication.

# **GRADING SYSTEM**

Each student is encouraged to achieve the highest grades that their ability allows. Your permanent record is used by college officials, prospective employers, and others. Work to be proud of it!

The following system is used by all teachers for high school students:

Α	95-100	A-	90-94	B+	87-89
В	83-86	B-	80-82	C+	77-79
С	73-76	C-	70-72	D+	67-69
D	63-66	D-	60-62	F	59 or below

# **GRADE POINT AVERAGE**

Student GPA's will be figured using an eleven point scale. Points are awarded for each course passed on the following basis:

Valedictorian and salutatorian will be chosen by the cumulative GPA at the end of the 3rd quarter of the senior year. The student with the highest GPA will be named valedictorian; the student with the second highest GPA will be named salutatorian. Class

rank for graduation exercises will also be compiled at the end of the 3<sup>rd</sup> quarter.

Please note that **final** class rankings will be compiled based on cumulative GPA at the end of the 4<sup>th</sup> quarter. These final rankings will have no effect upon previously awarded scholarships.

Students who take any of the weighted courses for juniors/seniors will have an additional two grade points added for that course when figuring GPA, if they have earned a C- or better in the course. For example, an "A" would be given 13 points, instead of 11. See the next section for details on weighted courses.

#### WEIGHTED GRADES POLICY

The Board of Education has approved giving two additional grade points for grades of <u>C - or higher</u> in four high school courses. In addition, any courses offered for dual credit in high school and college will also be weighted. The purpose of weighting these courses is to encourage students to take more challenging courses, rather than avoid them in an effort to keep their GPA higher.

The following classes (offered through Launch) are considered weighted courses and are awarded an extra 2 grade points for any grade that is a C- or higher:

Physics Calculus/Trigonometry Spanish II/Foreign Language or higher

Any courses offered for dual enrollment in high school and college

# HIGH SCHOOL HONOR ROLL

There are three honor rolls figured from a student's GPA. The honor roll will be determined and posted each quarter. <u>Students cannot have a grade of C- or below to be on the honor roll</u>. Weighted grades will be used in figuring the honor roll for all students who are enrolled in those courses.

Principal's Honor Roll - Any students with a perfect 11.00 GPA for the guarter.

High Honor Roll - Any students with 10.00 to 10.99 GPA for the guarter.

Honor Roll - Any students with 8.00 to 9.99 GPA for the quarter.

All students who make the honor roll for the entire year will be honored with a certificate at the awards assembly.

# JUNIOR HIGH HONOR ROLL

Two honor rolls will be awarded quarterly in grades 6-8. The criteria is below:

All A Honor Roll - Any student with all A's

A/B Honor Roll - Any student with all A's and B's

\*\*All students who make the honor roll for the entire year will be honored with a certificate at the awards assembly.

# ACADEMIC LETTERING POLICY

To promote academic success and reward those students who reach a high level of achievement, Golden City R-III High School will honor all students who meet the following guidelines with an Academic Letter.

- 1. Students must maintain a 9.75 GPA (out of a possible 11) for four consecutive guarters.
- 2. The grading periods used each year will be: fourth quarter of the preceding school year and the first three quarters of the current school year. This will allow academic letters to be presented at the annual awards assembly.
- 3. Students would be eligible to earn an Academic Letter all four years of high school. Only one actual letter would be presented, with a bar being presented in any subsequent years.
- 4. Students who earn an Academic Letter, a Music Letter, and an Athletic Letter all in the same year will be specially honored for this high accomplishment with the presentation of an All-School Letter.

# **SPORTS LETTERING**

- 1. Any athlete that plays in 50% of the varsity guarters/sets/innings will letter.
- 2. Athletes must complete the season through the finish of Districts.

# NATIONAL HONOR SOCIETY

The Golden City Chapter of the National Honor Society was established in April 1984. To be eligible for consideration in regard to NHS membership, a student must meet the following criteria.

- 1. The student will be a junior or senior in good standing.
- 2. The student will have a cumulative attendance rate of 90% or better
- 3. The student will have a cumulative grade point average of 9.75 on an 11.0 scale.
- The students will be evaluated by teachers and organizational sponsors in the areas of leadership, character, and service.

If the student has met all of the requirements for consideration, they will then be further evaluated by a confidential executive committee and needs only a simple majority to be named as a candidate for induction into the Golden City Chapter of National Honor Society.

# **INCOMPLETE GRADE POLICY**

Incomplete grades will not be assigned at the end of any grading period (i.e. quarter or semester) unless a student was absent the last week of the grading period due to illness or other extenuating circumstances. In these cases a student may be assigned an incomplete grade. However, the assigned work must be completed and a grade assigned no later than two weeks after the grading period ends or the student returns to school.

# **ACADEMIC HONESTY**

Golden City High School expects and demands high standards of honesty from its students. Those high standards demand that dishonest work be rejected and that those students engaging in such work bear the consequences, which may include zero credit on assignments, detentions, in school suspension, and/or out of school suspension.

Plagiarism, or academic theft, is presenting the words or ideas of someone else as one's own in an assignment without giving them due credit as the originator of those words or ideas. A student is guilty of plagiarism if he or she submits as his or her own work, a written or spoken assignment that contains words or ideas copied from another person's book, article, manuscript, notes, Internet site, calculations, computer programs, or any other source. Obviously, turning in another student's assignment or paper totally taken from someone else's work is plagiarism. But it is also plagiarism to reword or summarize the words or ideas of another author and present them as part of one's assignment unless one gives the author credit. Plagiarism occurs when a student uses a sequence of words or ideas without having integrated and reorganized the author's words in his or her own work and without acknowledgement in the assignment.

The following artificial intelligence policy is in reference to Board Policy EHBD **Original Adopted Date**: 04/01/2024 | **Last Revised Date**: 06/26/2024 | **Last Reviewed Date**: 06/26/2024

**Generative AI,** any software or hardware whose primary purpose is to accept input, process the input through one or more algorithms, and use the result to generate new output that resembles human-made intellectual or creative work. Examples of generative AI include large language models (chatbots) such as ChatGPT.

# **Unauthorized Use of Generative AI**

Any use that has not been specifically authorized for an assignment by the teacher giving the assignment. Even when Al use is authorized, exceeding the authorized use of Al may be considered unauthorized use. Some tools capable of generative Al may nevertheless be used without specific authorization as long as no Generative Al functions are used. For example, a calculator may have one or more generative Al functions, but the calculator can still be used for typical mathematical calculation, and a laptop may be used to appropriately browse the web, but not to browse websites that interfere with generative Al. In case of any doubt, students should seek clarification or specific authorization form the teacher who gave the relevant assignment.

Similarly, a student is an accomplice in plagiarism and equally guilty (1) if he allows his own words in outline or finished form to be copied and submitted as the work of another or (2) if he prepares an assignment for another student and allows it to be submitted as that other student's work. See the code of conduct section for potential discipline to be administered.

# WITHDRAWALS AND TRANSFERS

When a student transfers in to Golden City High School verification that the student and their parents/legal guardian are living in our school district, that the student is not currently suspended or expelled from another school, and that the student is not currently charged with, or convicted of, any serious crime must be provided by the parent or legal guardian of the student as required by the Safe Schools Act of 1996.

