

# Asindu Drileba.

Software developer.

Kampala, Uganda

phone: (+256) 783-000-549)

email: [drileba.asindu@gmail.com](mailto:drileba.asindu@gmail.com)

git : <https://github.com/as1ndu>

website: <https://asindu.xyz>

## EDUCATION

### International University of East Africa, – Bachelor Of Architecture

2015 - 2019

## WORK EXPERIENCE

### Talos Allocations, Kampala, Uganda — *Software Developer*

2021 - Present

Implemented several crypto trading strategies in Python and Rust using the Binance Futures API. Also built a simple front end to monitor trading positions.

### Zilliqa, remote — *Grant recipient*

2019 - 2020

Received a grant to work on the Vscode extension for the scilla programming language using Typescript. The extension has been installed for over 1,000 times.

### Blockchain Asset Group, Kampala — *Chief Technology Officer*

2017 - 2018

I worked on their Over The Counter (OTC) product. Used Python and the Flask web framework to create a platform that facilitates financial transactions and stores transaction history.

### Numerai, remote — *Data Scientist*

2016

Participated in the Numerai data science contest. Used Python and the Keras deep learning framework to create a machine learning model that classifies data points according to provided feature sets.

## SKILLS

Python (Flask, Pandas, Keras, Numpy)

Flutter/Dart

HTML/CSS3

TypeScript/JavaScript

Rust

PostgreSQL

Cloud (AWS, Google Cloud)
