

## How to create a YouTube Channel to upload video

1. Go to [YouTube.com](https://www.youtube.com) and sign in with your full Google email address and password.
2. Click on the dropdown arrow on the top right, and select My Channel (See below)

3. Fill out the required information (Your birthdate does not need to be the real month/date/year).

A screenshot of the 'Set up your channel on YouTube' form. The form is divided into two main sections: 'How you'll appear' and 'What you'll get'.  
**How you'll appear**  
This section contains fields for 'First name' and 'Last name'. Below these is a checkbox for 'Add photo'. There is also a 'Gender' dropdown menu and a 'Birthday' section with dropdowns for 'Month', 'Day', and 'Year'. At the bottom of this section is a checkbox for 'Google may use my account information to personalize +1s on content and ads on non-Google web sites.' with a link to 'About personalization'.  
**What you'll get**  
This section contains two items:  
1. 'A YouTube channel': A red YouTube play button icon followed by the text 'A YouTube channel'. Below it, it says 'Your name will appear on your YouTube channel along with your public videos and playlists. Learn more.'  
2. 'A Google+ profile': A red Google+ icon followed by the text 'A Google+ profile'. Below it, it says 'Your channel comes with a public Google+ profile. It helps friends find your videos and other content you share on Google. Learn more.'  
At the bottom of the form are two buttons: 'Cancel' and 'Continue'.

4. You have successfully created a YouTube Channel and will be able to upload from any device using your email address and password!