A transfer or withdrawal form must be obtained from the high school office <u>when a student is leaving school</u>. All books and any other items belonging to the school must be returned, fees paid, and transfer or withdrawal form signed by all assigned teachers. Locker must be emptied and cleaned.

# **VOCATIONAL EDUCATION STUDENT POLICY**

Golden City R-III students who are Juniors or Seniors have the option of enrolling in the Lamar Career and Technical Center in the mornings to train in a specific technical field including the following: Business and Marketing, Auto Mechanics, Health Occupations, Welding Technology, Carpentry, Industrial Technology, Machine Tool Technology, Agriculture, Computer Science and Graphic Design.

- 1. To be eligible for participation in classes at the Lamar Career Technical School, a student must:
  - a. Maintain a "C" average
  - b. Maintain good school attendance
  - c. Maintain good school behavior
  - d. Display motivation, work ethic and a plan for a future in vocational technical fields of work.
  - e. Be on track to graduate from High School
- It should also be noted that the staff at Lamar Career and Technical Center are looking for students with educational records that show class work pertaining to the desired program as well as items in #1 above.
- 3. EMBEDDED CREDIT: Embedded credits for English and Math are available to Lamar Career and Technical Center students. Students must attend two full years of Lamar Career and Technical Center and complete the embedded credit requirements to the satisfaction of Golden City R-III administration, as well as the administration and staff of Lamar Career and Technical Center. Students participating in this program will continue to be required to take English and Math at Golden City each of the four years enrolled at Golden City R-III School; failure of the embedded credit and/or English courses at Golden City could result in failure to graduate.
- 4. All students who plan to attend the Lamar Career and Technical Center cannot drive without prior signed permission from parents. Lamar Career and Technical Center Director and the Golden City principal.
- 5. The bus will pick up Lamar Career and Technical Center students at the main HS door and will arrive at approximately

- 8. Students who enroll in Lamar Career and Technical Center should be aware that they are making a commitment to complete a two-year program.
- Golden City dress code, discipline code, and attendance code applies to students who attend Lamar Career and Technical Center.
- 10. Attendance is of particular importance as missing over five absences will result in removal from the program.
- 11. Sometimes, Lamar School District has a different start date, end date or vacation days; Lamar Career and Technical Center students will adhere to the schedule of Lamar for the purposes of articulation and earning embedded credit.
- 12. If Lamar Career and Technical Center is not in session, but Golden City is, students attending are required to be in attendance at Golden City for the full day and alternate placements will be given for the first four hours of the day.

# TRANSFERS FROM A NON-ACCREDITED OR HOME SCHOOL

Students who transfer to Golden City High School from a non-accredited school or from a home school situation will be assigned to a grade and classes in accordance with the following board policy:

Tests will be given in each class to determine if the student has mastered the material. The student will demonstrate 60% mastery on each semester final to receive credit. Testing must be completed BEFORE students are placed in classes or assigned to a grade level.

Students transferring into Golden City High School from a non-accredited school or from home schooling must attend at least two semesters immediately preceding graduation to be eligible for a Golden City High School diploma. Students attending less than four semesters will not be included in class rank, but will be assigned a GPA on work from Golden City High School.

#### STUDENT RECORDS

All student information kept in a student's permanent file is confidential and will not be released to anyone other than the student or the student's parents without their permission, unless the student transfers to another school and a records request is received from that school. Access is granted to school personnel for educational purposes only. Information on file with the office regarding student addresses and telephone numbers must be current at all times. If a student moves during the school year, changes telephone numbers, or if parents/guardians change employment making the emergency information file obsolete, new information needs to be given to the high school secretary to update the student records.

# **TRANSCRIPTS**

Official student transcripts will be kept on file in the office. A student, or a student's parents (until the student has graduated), may request that his/her transcript be sent to another school in the case of transfer, or to colleges of his/her choice. A form is available in the office and must be completed for these requests to be honored. Final transcripts will be released upon the completion of all coursework and payment of all outstanding fees and debts.

# LIBRARY

By arrangement with the librarian, classes may occupy the library or computer lab for orientation or research when accompanied by their teacher. All books and other resources are to be checked out by the librarian or a library assistant. Reference materials must be used in the library unless the librarian grants special permission for them to be used elsewhere.

# **LOCKERS**

Students will be issued a locker during registration for school in August. Students are encouraged to place a lock on their locker. The school will not be responsible for items stolen from lockers. Students using locks must provide a key, or the combination, to the office. Some students may have to share lockers with another student if lockers are unavailable. All lockers, in the halls, locker rooms, and classroom areas, are the property of Golden City R-III High School and may be searched or inspected by authorized school personnel at any time. The lockers will also be subject to periodic search by law enforcement canine units. Lockers are to be kept neat and orderly. They are not to be abused in anyway, including but not limited to, kicking, hitting, slamming, scratching, etc. Undesirable or lewd advertisements, posters, etc. will not be allowed on the inside or outside of the lockers and will be confiscated by school personnel. - 4th offense—Warning
- 5th and After– Office referral for consequences

Chronic tardiness will result in stiffer penalties.

# MIDDLE SCHOOL/HIGH SCHOOL ATTENDANCE POLICY

Regular attendance at school is necessary for students to gain all the benefits of their classes. Believing that it is important for students to make regular attendance a habit, the Board of Education has established the following policy regarding attendance of middle school and high school students:

- 1. Regular attendance is the responsibility of the student and the student's parents.
- 2. A student may not miss more than 5 days per class, per semester. Absences 6-8 will result in the lowering of the semester grade by 2% per absence. Students will lose credit when accumulating 9 absences in a single class. (See guidelines below and the waiver policy.)
  - Following 8 absences the student's attendance record will be forwarded to the Barton County Sheriff's Department and the Juvenile authorities.
  - At absence #5 the school, the parents, and the student will meet and sign a contract laying out a plan to finish out the semester in an attempt for the student to not lose credit.
- Time served in the at-risk program will not count toward the 5 allowed absences. School sponsored activities during
  the school day (including college days, limited to two) which causes a student to miss class will not count toward the 5
  allowed absences.
- 4. Out-of-school suspension time will count toward the 5 allowed absences, and no missed assignments may be made up for credit.
- 5. If a student is more than 15 minutes late to a class, or leaves more than 15 minutes before the end of a class, then an absence will be recorded in that class. Arriving after 8:25 will be counted as absent to first hour.
- 6. If it is necessary for a student to miss school the parent/guardian of the student must inform the principal's office of the absence. This can be done by a phone call on the morning of the absence, or by sending a note of explanation with the student upon their return to school. A student will have one day for each day absent to hand in make-up work. An absence will be marked as excused with documentation for any type of doctor's appointments and funerals only. (medical, eye, dentist, and/or therapy)
- 7. In severe cases of chronic illness or extended hospitalization, please refer to the waiver policy and the appeals process. Each request will be reviewed to determine whether an exemption to the policy should be made. Students may appeal this decision to the Board of Education.
  - An absence that has been excused by the parent or guardian will not be waived unless there is proper documentation (ex. Dr. note for a doctor's appointment.)

A student will have to get an admit slip from the office before returning to class.

# **WAIVER POLICY**

When students know in advance that they will be absent from school they may file for a waiver of the attendance requirements because of extenuating circumstances, which may include.

