

PRIVACY POLICY & END-USER LICENSE AGREEMENT

Rivano

Last updated: June 2026

Owner: Sviatlana Mikhailava

Contact: cjjcdujc59@gmail.com

1. Introduction

This Privacy Policy and End-User License Agreement ("Agreement") is a legally binding agreement between you ("User") and Sviatlana Mikhailava ("Developer"), the owner and operator of Rivano ("App").

By downloading, installing, accessing, or using the App, you confirm that you have read, understood, and agree to be bound by this Agreement.

If you do not agree, you must immediately discontinue use of the App.

The App is provided on an "AS IS" and "AS AVAILABLE" basis.

END-USER LICENSE AGREEMENT

2. License Grant

The Developer grants you a limited, personal, non-exclusive, non-transferable, and revocable license to use the App on Apple devices that you own or control, in accordance with Apple's Standard EULA.

You may NOT:

- Reverse engineer, decompile, disassemble, or attempt to extract the source code of the App
- Modify, adapt, or create derivative works of the App
- Copy, resell, sublicense, distribute, or commercially exploit the App
- Upload content that violates intellectual property, privacy, or publicity rights
- Submit photos of third parties without lawful consent

All rights not expressly granted remain the exclusive property of the Developer.

PRIVACY POLICY

3. Information We Collect

3.1 User-Provided Images

The App allows you to voluntarily upload:

- Photos from your device gallery
- Images captured using your device camera

These images may contain facial features.

No images are accessed, collected, or transmitted unless you explicitly:

1. Select the image; and
2. Confirm generation within the App interface.

The App does NOT access:

- Contacts
- Background photo libraries
- Location data
- Microphone
- Files unrelated to selected images

Only the image you actively choose is processed.

3.2 Technical Information

We may collect limited technical data, including:

- Device model
- iOS version
- App version
- Crash diagnostics

This data is used solely to maintain functionality, stability, and security.

It is not used for advertising, profiling, or tracking.

4. AI Processing and Infrastructure

All AI image generation and processing are performed exclusively on servers that are owned and fully controlled by the Developer.

The App does NOT use any third-party artificial intelligence providers, including but not limited to:

- OpenAI
- Google AI
- AWS AI services
- Microsoft Azure AI
- Stability AI
- Replicate
- Anthropic
- Or any similar external AI provider

When you select and confirm an image:

- The image is transmitted via encrypted HTTPS connection directly to the Developer's own server.
- The image is processed solely to generate the requested visual output.
- The generated result is returned securely to your device.

No user images, facial data, or generated outputs are shared with, transmitted to, or processed by any third party.

There is no hidden or background data transmission.

Before any data is transmitted, the App explicitly requests user consent via an in-app confirmation screen. Users must agree before processing begins.

5. Collection, Use, and Storage of Facial Data

The app may request access to your device's camera and/or photo library to upload images that may contain facial images. These images are used exclusively to generate AI-powered content requested by the user.

What is collected: facial images contained in photos uploaded by the user.

How it is used: images are processed solely to generate AI-powered content requested by the user.

Disclosure and sharing: facial data is not sold, shared, or used for advertising, marketing, profiling, or facial recognition purposes.

Storage: uploaded images may be temporarily stored on secure servers solely for processing and content generation.

Retention period: facial images are retained only for the minimum period necessary to provide the requested service and are automatically deleted after processing is complete.

Additional information regarding facial data:

- The App does not perform facial recognition.
- The App does not identify individuals.
- The App does not create biometric identifiers.
- The App does not create biometric templates.
- The App does not create facial embeddings.
- The App does not create face geometry maps.
- The App does not build face databases.
- Facial images are not used for identity verification.
- Facial images are not used for advertising or marketing purposes.
- Facial images are not used for behavioral profiling or analytics.

Facial features contained within uploaded images are processed solely as visual elements required to generate AI-powered content requested by the user.

6. Data Retention

Uploaded images are processed in real time.

The Developer does not permanently store:

- Uploaded photos
- Facial data
- Biometric information
- Generated embeddings

Images are automatically deleted from processing systems immediately after generation is completed.

Generated outputs may be saved locally on your device at your discretion.

7. Data Sharing

The Developer does NOT:

- Sell user data
- Rent user data
- Trade user data
- Share user images with advertisers
- Share user images with data brokers

Information may only be disclosed if required by law or legal process.

8. User Responsibilities

By uploading any image, you represent and warrant that:

- You are the owner of the image; or
- You have obtained all necessary rights, permissions, and consents to use the image.

You agree not to upload:

- Images of individuals without their consent
- Copyrighted content without authorization
- Illegal, defamatory, or unlawful material

You are solely responsible for the content you submit.

The Developer does not claim ownership of your uploaded content. You grant the Developer a limited, non-exclusive license to process the content solely for providing the App's functionality.

9. Children's Privacy

The App is not intended for individuals under the age of 16 (or the minimum age required in your jurisdiction).

We do not knowingly collect personal data from children.

10. Data Security

All data transmissions use encrypted HTTPS connections.

The Developer implements reasonable technical and organizational safeguards designed to protect data against unauthorized access, alteration, disclosure, or destruction.

No system can guarantee absolute security.

11. Governing Law

This Agreement shall be governed by and construed in accordance with the laws applicable in the Developer's jurisdiction, without regard to conflict of law principles.

12. Changes to This Policy

The Developer reserves the right to update this Agreement at any time.

Continued use of the App after updates are published constitutes acceptance of the revised terms.
