

Writing unit 7

Option 1

I think modern technology is great and very helpful. You can talk and see people from other part of the world in a second.

Facebook, Instagram, Twitter, etc, are faster and cheaper than writing postcards or letters.

At home, we have two computers, two tablets and two mobile phones.

My mother always says, "you play too much time with the nintendo switch"

My father says, " the tablet is bad for your eyes"

My grandparents don't like technology at all. They don't know how to use the mobile phone, they prefer reading and talking.

Sometimes they are right.

Writing unit 7

Option 2

Hi Ana,

I'm writing from Madrid, the capital city of Spain.

This photo is from an exciting, modern and expensive hotel in the centre of the city. It's one of the Royal Suits. It's the Ritz, R-I-T-Z.

It's a luxury hotel, the most expensive hotel here. You can find cheaper places to stay, but not so beautiful.

Visitors can go across the main hall to the panoramic elevator.

The hotel has 20 suits and 25 bedrooms so it is very exclusive.

It's the most incredible and awesome hotel i know.

Would you like to come one day?

Best wishes,

Marta