- 1. Periodic medical or dental treatment.
- 2. Extended illness and/or hospitalization
- 3. Trips which are educational in nature.
- Student disability
- 5. Religious or military observance

To have an absence waived a student must present documentation of the above listed conditions within **Five** school days of the absence. Final authority to waive absences lies with the administration.

# **COLLEGE VISITS**

- Seniors will be allowed two college visits for the year
- Juniors will be allowed one college visit for the year

- Visits must be pre-approved and a College Visit Permission/Verification Form must be completed and submitted for signatures from the RootEd advisor and the Principal one week prior to the visit
- Students are required to have the college/institution representative complete the verification portion of the form during the visit
- Students are responsible for letting teachers know of the intended absence and will be responsible for all work missed
- For the visit to be counted as a school activity and not an absence, the properly completed visit/verification form must be returned to the RootEd advisor within two school days of the college visit

# **APPEALS PROCESS**

If a student should lose credit under the attendance policy guidelines, the student has the right to appeal for reinstatement of lost credit. A faculty committee will review each appeal received quarterly. The appeal must be in writing and be given to the principal before the end of the semester in question. This committee will consist of the teachers of classes in which the student is enrolled, the principal and the counselor.

The student and his or her parent may be asked to meet with this committee to present their reasoning for reinstating credit. They will be asked to provide necessary documentation to support their case. The following order will be followed in the due process procedure.

- 1. Attendance Committee
- Superintendent
- 3. Board of Education

## HALL PASS

A student must have a pass slip signed by the classroom teacher in order to be allowed out of the classroom. A yearbook student will be required to wear a yearbook pass in lieu of a slip. A student who does not have a slip will not be allowed out of the classroom for any reason. Abuse of the privilege will result in the student not being allowed to leave the room.

# **DRESS CODE**

Student General Appearance must be clean, modest, and appropriate for the school setting, avoiding extremes. Specific Guidelines in some areas are listed below, however any clothing or personal appearance that is disruptive to the educational process or is deemed to be inappropriate for the school setting will not be allowed. - 7. Body piercings should not present a safety risk or create a disturbance to the educational process.
- 8. The following cannot be worn inside the building; bandanas, hoods, hats, or sunglasses.

Any object or clothing that the administration determines to be disruptive or detrimental will not be allowed.

<u>Violations of the dress code will result in:</u> 1st time - A warning and a change, 2nd time - Notification of parents and a change, 3rd time - A Change and discipline administered.

# MOTOR VEHICLE REGULATIONS

Students 16 years of age, possessing a valid drivers' license, will be allowed to drive a personal vehicle onto school grounds for classes and school activities. To insure safe operation and parking of all vehicles the following regulations should be followed:

- 1. All students should park on the north side of the high building against the fence on the north side of the parking lot, or up against the playground asphalt on the west side of the parking lot. During the school day no one may park in the middle area of the parking lot to ensure adequate space for delivery and disposal trucks to maneuver. No student should park west of the school building along the sidewalk. This is for parent drop off and pick up.
- 2. Vehicles should be parked in an orderly manner, straight in the line with all others.
- 3. Students are not to go to their cars during the school day, except with permission from the school office.

- 6. Violations of these regulations could result in loss of parking privileges.

# CODE OF CONDUCT

The Board of Education, administration, and faculty realize the responsibility of ensuring an environment for learning. Our objective will be for students to accept responsibility for their own behavior, and to be productive school citizens.

The following code of conduct and discipline policy is in reference to Board Policy JG-R1 **Original Adopted Date:** 01/23/2020 | **Last Revised Date:** 02/21/2024 | **Last Reviewed Date:** 02/21/2024

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or board of education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. The district may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law.

# REPORTING TO LAW ENFORCEMENT

It is the district's policy to report all crimes occurring on district property to law enforcement including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF. The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy. In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

# DOCUMENTATION IN STUDENT'S DISCIPLINE RECORD

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

# CONDITIONS OF SUSPENSION, EXPULSION AND OTHER DISCIPLINARY CONSEQUENCES

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the superintendent or designee. When appropriate, the district may prohibit students from participating in activities or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence.

In accordance with law, any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or

drug-related activity defined by policy JGF as a serious violation of school discipline, shall not be allowed to be within 1,000 feet of any district property or any activity of the district, regardless of whether the activity takes place on district property, unless one of the following conditions exist:

- 1. The student is under the direct supervision of the student's parent, legal guardian, custodian or another adult designated in advance, in writing, to the student's principal by the student's parent, legal guardian or custodian, and the superintendent or designee has authorized the student to be on district property.
- The student is enrolled in and attending an alternative school that is located within 1,000 feet of a public school in the district
- 3. The student resides within 1,000 feet of a public school in the district and is on the property of the student's residence.

Students who violate the prohibitions in this section may be suspended or expelled in accordance with the offense, "Failure to Meet Conditions of Suspension, Expulsion or Other Disciplinary Consequences," listed below.

Pursuant to law, no student will be confined in an unattended locked space except in an emergency situation while awaiting the arrival of law enforcement personnel.

# PHYSICAL EDUCATION

Fitness and wellness instruction and physical activity are necessary for healthy living, and are an integral part of the Golden City R-III Schools mission. All students must take and pass one high school physical education course (1 unit of credit) to graduate from high school. To allow P.E. classes to run smoothly, the following standards have been set:

- 1. All students will participate in class.
- 2. All students are expected to dress out for class activities. Not dressing out does not remove the student's obligation to participate. Students not dressed out will not receive daily participation points.
- 3. Attire for physical education should follow the school dress code.
- 4. The only acceptable excuse for non-participation is for a medical reason that is verified by a doctor's note before the non-participation occurs.

# WEIGHT TRAINING PARTICIPATION

- 1. All students will be expected to sign a waiver stating that if they do not follow the rules and guidelines of the program and the instructor they will be removed from the weight room and placed in physical education.
- 2. All students will participate in class.
- 3. All students are expected to dress out for class activities. Not dressing out does not remove the student's obligation to participate. Students not dressed out will not receive daily participation points.
- 4. The only acceptable excuse for non-participation is for a medical reason that is verified by a doctor's note before the non-participation occurs.

# **SOCIAL RELATIONSHIPS**

The Board of Education and the administration feel that school is not the proper place for affection to be shown by one student to another. Therefore the following policy will apply:

- 1. Holding hands will be the only allowable show of affection.
- Hugging, Embracing, kissing, etc will not be allowed.
- 3. Students violating this rule will be given one warning to refrain from this type of behavior at school.
- 4. A second offense will lead to a detention being assigned and parents will be contacted.
- 5. Any further repeated offenses could lead to referral to the at-risk program for 1-3 days and parents will be contacted.
- 6. School property includes buses, on incentive trips and senior trip.
- 7. Future offenses will result in 4-7 day assignment to the at-risk room, and parents will be contacted. Future incidents could result in possible suspension from school for up to 3 days.

# **ORGANIZATIONS**

Golden City High School has a wide variety of school-sponsored curriculum-related organizations. These groups would include the Art Club, FBLA, FFA, FCCLA, Student Council, Chess Club, Scholars Bowl, Math League, National Honor Society, and any other clubs that might be started that are related to the curricular goals of the school.

