ThatMan's Commission Page

ABOUT ME

Hello! I want to thank you for taking the time to look at my comms page!

Why am I opening Comms:

I want to provide my paid services to help create items for people. Will this affect my upload and work- No! This will be a way to A: Support me, and B: help me improve. That is why my prices can be both reasonably cheap to somewhat expensive. Depending on the work, the price may lower or go up.

Take Down Requests:

Take Down Requests, by author of any substance inside of a render, post, or equal, be it character, character design, images or text, description, or attribution to said author, must be upheld by Man in removing images, posts, and references or defined by said author or authors that are included in any form of post, media, or artistic work.

All information will not be shared privately or publicly unless mandated by local or federal law or lawful request mandated by such legal entities.

Right to Decline:

ThatMan has the right to decline any commission without reason. Commissions may be terminated based on failure of communication, rude or hostile behavior, or other situations per context.

Payment Method:

Clients must be able to purchase a commission at the time of request in full but may not be required to purchase in full. Each client will receive a PayPal Invoice. Projects will not start UNTIL the bare minimum amount is paid in full. Each commission will state what that amount is. Only when payment is completed in full, will the product be shipped without pending watermarks.

Refunds:

ThatMan will refund a client to the extent of reason. For fully terminated projects, funds relating to the initiation of the work or the time used to create the service or product may not be refunded.

Discounts & Pricing:

Payment prices are calculated based on the base prices, edits, and the intuition of ThatMan himself. Prices will be set at a reasonable amount for quality. ThatMan will **NOT**, under ANY circumstances, round payment **UP**, but is allowed to round **DOWN**. ThatMan holds the right to include or exclude discounts to any user. During the initial invoice, a discount offer may or may not be presented. If a discount offer is present during the invoice phase, it must be upheld by ThatMan unless the client initially refuses the discount. If a discount is offered after a service, it must be applied only before final payment and not after. If payment exceeds the discounted price, refunds may not be available.