Other, non-curricular clubs have, from time to time, been active at Golden City High School as well. Examples of non-curricular clubs would include FCA, or any other group that meets exclusively with GCHS students, but lacks a direct link to the curricular goals of the school. These clubs are allowed to meet with students in the school facility, but are not school sponsored or supported.

# ORGANIZATION AND CLASS MEETINGS

Organization and class meetings will be held on a quarterly basis. The date will be selected and assigned to the comprehensive calendar. Requests and agendas for meetings must be turned in to the principal's office in advance of the meeting day. Schedules will be announced in the daily bulletin. Any and all student-originated pep rallies, parties, etc. are prohibited unless approved by the principal in advance. Furthermore, any signs, announcements, posters, etc. should always be cleared in the office before posting.

# **A+ PROGRAM**

The A+ Schools program was established in 1993 as part of the Outstanding Schools Act by the Missouri State Legislature to enhance educational opportunities for high school students. According to the Missouri Department of High and Secondary

Education, the primary goal of the A+ Schools program is to ensure that all students who graduate from Missouri high schools are well prepared to pursue advanced education and employment.

The Golden City A+ goals are:

- All Golden City students will graduate from high school.
- All students will complete a selection of high school studies that is rigorous.
- Golden City High School students will proceed from high school to college; post-secondary, vocational, or technical school; or a high-wage job with the skills necessary to succeed.

Golden City High School received A+ designation in April of 2013.

Golden City High School graduates who meet specific A+ criteria will be eligible to receive <u>reimbursement for tuition and general fees</u> to attend any public community college or vocational or technical school in the state of Missouri for two years (up to six semesters) beginning with the graduating class of 2015. A+ standards are rigorous and mandated by the State of Missouri. Please see A+ Handbook for complete details.

# MSHSAA CITIZENSHIP STANDARDS FOR ALL INTERSCHOLASTIC ACTIVITIES

Golden City R-III will follow these guidelines for citizenship in athletics and activities programs.

Each individual coach/sponsor has the authority to set more restrictive requirements.

# MSHSAA By-Law 2.2.1 states that:

- 1. Students who represent a school in interscholastic activities must be creditable citizens and judged so by the proper authority. Those students whose character or conduct is such as to reflect discredit upon themselves or their schools are not considered "creditable citizens."
- 2. Conduct shall be satisfactory in accord with the standards of good discipline.

# MSHSAA By-Law 2.2.2 regarding Law Enforcement says:

- 1. A student who commits an act for which charges may be or have been filed by law enforcement authorities under any municipal ordinance, misdemeanor or felony statute shall not be eligible until all proceedings with the legal system have been concluded and any penalty (i.e. jail time, fine, court costs, etc.) or special condition of probation (i.e. restitution, community service, counseling, etc.) has been satisfied.
- 2. If law enforcement authorities determine that charges will not be filed, eligibility will be contingent upon local school policies. Minor moving traffic offenses shall not affect eligibility, unless they involve drugs, alcohol, accidents or injuries.
- 3. After a student has completed all court appearances and penalties, and has satisfied all special conditions or probation and remains under general probation only, local school authorities shall determine eligibility.

# DISCIPLINE REFERRALS - According to MSHSAA By-Law 2.2.3 a student:

- 1. Shall not be considered eligible on any type of suspension.
- 2. May not represent the school (practice or games) while they are on either in school or out of school suspension.
- 3. Accumulating excessive disciplinary referrals will be reviewed and will result in some form of restriction or suspension from the coach/sponsor/office.

MSHSAA Bylaw 2.2.5 Student Responsibility: Each student is responsible to notify the school of any and all situations that would affect his/her eligibility under the above standards. If the student does not notify the school of the situation prior to the school's discovery, then the student shall be ineligible for up to 365 days from discovery, pending review by the Board of Directors.

These rules and regulations apply 365 days a year, in school and out of school. Any violation of these Standards or MSHSAA standards during the entire year (365 days) will result in consequences handed down by MSHSAA and/or Golden City R-III School District. If the violation occurs during the "off-season" for the student, then the consequences will carry over to the next season in which the student will participate.

# STUDENT PARTICIPATION IN EXTRACURRICULAR ACTIVITIES INCLUDING ATHLETICS Golden City R-III Requirements

A student may only participate in extracurricular activities if he/she has passed all courses during the preceding quarterly grading period.

- 1. Students participating in MSHSAA sanctioned events will be ineligible to participate in any activity if they received a failing grade on their guarter grade prior to the beginning of the season.
  - Any F at the end of 1st quarter makes the student ineligible for the 2nd quarter.
  - Any F at the end of 2nd quarter makes the student ineligible for the 3rd quarter.
  - Any F at the end of 3rd guarter makes the student ineligible for the 4th guarter.
  - Any F at the end of 4th quarter makes the student ineligible for the 1st quarter of the following year.
  - As football is played in a cooperative agreement Lockwood's eligibility requirements will be used at the end
    of the first quarter.
- 2. A student receiving an F in any fourth quarter class may become eligible under our local policy by attending a corresponding summer school class and receiving a passing grade, provided that all other state eligibility requirements are met. (Administrative approval must be obtained prior to the class to assure the class will be accepted).
- 3. By Missouri State High School (MSHSAA) standards any student with two F's is ineligible and summer school cannot override that ineligibility.
- 4. Student members of clubs and organizations who receive a failing quarter grade will be ineligible for the following quarter's activities. This includes all activities such as games, practice, open gyms, or other events.
- 5. The above eligibility policy for athletes also applies to non-curriculum related activity trips. Only if a trip or activity relates directly to classroom instruction will an ineligible student be allowed to participate. (See activity trip policy on page 42)
- 6. ATTENDANCE MSHSAA By-Law 2.2.3d requires that:
  - A student that misses any class time on a day where they will be participating in an activity without prior approval from the office will be considered ineligible to participate in the activity that day. If there is an emergency, **communication** with the office is important.
  - Furthermore, the student cannot be certified eligible to participate on any date following the absence until the student attends a full day of classes.
  - Students must notify and obtain approval from the principal that they will be missing classes prior to the morning of absence.
  - If a student does not notify the principal by this time, the student will be ineligible for the activity that day. Call 417-537-8311 to obtain this approval
  - Golden City R-III will follow the above guidelines for attendance for athletics and activities.

    Students may participate in school activities during the school day, but may not miss class for an activity if a test is scheduled unless prior arrangements have been made. It will be the responsibility of the students to make up any work missed because of participation in extracurricular activities.
  - Eligibility for school activities: Any student who is determined to have below a 60% grade/grades at the ineligibility check will not be allowed to participate until the grade has been raised. Grades are checked at designated progress points throughout the year. If a student has below a 60% in a class they will have 1 week to raise the grade before they are considered ineligible.

Exceptions for activity participation due to absences must be approved in advance (at least 1 day prior) with administration.

# **ACTIVITY TRIPS POLICY**

Extra-curricular trips often require students to be transported to and from the activity by use of a bus or other vehicle driven by school employees. Students riding the bus or a private vehicle driven by a school employee are under the jurisdiction of the sponsor and/or driver. They are expected to obey these people, and failure to comply with the rules will lead to suspension from extra-curricular events and bus riding privileges in the future. Students are expected to ride the bus to school events, and are also expected to ride the bus back home from those events. The bus driver/sponsor shall not permit a student to exit the bus until he/she has arrived at their destination. Failure to secure permission from the sponsor to return with your parents will cause you to lose the privilege of riding the bus and participating in extracurricular activities in the future.

There are two types of trips within the Golden City R-3

- 1. Academic Trips
- 2. Reward Trips

Guidelines for all trips will be communicated with students and parents prior to the event.

The principal and sponsors will clarify whether each trip is an academic or reward trip at the time of scheduling the trip. The board also has a responsibility to protect individual privacy, educate all students regardless of medical condition and treat students and employees in a nondiscriminatory manner.

**Immunization** - In accordance with law, students cannot attend school without providing satisfactory evidence of immunization, unless they are exempted from immunization.

**Universal Precautions** - The district requires all staff to routinely employ universal precautions to prevent exposure to disease-causing organisms. The district will provide the necessary equipment and supplies to implement universal precautions.

Students or employees infected with chronic communicable diseases that do not pose a risk of transmission in school or at school activities (such as, but not limited to, hepatitis B virus or HIV) shall be allowed to attend school or continue to work without any restrictions based solely on the infection. The district will not require any medical evaluations or tests for such diseases.

In the case of students, certain types of behaviors, such as biting or scratching, may also be associated with transmission of pathogens.

Students who exhibit such behaviors or conditions may be educated in an alternative educational setting or, if appropriate, disciplined in accordance with the discipline code. In the case of a student with a disability, the Individualized Education Program (IEP) team or 504 team will make any change of placement decisions.

An example of an individual who may need to know an employee's medical information is the employee's immediate supervisor, if accommodations are necessary.

All medical records will be maintained in accordance with law and board policy. Breach of confidentiality may result in disciplinary action, including termination.

**Reporting and Disease Outbreak Control -** Reporting and disease outbreak control measures will be implemented in accordance with state and local law, DHSS rules governing the control of communicable diseases and other diseases dangerous to public health, and any applicable rules distributed by the appropriate county or city health department.

**Notification -** Missouri state law provides that superintendents who supply a copy of this policy, adopted by the district board of education, to DHSS shall be entitled to confidential notice of the identity of any district student reported to DHSS as HIV-infected

and known to be enrolled in the district. Missouri law also requires the parent or guardian to provide such notice to the superintendent.

# CHRONIC INFECTIOUS DISEASE

(AIDS, Herpes, or Cytomegalovirus)

- 1. Since the risk of transmission of these diseases in the school setting is quite low, the child should be permitted to attend school in the least restrictive environment. The decision should be made by the child's physician, public health personnel, the child's parent/guardian, and the personnel involved in the child's care. The child's physician may also recommend exclusion of the child when infectious diseases are present in the building that put the child at risk.
- 2. Although the organisms have been isolated from blood, semen, saliva, and tears, transmission has only been documented through blood and semen. The child could attend school, in a regular classroom setting using simple precautions with body fluids or blood. In certain situations: a) a child is not toilet trained, b) a child has abnormal behaviors that include biting or mouthing of objects, or c) a child has lesions that cannot be covered, a decision may be made the place the child in an educational setting that would minimize exposure of others to blood and body fluids.
- Persons involved in the care and education of children with these chronic infections should respect the child's right to privacy, including maintaining confidential records. Only the persons who have a need to know (in order to assure proper care and to detect potential for disease transmission) should be advised.

# STUDENT ALCOHOL/DRUG ABUSE - JFCH

Original Adopted Date: 01/23/2020 | Last Revised Date: 02/21/2024 | Last Reviewed Date: 02/21/2024

Therefore, use, sale, transfer, distribution, possession or being under the influence of unauthorized prescription drugs, alcohol, narcotic substances, unauthorized inhalants, controlled substances, illegal drugs, counterfeit substances and imitation controlled substances is prohibited on any district property, in any district-owned vehicle or in any other district-approved vehicle used to transport students to and from school or district activities. This prohibition also applies to any district-sponsored or district-approved activity, event or function, such as a field trip or athletic event, where students are under the supervision of the school district. The use, sale, transfer or possession of drug-related paraphernalia is also prohibited.

For the purpose of this policy a controlled substance shall include any controlled substance, counterfeit substance or imitation controlled substance as defined in the Narcotic Drug Act, § 195.010, RSMo., and in schedules I, II, III, IV and V in section 202(c) of the Controlled Substances Act, 21 U.S.C. § 812(c).

# SEXUAL HARASSMENT OF STUDENTS

Sexual harassment of students by either sex by employees or other students of the same or opposite sex is strictly prohibited in the Golden City School District. For purposes of sexual harassment and sexual discrimination policies only, an employee includes any person employed by the district, and any student teacher, intern, or school volunteer. A student is any person enrolled in the school district or in district instructional programs.

Sexual harassment is defined as unwelcome sexual advances, requests of sexual favors, or other verbal or physical conduct of a sexual nature made by a member of the school staff to a student, or when made by any student to another student when:

- submission to such conduct is made either explicitly or implicitly a term or condition of a student's academic status or progress
- submission to or rejection of such conduct by a student is used as the basis for evaluating the student's performance within a course of study or other school related activity
- such conduct has the purpose or effect of unreasonably interfering with a student's educational performance or creating an intimidating, hostile, or offensive educational environment.

Whether a student voluntarily submits to sexual advances or requests is irrelevant for the purposes of this policy. Sexual

harassment of a student by an employee or another student may include such things as sexually oriented jokes, remarks,

cartoons, pictures, or letters; pressure of sexual activity whether written, verbal, or through physical gestures; and physical contact such as patting or pinching.

Students who believe they have been a victim of or have witnessed sexual harassment should report the incident(s) to any teacher, guidance counselor, or school administrator. The staff member who receives the complaint shall promptly inform the administrator who is designated to investigate such reports, or the next level administrator who is not the subject of the complaint. There will be no adverse action taken against a person for making a complaint of sexual harassment when the complainant honestly believes sexual harassment has occurred or is occurring, or for participating in or cooperating with an investigation. Adverse action would include any form of intimidation, reprisal, or harassment such as suspension, expulsion, termination, change of educational conditions, loss of privileges or benefits, or other disciplinary action. Any individual who retaliates against an employee or student who reports, testifies, assists, or participates in an investigation or hearing related to sexual harassment complaint will be subject to discipline.

The appropriate administrator shall provide for a thorough, prompt investigation of the incident, and the investigation and written report shall be completed within a reasonable period of time. The district shall take disciplinary action where appropriate, up to and including suspension and/or expulsion of the student or suspension and/or

termination of the employee, in order to ensure that further sexual harassment does not occur. No person who is the subject of a complaint shall participate in such an investigation. If the superintendent is the subject of the complaint, an investigation will be conducted by the Board president. Any student found to have violated this policy by committing an act of sexual harassment or retaliating against a complainant or participant in an investigation shall be subject to disciplinary action including, but not limited to, suspension and expulsion. Confidentiality will be preserved consistent with applicable laws and the responsibility to investigate and address such complaints. If investigation of a student complaint results in reasonable cause to suspect that the student has been subjected to abuse or neglect, the matter will be reported in accordance with policy JHG, Reporting Child Abuse. Students who believe that their complaint has not been satisfactorily resolved may utilize grievance procedure ACG at the appropriate level.

Publications disseminated to employees and students will inform them of this policy.

# **BULLYING - JFCF**

Original Adopted Date: 01/23/2020 | Last Revised Date: 01/31/2022 | Last Reviewed Date: 01/31/2022

**General -** In order to promote a safe learning environment for all students, the district prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

# **Definitions**

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

Cyberbullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

School Day – A day on the school calendar when students are required to attend school.

**Designated Officials -** The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion.

The district compliance officer appointed in policy AC will serve as the district wide anti-bullying coordinator. The anti-bullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's anti-discrimination and anti-bullying education and training programs. In addition, the anti-bullying coordinator will assist in making any relevant reports as required by state and federal law.

**Reporting Bullying -** School employees, substitutes or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident.

Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school employee receiving such a report shall promptly transmit the report to the building principal or designee.

If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident.

**Investigation -** Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director.

The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings and send a copy of the completed report to the district's anti-bullying coordinator. The principal or designee will document the report in the files of the victim and the alleged or actual perpetrator of bullying. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with board policy.

The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

**Consequences -** Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include detention, in-school suspension, out-of-school suspension, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to, contacting the parents/guardians of the victim and the alleged perpetrators, communicating that this behavior is not allowed on district grounds or at district activities, notifying the appropriate district staff to assist the victim, and taking additional action when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity.

District employees and substitutes who violate this policy will be disciplined or terminated. Discipline may include suspension with or without pay, a negative evaluation, prohibition from being on district property or at district activities, mandated training or other appropriate remedial action. Volunteers who violate this policy will no longer be permitted to volunteer.

**Policy Publication -** The district shall annually notify students, parents/guardians, district employees, substitutes and volunteers about this policy and the district's prohibition against bullying. A copy of this policy shall be included in student handbooks and posted on the district's website.

Training and Education

The district's anti-bullying coordinator will provide information and appropriate training designed to assist employees, substitutes and volunteers who have significant contact with students in identifying, preventing and responding to incidents of bullying. The district will provide education and information about bullying and this policy to students every year. The principal of each school, in consultation with school counselors and other appropriate school employees, will determine the best methods for facilitating the discussion. Methods may include, but are not limited to: assemblies; homeroom presentations; class meetings; team or club meetings; special presentations by counselors, social workers or mental health professionals; and open-house events. When practical, parents/guardians will be invited to attend.

In addition to educating students about the content of this policy, the district will inform students of:

- 1. The procedure for reporting bullying.
- 2. The harmful effects of bullying.
- 3. Any initiatives the school or district has created to address bullying, including student peer-to-peer initiatives.
- 4. The consequences for those who participate in bullying or engage in reprisal or retaliation against those who report bullying.

School counselors, social workers, mental health professionals, school psychologists or other appropriate district staff will educate students who are victims of bullying about how to overcome the negative effects of bullying including, but not limited to:

- 1. Cultivating the student's self-worth and self-esteem.
- 2. Teaching the student to defend him- or herself assertively and effectively without violence.
- 3. Helping the student develop social skills.
- 4. Encouraging the student to develop an internal locus of control.

**Additional School Programs and Resources -** The board directs the superintendent or designee to implement programs and other initiatives to address bullying, respond to such conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying. Such initiatives may include educating parents/guardians and families on bullying prevention and resources.

## **HAZING – JFCG**

Original Adopted Date: 01/23/2020 | Last Revised Date: 01/31/2022 | Last Reviewed Date: 01/31/2022

In order to promote a safe learning environment for all students, the district prohibits all forms of hazing.

For purposes of this policy, hazing is defined as any activity, on or off school grounds, that a reasonable person believes would negatively impact the mental or physical health or safety of a student or put the student in a ridiculous, humiliating, stressful or disconcerting position for the purposes of initiation, affiliation, admission, membership or maintenance of membership in any group, class, organization, club or athletic team including, but not limited to, a grade level, student organization or district-sponsored activity.

Hazing may include those actions that subject a student to extreme mental stress including, but not limited to, sleep deprivation, physical confinement, forced conduct that could result in extreme embarrassment or criminal activity, or other stress-inducing activities. Hazing may also include, but is not limited to: acts of physical brutality; whipping; beating; branding; exposing to the elements; forcing inhalation or consumption of any food, liquor, drug, tobacco product, or other substance; or any other forced physical activity that could adversely affect the physical health or safety of an individual.

Hazing can occur even when all students involved are willing participants. Hazing does not occur when a student is required to audition or try out for an organization when the criteria are reasonable, approved by the district and legitimately related to the purpose of the organization.

District staff, coaches, sponsors and volunteers will not permit, condone or tolerate any form of hazing or plan, direct, encourage, assist in, engage in or participate in any activity that involves hazing. District staff will report incidents of hazing to the building principal. The principal shall promptly investigate all complaints of hazing and administer appropriate discipline to all individuals who violate this policy. District staff who violate this policy may be disciplined or terminated.

Students participating in or encouraging inappropriate conduct will be disciplined in accordance with JG-R1. Such discipline may include, but is not limited to, suspension or expulsion from school and removal from participation in activities. The district will report hazing incidents to law enforcement when required by law. Students who have been subjected to hazing are instructed to promptly report such incidents to a school official.

The superintendent will provide for appropriate training designed to assist staff, coaches, sponsors and volunteers in identifying, preventing and responding to incidents of hazing.

The district shall annually inform students, parents/guardians, district staff and volunteers that hazing is prohibited. This notification may occur through the distribution of the written policy, publication in handbooks, presentations at assemblies or verbal instructions by a coach or sponsor at the start of a season or program.

# SUICIDE AWARENESS AND PREVENTION - JHDF

Original Adopted Date: 01/23/2020 | Last Revised Date: 09/01/2022 | Last Reviewed Date: 09/01/2022

**Purpose -** Suicide is a leading cause of death among youths in Missouri and is a public health concern impacting all Missouri citizens. The district is committed to maintaining a safe environment to protect the health, safety and welfare of students.

This policy outlines key protocols and procedures the district will use to raise awareness of suicide and the steps that can be taken to prevent it. The goal of the district is to help students, including students receiving their education virtually, who may be at risk of suicide without stigmatizing students or excluding them from school. The board will provide the resources necessary to meet this goal. No student will be excluded from school based solely on the district's belief that the student is at risk of suicide.

#### **Definitions**

Crisis Response Team (CRT) – A team of district employees trained in suicide awareness and prevention.

Student at Risk of Suicide – A student who is demonstrating individual, relationship, community or societal factors that are associated with suicide and that in combination indicate that an individual might be contemplating suicide.

Suicide Crisis – A situation in which a person is attempting suicide or is seriously contemplating or planning suicide. Planning may include, but is not limited to, a timeframe and method for attempting suicide or obtaining or attempting to obtain the means to attempt suicide. A suicide crisis is considered a medical emergency requiring immediate intervention.

**Crisis Response Team -** The district will establish a district-level CRT and, if practical, a team in each building. CRT members will include administrators, counselors and the school nurse and may also include school social workers, school resource officers, teachers and community members as appropriate. The CRT will be responsible for implementation of the district's response plan.

The district will use an evidence-based/informed tool for determining whether a student is at risk of suicide or is having a suicide crisis. The CRT members and the building administrator will receive training and coaching in using this tool to assist in making determinations as to whether a student may be at risk of suicide and the appropriate response. Any such determination shall be made by multiple team members. If the district has a behavioral risk assessment team, a threat assessment team or any similar team that monitors students considered "at risk," those teams must immediately contact the CRT if the team has identified a student who might be at risk for self-harm or suicide.

**Response Plan -** District employees will respond immediately in situations where they have a reasonable belief that a student may be at risk of suicide or may be having a suicide crisis.

# Students Who May Be at Risk of Suicide

Any district employee who has a reasonable belief that a student may be at risk of suicide, even though the student is not having a suicide crisis as defined in this policy, will take the following steps:

- 1. Find another employee and make every effort to locate the student immediately. One of the employees must stay with the student.
- 2. While one employee stays with the student, the other will notify a CRT member or the building administrator or designee. If the employee cannot reach the building administrator, designee or any of the CRT members, the employee will contact the student's parent/guardian. If the parent/guardian is also unavailable, or at the parent's/guardian's request, the employee will contact emergency services.

When a CRT member or the building administrator or designee receives notification that a student may be at risk of suicide, the CRT member, administrator or designee will take the following steps:

- If the student cannot be located or leaves after being located, contact the parent/guardian to explain the district's concern.
- 2. If the student has been located, use an evidence-based/informed tool to determine whether the student is at risk of suicide and the appropriate response. Regardless of the determination, the building administrator or designee will contact the student's parent/guardian to discuss the concern.
- 3. If it is determined that the student may be at risk of suicide, appropriate members of the CRT will meet with the student and the student's parents/guardians to discuss support and safety systems, available resources, coping skills and collaborative ways to support the student.

## Students Who May Be Having a Suicide Crisis

If an employee reasonably believes that a student is having a suicide crisis, the employee will take the following steps:

- 1. Find another employee and make every effort to locate the student immediately. One of the employees must stay with the student.
- 2. Immediately report the situation to a CRT member or the building administrator or designee. If the employee cannot reach the building administrator, designee or any of the CRT members, the employee will notify the student's parent/guardian and contact emergency services. The employee may also contact the National Suicide Prevention Lifeline (800-273-8255) or 988 for assistance. As soon as practical, the employee will notify the building administrator or designee.

When a CRT member or the building administrator or designee receives notification that a student is believed to be having a suicide crisis, the CRT member, administrator or designee will take the following steps:

- 1. If the student cannot be located or leaves after being located, a CRT member or the building administrator or designee will contact the parent/guardian to explain the district's concern.
- 2. If the student has been located, the CRT member and the building administrator or designee will, based on their training and an assessment of the student, determine the appropriate action, including whether to call emergency services, and implement the appropriate response.
- At an appropriate time after the crisis has passed, appropriate CRT members will meet with the student and the student's parents/guardians to discuss support and safety systems, available resources, coping skills and collaborative ways to support the student.

Students Attending Virtually - In addition to monitoring the attendance and academic progress of students receiving education virtually (virtual learners), the district must also monitor virtual learners who may be at risk for suicide. Building administrators will develop procedures for monitoring the social/emotional health, including suicide risk, of virtual learners in conjunction with monitoring attendance and academic progress that will include:

- 1. Identifying staff members who will contact virtual learners on a regular basis;
- 2. Providing hard copies of student contact information to those assigned to contact virtual learners as a backup to Internet access of student records;
- 3. Creating a few questions designed to assess a virtual learner's social and emotional health that will be asked in conjunction with questions about academic progress;
- 4. Creating a written set of instructions for employees to follow if the employee suspects the virtual learner may be at risk of suicide or self-harm; and
- Notifying the CRT.

To the extent possible, the superintendent or designee will work with the teachers hired by Missouri Course Access and Virtual School Program (MOCAP) providers to solicit information about the social and emotional health of the virtual learners in their courses.

**Confidentiality -** Employees are required to share with the CRT and administrators or their designees any information that may be relevant in determining whether a student is at risk of suicide, is having a suicide crisis or is otherwise at risk of harm. Employees are prohibited from promising students that information shared by the student will be kept secret when the information is relevant to the student's safety or the safety of another person.

Release of a student's individually identifiable education records will be made in accordance with the Family Educational Rights and Privacy Act (FERPA). In accordance with FERPA, information contained in a student's education records may be revealed at any time to the student's parents/guardians and school personnel who have a legitimate interest in the information. Education records may be shared with other appropriate persons when necessary to protect the health or safety of the student or others. Abuse and Neglect

If any employee of the district has reasonable cause to believe a student has been or may be subjected to abuse or neglect or observes the student being subjected to conditions or circumstances that would reasonably result in abuse or neglect, the employee will contact the Child Abuse and Neglect Hotline in accordance with law and board policy.

Accommodating a Disability

If at any time a parent/guardian informs the district that a student has a medical condition or impairment that could require accommodation, district employees will contact the district's compliance coordinator to determine whether the student has a disability.

**School and Community Resources -** The district will, in collaboration with local organizations and the Missouri Department of Mental Health, identify local, state and national resources and organizations that can provide information or support to students and families. Copies of or links to resources will be available to all students and families on the district's website and in all district schools.

A CRT member will follow up with students who have been identified as being at risk of suicide or who have had a suicide crisis and their parents/guardians to offer additional assistance. The CRT will determine the number and frequency of follow-up visits. If a student transfers to virtual learning or is otherwise not present in school, the district will, to the extent possible, continue providing any supportive services the student was receiving from the district while in physical attendance.

The district will request permission from the parent/guardian to consult with the student's outside medical provider to assist in determining what interventions the district should use.

The Barton County Health Department wellness program coordinators, in consultation with the wellness committee, are charged with developing procedures addressing other school-based activities to promote wellness. These activities may include, but are not limited to, oral health, personal hygiene, sun safety, hearing protection, transmission of germs and communicable disease, symptoms of common health problems and chronic disease such as asthma and diabetes, and emergency procedures.

Response to Incidents Impacting the School - When the school community is impacted by the attempted suicide or death by suicide of a student, staff member or other person in the school community, the superintendent or designee will confer with the district-level CRT and, when appropriate, confer with local community resources and professionals to identify and make available supports that may help the school community understand and process the behavior or death.

The CRT and the superintendent or designee will determine appropriate procedures for informing the school community of an attempted suicide or death by suicide and the supports that will be offered. Staff and students who need immediate attention following an attempted suicide or death by suicide will be provided support and resources available through the district and will be given information about other resources.

Return to School Following a Suicide Attempt

Students who have attempted suicide are at greater risk to attempt to harm themselves again and require support when returning to school. The building administrator will designate an appropriate employee to serve as a case manager for a student returning to school after a suicide attempt. The case manager will:

- 1. Meet with the student and family prior to the return date;
- 2. Study the student's records, including the events that precipitated the attempt if available;
- 3. Provide information about the student to teachers and other staff members to the extent necessary to support the student's return:

- 4. Meet with the student regularly; and
- 5. Assist the student and family in finding supportive services outside of the school.

**Staff Education on Suicide Prevention and Response Protocol** - All district employees will receive information regarding this policy and the district's protocol for suicide awareness, prevention and response. This information will be provided to current employees and each new employee hired. The information will focus on the importance of suicide prevention, recognition of suicide risk factors, strategies to strengthen school connectedness, and response procedures and will include:

- 1. Strategies that can help identify students who are at possible risk of suicide;
- 2. Strategies and protocols for helping students at possible risk of suicide; and
- 3. Protocols for responding to a suicide death.

The district will also provide opportunities for district staff to participate in professional development regarding suicide awareness and prevention. Opportunities may include district-led training, access to web-based training, or training provided in other school districts or by local organizations or health professionals.

Suicide Prevention Education for Students

Starting no later than fifth grade, students will receive age-appropriate information and instruction on suicide awareness and prevention. Information and instruction may be offered in health education, by the counseling staff or in other curricula as may be appropriate.

**Policy Publication -** The district will notify employees, students and parents/guardians of this policy by posting this policy on the district's website and providing information about the policy to district employees. The district may also include information about the policy in appropriate district publications and student handbooks.

Rev. August 15, 2013

Public schools in the state of Missouri are required to conduct an annual census of all children with disabilities or suspected disabilities from birth through age twenty who reside in the district or whose parent/legal guardian resides in the district. This census is compiled as of May 1 of each year. This information is treated as confidential and submitted to the Missouri Department of High and Secondary Education. Information to be collected includes: name of each child, parent/legal guardian's name/address; birth date and age of each child; and each child's disability or suspected disability. Should the district fail to submit an annual census, the State Board of Education may withhold state aid until the census is submitted. If you have a child with a disability or know of a child with a disability who is not attending the public school, please contact your school district.

This notice can be provided in languages such as Chinese, Spanish, Arabic, and Vietnamese or any other language as may be necessary.

# FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Golden City R-III, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, Golden City R-III may disclose appropriately designated "directory information" without consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of the directory information is to allow the Golden City R-III to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weights and height
- of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the High and Secondary Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent. If you do not want Golden City R-III to disclose directory information from your child's educational records without your prior written consent, you must check the box on the handbook acknowledgement form. # Reporting

All persons must report incidents that might constitute illegal discrimination or harassment directly to the compliance officer or acting compliance officer. All district employees will direct all persons seeking to make a grievance directly to the compliance officer. Even if the potential victim of discrimination or harassment does not file a grievance, district employees are required to report to the compliance officer any observation, rumors or other information regarding discrimination or harassment prohibited by this policy. If a verbal grievance is made, the person shall be asked to submit a written complaint to the compliance officer or acting compliance officer. If a person refuses or is unable to submit a written complaint, the compliance officer will summarize the verbal complaint in writing. A grievance is not needed for the district to take action upon finding a violation of law, district policy or district expectations.

Students, employees and others may address concerns directly with the person alleged to have caused harassment or discrimination in an attempt to resolve the issue but are not expected or required to do so.

#### **Student-on-Student Harassment**

Building-level administrators are in a unique position to identify and address discrimination and harassment between students, particularly when behaviors are reported through the normal disciplinary process and not through a grievance. The administrator has the ability to immediately discipline a student for any behavior that otherwise would lead to disciplinary action in accordance with the district' discipline policy. The administrator will report all incidents of harassment and discrimination to the compliance officer and will direct the parent/guardian and student to the compliance officer for further assistance. The compliance officer may determine that the incident has been appropriately addressed or recommend additional action. When a grievance is filed, the investigation and complaint process detailed below will be used.

# Investigation

The district will immediately investigate all grievances. All persons are required to cooperate fully in the investigation.

The district compliance officer or other designated investigator may utilize an attorney or other professionals to conduct the investigation.

In determining whether an alleged conduct constitutes discrimination or harassment, the district will consider the surrounding circumstances, the nature of the behavior, the relationship between the parties involved, past incidents, the context in which the alleged incidents occurred and all other relevant information.

Whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances. If, after investigation, school officials determine that it is more likely than not that discrimination, harassment or other prohibited behavior has occurred, the district will take immediate action.

# **Grievance Process Overview**

- 1. If a person designated to hear a grievance or appeal is the subject of the grievance, the next highest step in the grievance process will be used.
- 2. Investigation and reporting deadlines are not mandatory upon the district when more time might be necessary to adequately conduct an investigation and to render a decision. When extended, the person filing the complaint will be notified. If more than twice the allotted time has expired without a response, the appeal may be taken to the next level.
- 3. Failure of the person filing the grievance to appeal within the timelines given will be considered an acceptance of the

- findings and remedial action taken.
- 4. The district will investigate all grievances, even if an outside enforcing agency such as the Office for Civil Rights, law enforcement or the CD is also investigating a complaint arising from the same circumstances.
- 5. The district will only share information regarding an individually identifiable student or employee with the person filing the grievance or other persons if allowed by law and in accordance with Board policy.
- 6. Upon receiving a grievance, district administration or supervisors, after consultation with the compliance officer, will take immediate action if necessary to prevent further potential discrimination or harassment during the pending investigation.

# **Grievance Process**

 Level I – A grievance is filed with the district' compliance officer. The compliance officer may, at his or her discretion, assign a school principal or other appropriate supervisor to conduct the investigation when appropriate. Regardless of who investigates the grievance, an investigation will commence immediately, but no later than ten (10) working days after the compliance officer receives the grievance that 1) summarizes the facts; 2) makes conclusions on whether the facts constitute a violation of this policy; and 3) if a violation of this policy is found, recommends corrective action to the superintendent. If someone other than the compliance officer conducts the investigation, the compliance officer or acting compliance officer will review and sign the report.

The person who filed the grievance will be notified in writing, in accordance with the law and district policy, regarding whether the policy has been violated.

- 2. Level II With five (5) working days after receiving the Level I decision, the person filing the grievance may appeal the compliance officer's decision to the superintendent by notifying the superintendent in writing. The superintendent may, at his or her discretion, designate another person (other than the compliance officer) to review the matter when appropriate. Within ten (10) working days, the superintendent will complete a written decision on the appeal, stating whether a violation of this policy is found and, if so, stating what corrective actions will be implemented. If someone other than the superintendent conducts the appeal, the superintendent will review and sign the report before it is given to the person appealing. A copy of the appeal and decision will be given to the compliance officer or acting compliance officer. The person who filed the grievance will be notified in writing, in accordance with the law and district policy, regarding whether the policy has been violated.
- 3. Level III Within five (5) working days after receiving the Level II decision, the person filing the grievance may appeal the superintendent's decision to the Board by notifying the Board secretary in writing. The person filing the grievance will be allowed to address the Board, and the Board may call for the presence of such other persons deemed necessary. The Board will issue a decision within 30 working days for implementation by the administration. The Board's decision and any actions taken are final. The Board secretary will give the compliance officer or acting compliance officer a copy of the appeal and decision. The person who filed the grievance will be notified in writing, in accordance with the law and district policy, regarding whether the policy has been violated.

# Confidentiality and Records

To the extent permitted by law and in accordance with Board policy, the district will keep confidential the identity of the person filing a grievance and any grievance or other document that is generated or received pertaining to grievances. Information may be disclosed if necessary to further the investigation, appeal or resolution of a grievance, or if necessary to carry out discipline measures. The district will disclose information to the district's attorney, law enforcement, the CD and others when necessary to enforce this policy or when required by law.

In implementing this policy, the district will comply with state and federal laws regarding the confidentiality of student and employee records. Information regarding any resulting employee or student disciplinary action will be maintained.

The above text is taken from Board Policy AC. The entire policy is available in the district's administrative offices.
